Study: Factors associated with patterns of psychological distress over 10 years

1994/1995 to 2004/2005

The study "Using the National Population Health Survey to identify factors associated with patterns of psychological distress over 10 years," published recently in the journal *Healthcare Policy*, uses longitudinal data to examine factors associated with patterns of psychological distress in a group of individuals over a 10-year period.

While the vast majority of individuals did not experience an episode of high distress from 1994/1995 to 2004/2005, a sizeable number experienced single or multiple episodes at levels likely to be clinically relevant. More than 1.6 million Canadians experienced multiple episodes of distress during this decade, and almost 3 million more experienced at least one episode.

Certain characteristics were associated with a higher likelihood of experiencing either a single or multiple episodes. The people most likely to experience distress were women, younger people, those who were single or previously married, and those who had low income or who were not employed.

The study also points to a low prevalence of professional contact regarding mental and emotional health, even among those recently experiencing distress. About 65% of people in the multiple-episode group who had recently experienced high distress had not consulted a health professional about their mental or emotional health during the past year, nor had 75% of those in the single-episode group.

Note: Data from the National Population Health Survey (NPHS) between 1994/1995 and 2004/2005 were used to group individuals based on their pattern of episodes of high distress.

Definitions, data sources and methods: survey number 3225.

An abstract of the study is available online (www.healthcarepolicy.net).

NPHS micro data are available at Statistics Canada's research data centres. For more information, visit the *Research Data Centre* page of our website. ■

Industrial chemicals and synthetic resins

June 2008

Data on industrial chemicals and synthetic resins for June are now available.

Available on CANSIM: table 303-0014.

Definitions, data sources and methods: survey number 2183.

The June 2008 issue of *Industrial Chemicals and Synthetic Resins*, Vol. 51, no. 6 (46-002-XWE, free), is now available from the *Publications* module of our website.

For more information, or to enquire about the concepts, methods or data quality of this release, contact the dissemination officer (toll-free 1-866-873-8789; 613-951-9497; manufact@statcan.ca), Manufacturing and Energy Division. ■

New products

Industrial Chemicals and Synthetic Resins,
June 2008, Vol. 51, no. 6
Catalogue number 46-002-XWE
(free).

All prices are in Canadian dollars and exclude sales tax. Additional shipping charges apply for delivery outside Canada.

Catalogue numbers with an -XWE, -XIB or an -XIE extension are Internet versions; those with -XMB or -XME are microfiche; -XPB or -XPE are paper versions; -XDB or -XDE are electronic versions on diskette; -XCB or -XCE are electronic versions on compact disc; -XVB or -XVE are electronic versions on DVD and -XBB or -XBE a database.

How to order products

To order by phone, please refer to:

- The title
 - The catalogue number
 - The volume number
 - The issue number
 - Your credit card number.
- From Canada and the United States, call: **1-800-267-6677**
From other countries, call: **1-613-951-2800**
To fax your order, call: **1-877-287-4369**
For address changes or account inquiries, call: **1-877-591-6963**

To order by mail, write to: Statistics Canada, Finance, 6th floor, R.H. Coats Bldg., Ottawa, K1A 0T6.
Include a cheque or money order payable to **Receiver General of Canada/Publications**. Canadian customers add 5% GST and applicable PST.

To order by Internet, write to: infostats@statcan.ca or download an electronic version by accessing Statistics Canada's website (www.statcan.ca). From the *Our products and services* page, under *Browse our Internet publications*, choose *For sale*.

Authorized agents and bookstores also carry Statistics Canada's catalogued publications.
