## Chief Administrator's Message

I am very pleased to present the first Departmental Performance Report for the Administrative Tribunals Support Service of Canada (ATSSC).

Established on November 1, 2014 with the coming into force of the *Administrative Tribunals Support Service of Canada Act*, the ATSSC's mandate is to provide support services and facilities to 11 administrative tribunals by way of a single, integrated organization. These support services include specialized and expert support services, registry services and corporate services.

The creation of the ATSSC is consistent with the government's ongoing commitment to improve the effectiveness and efficiency of its administration and operations. By consolidating the provision of support services for 11 administrative tribunals, the government is strengthening overall capacity and modernizing operations to better meet the administrative needs of federal tribunals and to improve access to justice for Canadians.

This report outlines the ATSSC's key accomplishments from its creation on November 1, 2014 to March 31, 2015. During that period, the ATSSC focused on developing and implementing management practices and controls by identifying and establishing governance structures, increasing the use of common processes and systems, standardizing internal service processes, where feasible, adopting new technologies, and making better use of facilities. Draft operational and strategic plans have been developed and once final, will guide the new organization as it continues to evolve.

Working collaboratively with the tribunals it serves, the ATSSC endeavoured to ensure that new working relationships, systems and processes were built and implemented with minimal disruption to the tribunals and Canadians. The independence of the tribunals on adjudicative and other substantive matters remained safeguarded.

For ease of reference, the 2014-15 Departmental Performance Reports of the tribunals supported by the ATSSC are annexed to this report.

I would like to express my sincere appreciation to ATSSC employees and to the tribunal chairpersons and members for the professionalism and collaborative spirit demonstrated on a daily basis. Our collective achievements have contributed to improving access to justice for Canadians, while establishing a solid foundation for the ATSSC to build upon for its success in the future.

Marie-France Pelletier  
Chief Administrator

## Organizational Context

### **Raison d’être**

The ATSSC is responsible for the provision of the support services and the facilities that are needed by each of the administrative tribunals it serves to exercise powers and perform duties and functions in accordance with their legislation and rules.

### **Responsibilities**

The ATSSC was established with the coming into force on November 1, 2014 of the *Administrative Tribunals Support Service of Canada Act*. The ATSSC is responsible for providing support services and facilities to 11 federal administrative tribunals<sup>1</sup> by way of a single, integrated organization.

The ATSSC provides the full range of support services and facilities required by the tribunals to meet their statutory obligations. These services include specialized and expert support services (e.g., research and analysis, legal and other case-specific work), registry services and corporate services (e.g., human resources, financial services, information technology, accommodations and communications).

## Strategic Outcome (SO) and Program Alignment Architecture (PAA)

**Strategic Outcome:** Efficient and effective services which support tribunal chairs and members in exercising their statutory responsibilities and ensure that their independence is protected in a manner which promotes Canadians’ confidence in the federal tribunal system.

**1.1 Program:** Tribunal Specialized and Expert Support Services

**1.2 Program:** Registry Services

**1.3 Program:** Payments to tribunal chairs and members

**Internal Services**

### Organizational Priorities

Priority	Type	Strategic Outcome and Programs
Maintain the delivery of effective support services	New	SO Program 1.1 Program 1.2 Program 1.3 Internal services
<b>Summary of Progress</b>		
<p>This priority was identified in the ATSSC’s first Report on Plans and Priorities for 2015–16. Progress toward this priority will be reported on in the ATSSC’s 2015–16 Departmental Performance Report.</p> <p>To prepare for the coming into force of the <i>Administrative Tribunals Support Service of Canada Act</i>, tribunals worked closely with their respective portfolio departments, the Department of Justice and where appropriate, the Treasury Board of Canada Secretariat on changes to tribunal enabling legislation, regulations and rules that were necessary to reflect the creation of the ATSSC.</p> <p>A steering committee and functional working groups ensured that transition plans, policy frameworks, delegation instruments, clear roles and responsibilities, and systems were in place to ensure continuity of service upon the coming into force of the ATSSC on November 1, 2014.</p> <p>In support of this priority, significant steps were taken to establish integrated management and internal services functions. More specifically, a multi-tier governance structure was developed and implemented to support open and transparent decision making. Draft strategic and operational plans, with a focus on the consolidation and harmonization of internal services</p>		

(finance, human resources, IM/IT, security, etc.) were developed and its implementation initiated with the aim of having minimal disruption to tribunal operations, or to services provided to Canadians.

During this period, tribunals continued to work with expert staff assigned to work in direct support to each tribunal, through the provision of registry, legal and other expert support services. This ensures that case-specific support to tribunals is maintained, as well as continual and uninterrupted service to Canadians.

Priority	Type	Strategic Outcome and Programs
Transitioning toward comprehensive and integrated internal services	New	SO Program 1.1 Program 1.2 Program 1.3 Internal services

#### Summary of Progress

This priority was identified in the ATSSC's 2015–16 Report on Plans and Priorities. Progress toward this priority will be reported on in the ATSSC's 2015–16 Departmental Performance Report.

The ATSSC made progress toward this priority through the following initiatives:

#### **Consolidation of Internal Services**

Internal services personnel and resources were consolidated under functional heads to facilitate the implementation of common service delivery models, policies, systems and practices; to increase sustainability and continuity of services; and to increase opportunities for employee development and advancement. Centres of expertise on access to information and privacy and travel were launched to serve the needs of the tribunals and to coordinate policy requirements. Internal services personnel were relocated to common workspaces, allowing for effective and efficient collaboration.

#### **Systems and Networks**

The information technology (IT) infrastructure of the tribunals continues to be supported. An integrated financial and materiel management system (SAP) was introduced on March 1, 2015, consolidating the multiple financial systems of the tribunals into one application. Planning for

the consolidation of a common Human Resources Information System (HRIS) was initiated.

### **Policies and Processes**

Critical policy instruments (i.e., frameworks, policies, processes) were developed and implemented to support integrated planning and budget management, and staffing and performance management. These included the Directive on Contracting for the Acquisition of Goods and Services and the Human Resources Delegation Instrument.

The development of other policy instruments was also initiated and is ongoing, including: internal controls, material management and security frameworks; and standardized expenditure, travel and revenue management procedures.

## **Risk Analysis**

### Key Risks

Please note that these key risks were first identified in the ATSSC's 2015-2016 Report on Plans and Priorities.

Risk	Risk Response Strategy	Link to Program Alignment Architecture
The ability to manage caseload surges that challenge the ATSSC's capability to provide the required level of support to the tribunals to discharge their mandates	<p>Strategies are developed to address tribunals that face higher than expected caseloads.</p> <p>Budget planning and allocations are monitored closely to appropriately reallocate resources if and where required.</p> <p>Emerging trends are monitored to determine the potential impact on caseloads.</p> <p>Legislative changes are monitored to assess the impact on ATSSC resources.</p>	SO Program 1.1 Program 1.2

Risk	Risk Response Strategy	Link to Program Alignment Architecture
<p>The ability to meet increased corporate accountability expectations (e.g., reporting, security, procurement)</p>	<p>A human resources management strategy is being developed to support the organization's strategic priorities and ensure the ATSSC is properly resourced to meet its mandate.</p> <p>A functional review will inform this strategy, which will include training and employee engagement plans.</p>	<p>SO Program 1.1 Program 1.2</p>
<p>Adverse impacts of change</p>	<p>Senior management is fostering a culture of leadership at all levels to assist in managing the impacts of change within the organization.</p> <p>A change agent network and a business transformation team have been established to assist in assessing the impacts of change and taking a change management approach to major initiatives.</p> <p>The ATSSC has established a governance structure that seeks input on major organizational initiatives and supports a culture of openness, transparency and engagement.</p>	<p>SO</p>
<p>Lack of an integrated security and emergency management framework</p>	<p>The ATSSC is assessing its capacity to respond to security and emergency management risks and is building capacity where required.</p> <p>An integrated security plan will be developed that addresses both physical and information security compliance requirements.</p>	<p>SO Program 1.1 Program 1.2</p>

## Actual Expenditures

Note that as the ATSSC came into force on November 1, 2014, figures for the period 2012-14 in the tables below do not exist. In addition, figures related to the 2014-15 Main Estimates and 2014-15 Planned Spending do not exist as the ATSSC was created after these processes were finalized.

### Program 1.2: Registry Services

#### Description

The Registry Services Program provides registry services in support of tribunals. The Program works closely with tribunal chairs and members to ensure that matters before the Tribunals are heard and disposed of in a timely, fair, impartial and efficient manner and within statutory obligations. Services provided include: processing tribunal documents; maintaining and safeguarding tribunal records; providing information to the public regarding tribunal procedures; assisting in the scheduling and conduct of tribunal hearings and assisting in communicating tribunal decisions to the parties and the public. The Registry Services Program is also responsible for developing and monitoring service standards, assessing the performance of registry functions and implementing required improvements.

## Appendix A: Tribunal Departmental Performance Reports

The *Administrative Tribunals Support Service of Canada Act* deemed all financial and human resources of the 11 tribunals to the ATSSC as of November 1, 2014 when the ATSSC came into force.

The tribunals supported by the ATSSC have prepared their final DPRs to address their performance against the measures in their respective 2014–15 Reports on Plans and Priorities for the period April 1, 2014 to October 31, 2014. Those reports are also available on the tribunal websites.

## Appendix B: Definitions

**appropriation** (*crédit*): Any authority of Parliament to pay money out of the Consolidated Revenue Fund.

**budgetary expenditures** (*dépenses budgétaires*): Includes operating and capital expenditures; transfer payments to other levels of government, organizations or individuals; and payments to Crown corporations.

**Departmental Performance Report** (*rapport ministériel sur le rendement*): Reports on an appropriated organization's actual accomplishments against the plans, priorities and expected results set out in the corresponding Report on Plans and Priorities. These reports are tabled in Parliament in the fall.

**full-time equivalent** (*équivalent temps plein*): Is a measure of the extent to which an employee represents a full person-year charge against a departmental budget. Full-time equivalents are calculated as a ratio of assigned hours of work to scheduled hours of work. Scheduled hours of work are set out in collective agreements.

**Government of Canada outcomes** (*résultats du gouvernement du Canada*): A set of 16 high-level objectives defined for the government as a whole, grouped in four spending areas: economic affairs, social affairs, international affairs and government affairs.

**Management, Resources and Results Structure** (*Structure de la gestion, des ressources et des résultats*): A comprehensive framework that consists of an organization's inventory of programs, resources, results, performance indicators and governance information. Programs and results are depicted in their hierarchical relationship to each other and to the Strategic Outcome(s) to which they contribute. The Management, Resources and Results Structure is developed from the Program Alignment Architecture.

**non-budgetary expenditures** (*dépenses non budgétaires*): Includes net outlays and receipts related to loans, investments and advances, which change the composition of the financial assets of the Government of Canada.

**performance** (*rendement*): What an organization did with its resources to achieve its results, how well those results compare to what the organization intended to achieve and how well lessons learned have been identified.

**performance indicator** (*indicateur de rendement*): A qualitative or quantitative means of measuring an output or outcome, with the intention of gauging the performance of an organization, program, policy or initiative respecting expected results.

**performance reporting** (*production de rapports sur le rendement*): The process of communicating evidence-based performance information. Performance reporting supports decision making, accountability and transparency.

**planned spending** (*dépenses prévues*): For Reports on Plans and Priorities (RPPs) and Departmental Performance Reports (DPRs), planned spending refers to those amounts that receive Treasury Board approval by February 1. Therefore, planned spending may include amounts incremental to planned expenditures presented in the Main Estimates.

A department is expected to be aware of the authorities that it has sought and received. The determination of planned spending is a departmental responsibility, and departments must be able to defend the expenditure and accrual numbers presented in their RPPs and DPRs.

**plan** (*plan*): The articulation of strategic choices, which provides information on how an organization intends to achieve its priorities and associated results. Generally a plan will explain the logic behind the strategies chosen and tend to focus on actions that lead up to the expected result.

**priorities** (*priorité*): Plans or projects that an organization has chosen to focus and report on during the planning period. Priorities represent the things that are most important or what must be done first to support the achievement of the desired Strategic Outcome(s).

**program** (*programme*): A group of related resource inputs and activities that are managed to meet specific needs and to achieve intended results and that are treated as a budgetary unit.

**Program Alignment Architecture** (*architecture d'alignement des programmes*): A structured inventory of an organization's programs depicting the hierarchical relationship between programs and the Strategic Outcome(s) to which they contribute.

**Report on Plans and Priorities** (*rapport sur les plans et les priorités*): Provides information on the plans and expected performance of appropriated organizations over a three-year period. These reports are tabled in Parliament each spring.

**result** (*résultat*): An external consequence attributed, in part, to an organization, policy, program or initiative. Results are not within the control of a single organization, policy, program or initiative; instead they are within the area of the organization's influence.

**statutory expenditures** (*dépenses législatives*): Expenditures that Parliament has approved through legislation other than appropriation acts. The legislation sets out the purpose of the expenditures and the terms and conditions under which they may be made.

**Strategic Outcome** (*résultat stratégique*): A long-term and enduring benefit to Canadians that is linked to the organization's mandate, vision and core functions.

**sunset program** (*programme temporisé*): A time-limited program that does not have an ongoing funding and policy authority. When the program is set to expire, a decision must be made whether to continue the program. In the case of a renewal, the decision specifies the scope, funding level and duration.

**target** (*cible*): A measurable performance or success level that an organization, program or initiative plans to achieve within a specified time period. Targets can be either quantitative or qualitative.

**voted expenditures** (*dépenses votées*): Expenditures that Parliament approves annually through an Appropriation Act. The Vote wording becomes the governing conditions under which these expenditures may be made.

**whole-of-government framework** (*cadre pangouvernemental*): Maps the financial contributions of federal organizations receiving appropriations by aligning their Programs to a set of 16 government-wide, high-level outcome areas, grouped under four spending areas.
