Payroll employment, earnings and hours

November 2008 (preliminary)

The average weekly earnings of employees increased 0.4% from October to \$804.58 in November. Compared with November 2007, average weekly earnings rose 2.7%.

Among Canada's largest industrial sectors, between November 2007 and November 2008, earnings increased by 4.8% in educational services, 4.6% in health and social assistance, 1.6% in retail trade, 1.3% in manufacturing, and 1.0% in accommodation and food services.

Among the provinces, the strongest year-over-year earnings growth was reported in Alberta (+5.8%), Saskatchewan (+4.2%), and Newfoundland and Labrador (+4.0%).

The number of employees in November fell by 89,700 or 0.6% from the previous month. Since November 2007, the number of employees has increased by 96,000 (+0.7%).

Available on CANSIM: tables 281-0023 to 281-0046.

Definitions, data sources and methods: survey number 2612.

Detailed industry data, data by size of enterprise based on employment, and other labour market indicators will be available soon in the monthly publication *Employment, Earnings and Hours* (72-002-XIB, free).

Data on payroll employment, earnings and hours for December will be released on February 26.

For more information, or to order data, contact Client Services (toll-free 1-866-873-8788; 613-951-4090; labour@statcan.gc.ca). To enquire about the concepts, methods or data quality of this release, contact Peter Lorenz (613-951-4167), Labour Statistics Division.

Railway carloadings

November 2008

The Canadian railway industry loaded 22.4 million metric tonnes in November, down 8.3% from November 2007 and the lowest amount loaded for the month of November in six years.

Both non-intermodal and intermodal transportation systems experienced decreased activity for the month.

Non-intermodal loadings fell 7.5% from November 2007 to 20.2 million metric tonnes. Overall, 39 of the 64 commodity groups registered decreased activity for the month. These commodities with losses in tonnage loaded represented 58.9% of the total non-intermodal loadings. The drop was heavily influenced by reduced

loadings of coal, potash, lumber, wood pulp and other basic chemicals. These five commodity groups accounted for 30.0% of the total non-intermodal loadings.

Despite the overall decline in non-intermodal loadings, some major commodity groups saw increased activity. These included wheat (+39.7%), colza seeds (+8.2%) and iron ore and concentrates (+4.9%).

Intermodal loadings fell 15.5% to 2.2 million metric tonnes from November 2007. Containerized cargo and trailers on flat cars decreased by 15.7% and 10.5% respectively.

Rail freight traffic coming from the United States fell to 2.8 million metric tonnes, down 6.5% compared with November 2007.

Available on CANSIM: table 404-0002.

Definitions, data sources and methods: survey number 2732.

The November 2008 issue of *Monthly Railway Carloadings*, Vol. 85, no. 11 (52-001-XWE, free), is now available from the *Publications* module of our website.

For more information, or to enquire about the concepts, methods or data quality of this release, contact the Dissemination Unit (toll-free 1-866-500-8400; fax: 613-951-0009; transportationstatistics@statcan.gc.ca), Transportation Division. ■

Placement of hatchery chicks and turkey poults

December 2008 (preliminary)

Placements of hatchery chicks on farms totalled 57.3 million birds in December, down 3.6% from December 2007. Placements of turkey poults on farms decreased 11.6% to 1.5 million birds.

Available on CANSIM: table 003-0021.

Definitions, data sources and methods: survey number 5039.

For more information, or to enquire about the concepts, methods or data quality of this release, contact Bernadette Alain (902-893-7251 bernadette.alain@statcan.gc.ca), Agriculture Division. ■

Production and disposition of tobacco products

December 2008

Canadian manufacturers produced 1.1 billion cigarettes in December, down 36.9% from November. The total number of cigarettes sold increased by 31.4% to 1.7 billion and closing inventories decreased by 27.4% to 1.8 billion cigarettes in December.

Note: This survey collects data on the production of tobacco products in Canada by Canadian manufacturers and the disposition or sales of this production. It does not collect data on imported tobacco products. Therefore, sales information in this release is not a proxy for domestic consumption of tobacco products.

Available on CANSIM: table 303-0062.

Definitions, data sources and methods: survey number 2142.

The December 2008 issue of *Production and Disposition of Tobacco Products*, Vol. 37, no. 12 (32-022-XWE, free), is now available from the *Publications* module of our website.

For more information, or to enquire about the concepts, methods or data quality of this release, contact the dissemination officer (613-951-9497; toll-free 1-866-873-8789; manufact@statcan.gc.ca), Manufacturing and Energy Division. ■

Released at 9:30 a.m. Eastern time

Releases

Canada's balance of international payments, first quarter 2008 2
The current account surplus with the rest of the world (on a seasonally adjusted basis) increased sharply to \$5.5 billion in the first quarter of 2008, led by higher prices for several export commodities combined with a lower trade deficit. In the financial account, foreign investment flows into Canada slowed significantly from the expansion-driven pace of the previous quarter, while Canadian direct investment abroad continued to strengthen.
