

Don't miss out!

You only **need to apply once** to find out if you are eligible for benefit and credit payments. Then you need to do your taxes every year to continue getting payments, even if your income is tax exempt or you had no income at all.

We use the information from your tax return to calculate your federal benefit and credit payments, and any related provincial and territorial payments.

You could get up to:

\$6,639

annually per child in Canada child benefit payments

\$580

annually in GST/HST credit payments + \$153 annually per child

\$2,335

for the Canada workers benefit (formerly the working income tax benefit); you could also apply for advance payments

\$2,832

annually in child disability benefit payments if your child is eligible for the disability tax credit

RC4508-1 Rev. 19

How do you apply?

Find all the information you need on how to apply for benefits and credits at:

canada.ca/child-family-benefits or call **1-800-387-1193.**

We can help!

If you have a modest income and a simple tax situation, volunteers from the Community Volunteer Income Tax Program can do your taxes for you, for free. Find a tax preparation clinic near you at canada.ca/taxes-help.
