Energy use and greenhouse gas emissions 2003 (revised) and 2004 (preliminary)

Data from the material and energy flow accounts on energy use and greenhouse gas emissions by industries, governments and households are now available. The material and energy flow accounts describe the annual flows of materials and energy between the Canadian environment and economy. These data are available at the national level only.

Available on CANSIM: tables 153-0031 to 153-0034 and 153-0046.

Data tables are available upon request.

The publication *Concepts, Sources and Methods of the Canadian System of Environmental and Resource Accounts* (16-505-GIE, free) is available from the *Publications* module of our website. It describes in detail the conceptual framework, data sources and empirical methods used to compile the Canadian System of Environmental and Resource Accounts. This publication was originally released in 1997 (16-505-GPE).

For more information, or to enquire about the concepts, methods or data quality of this release, contact the information officer (613-951-0297; fax: 613-951-0634; environ@statcan.ca), Environment Accounts and Statistics Division. ■
