For the  
Fiscal year ending  
March 31, 2013

## The Estimates Documents

Each year, the government prepares Estimates in support of its request to Parliament for authority to spend public funds. This request is formalized through the introduction of appropriation bills in Parliament. The Estimates, which are tabled in the House of Commons by the President of the Treasury Board, consist of the following:

**Part I – The Government Expenditure Plan** provides an overview of federal spending and summarizes the key elements of the Main Estimates.

**Part II – The Main Estimates** directly support the Appropriation Act. The Main Estimates identify the spending authorities (Votes) and amounts to be included in subsequent appropriation bills. Parliament will be asked to approve these Votes to enable the government to proceed with its spending plans. Parts I and II of the Estimates are tabled on or before March 1.

**Part III – Departmental Expenditure Plans** are divided into two components:

- 1) **Reports on Plans and Priorities (RPP)** are individual expenditure plans for each department and agency (excluding Crown corporations). These reports provide increased levels of detail over a three-year period on an organization's main priorities by strategic outcome(s), program activity(ies) and planned/expected results, including links to related resource requirements. The RPPs also provide additional details on risk management, operational and management priorities, transformational projects and grants and contributions, etc. They are tabled in Parliament in the spring by the President of the Treasury Board on behalf of the ministers who preside over the appropriation-dependent departments and agencies identified in Schedules I, I.1 and II of the *Financial Administration Act*. These documents are referred to committees, which may then report to the House of Commons pursuant to Standing Order 81(7).
- 2) **Departmental Performance Reports (DPR)** are individual department and agency accounts of results achieved against planned performance expectations as set out in respective RPPs. These Performance Reports, which cover the most recently completed fiscal year, are tabled in Parliament in the fall by the President of the Treasury Board on behalf of the ministers who preside over the appropriation-dependent departments and agencies identified in Schedules I, I.1 and II of the *Financial Administration Act*.

**Supplementary Estimates** directly support an Appropriation Act. The Supplementary Estimates identify the spending authorities (Votes) and amounts to be included in the subsequent appropriation bill. Parliamentary approval is required to enable the government to proceed with its spending plans. Supplementary Estimates are normally tabled three times a year, the first document in May, the second in late October and the final in late February. Each Supplementary Estimates document is identified alphabetically A, B, C, etc. In special circumstances, more than three Supplementary Estimates documents can be published in any given year.

The Estimates, along with the Minister of Finance's Budget, reflect the government's annual budget planning and resource allocation priorities. In combination with the subsequent reporting of financial results in the Public Accounts and of accomplishments achieved in DPRs, this material helps Parliament hold the government to account for the allocation and management of public funds.

## Introduction to Supplementary Estimates

### *Structure of these Supplementary Estimates*

This Supplementary Estimates document is presented in four sections:

1. *Introduction to Supplementary Estimates;*
2. *Summary Tables;*
3. *Details by Department, Agency and Crown Corporation; and*
4. *Annex.*

### *Purpose and General Information*

Each year, the government prepares Estimates in support of its request to Parliament for authority to spend public funds. This request for spending authority is formalized through the introduction of appropriation bills in Parliament. The Main Estimates and Supplementary Estimates are tabled in the House of Commons by the President of the Treasury Board and support Parliament's consideration of the appropriation bills. As with other bills, appropriation bills become law after being approved by both the House of Commons and the Senate and receiving Royal Assent.

The purpose of Supplementary Estimates is to present to Parliament information on the Government of Canada's spending requirements which were either not sufficiently developed in time for inclusion in the Main Estimates, or have subsequently been refined to account for developments in particular programs and services.

Supplementary Estimates also provide updated information on changes to expenditure forecasts of major statutory items as well as on such items as: transfers of money between Votes; debt deletion; loan guarantees; new or increased grants; and changes to Vote wording.

Supplementary Estimates documents are tabled in Parliament in advance of the related Appropriation Act that provides the necessary authority for the Government of Canada to spend monies from the Consolidated Revenue Fund to carry out its programs and services. This is intended to provide the various Standing Committees of Parliament with sufficient time to review proposed spending before the introduction of the Appropriation Act.

It is the practice to table a Supplementary Estimate for each of the three Parliamentary Supply periods ending June 23, December 10, and March 26. These Supplementary Estimates (C) are the third of three Supplementary Estimates planned for this fiscal year.

### *Summary of Estimates to Date – Fiscal Year ending March 31, 2013*

The 2012–13 Main Estimates were tabled on February 28, 2012, supporting the government’s request to Parliament for authority through annual appropriations to spend \$91.9 billion in budgetary expenditures and \$0.1 billion in non-budgetary expenditures and presenting information on the statutory amounts of \$160.0 billion in budgetary expenditures and \$2.0 billion in net non-budgetary recoveries. Royal Assent for *Appropriation Act No. 1, 2012–13* was granted on March 29, 2012 and provided interim supply to departments, organizations and appropriation-dependent Crown Corporations until the end of June 2012. Royal Assent for *Appropriation Act No. 2, 2012–13* was granted on June 28, 2012 and provided supply for the remaining amounts presented in Main Estimates.

#### **Main Estimates**

Supplementary Estimates (A) were tabled on May 17, 2012 and provided information in support Parliament’s approval of \$2.1 billion in voted appropriations which represented an increase of 2.3% over Main Estimates. Also presented was information related to an increase of \$0.2 billion in forecast budgetary statutory expenditures. Royal Assent for *Appropriation Act No. 3, 2012–13* was granted on June 28, 2012.

#### **Supplementary Estimates (A)**

Supplementary Estimates (B) were tabled on November 8, 2012 and provided information in support Parliament’s approval of \$2.5 billion in voted appropriations which represented an increase of 2.7% over Main Estimates. Also presented was information related to an increase of \$0.3 billion in forecast budgetary statutory expenditures. Royal Assent for *Appropriation Act No. 4, 2012–13* was granted on December 14, 2012.

#### **Supplementary Estimates (B)**

Supplementary Estimates (C) provide information in support Parliament’s approval on \$1.5 billion in voted appropriations which represent an increase of 1.6% over Main Estimates. Also presented is information related to changes in forecast statutory expenditures, both budgetary and non-budgetary.

#### **These Supplementary Estimates**

**Table 1: Total 2012–13 Supplementary Estimates (C) (\$ billions)**

	Budgetary <sup>1</sup>	Non-Budgetary <sup>2</sup>
Voted Appropriations <sup>3</sup>	1.5	0.0
Statutory Expenditures <sup>4</sup>	(0.1)	0.1
<b>Total</b>	<b>1.4</b>	<b>0.1</b>

**Notes:**

1. Budgetary expenditures include the cost of servicing the public debt; operating and capital expenditures; transfer payments to other levels of government, organizations or individuals; and payments to Crown corporations.
2. Non-Budgetary expenditures (loans, investments and advances) are outlays that represent changes in the composition of the financial assets of the Government of Canada.
3. Voted Appropriations are those for which parliamentary authority is sought through an Appropriation bill.
4. Statutory Expenditures are those authorized by Parliament through enabling legislation and for which forecasts are provided for information purposes.

## Introduction to Supplementary Estimates

### *Major Items*

The following section provides an overview of major items included in these Supplementary Estimates.

#### *Major voted initiatives included in these Supplementary Estimates requiring Parliamentary approval:*

##### **Funding for implementation of the Federal Court's approved settlement of the Manuge Class Action lawsuit concerning the *Pension Act* offset provision contained in the Canadian Forces Service Income Security Insurance Plan – Long Term Disability Policy**

These funds will be used to augment Manulife's reserve to cover the cost of future payments for the Canadian Forces Service Income Security Insurance Plan Long Term Disability benefits. Negotiations continue with respect to settlement.

##### **Funding to support the continuing implementation of the Investment Plan in support of the *Canada First* Defence Strategy and the implementation of payment in lieu of severance pay for members of the Canadian Forces**

This funding is required to maintain the current level of Force generation, which includes activities and processes related to recruiting, equipping and preparing military personnel in order to maintain forces in a defined state of readiness for domestic and international operations. Additionally the funding will be used for the continued implementation of the *Canada First* Defence Strategy and to reallocate resources internally to support the implementation of payment in lieu of severance pay for members of the Canadian Forces.

##### **Funding for the write-off of debts owed to the Crown for unrecoverable Canada Student Loans**

This funding will be applied to write-off 44,048 debts related to Canada Student Loans. The Canada Student Loans Program provides financial assistance for post-secondary students in financial need. Amounts being written off are debts for which all reasonable efforts to collect the amounts owed have been exhausted.

##### **Funding in support of Canada's New Training Mission in Afghanistan**

This funding will be used to support Canada's training mission in Afghanistan. The NATO-led training mission includes Canadian Forces military personnel and support staff to the International Security Assistance Force Headquarters in Kabul as well as several training centres led by the U.S. and the UK in the cities of Kabul, Mazar-e-Sharif and Herat. This mission will deliver training and professional development services to the national security forces of Afghanistan, in particular the Afghan National Army and the Afghan National Police.

##### **Funding for the Consolidation of the Canadian High Commission at Trafalgar Square**

Funding will support the relocation and consolidation of the Canadian High Commission in London into one location, including the acquisition of property adjacent to Canada House in Trafalgar Square.

#### *Voted items*

**National Defence**  
*\$725.7 million*

**National Defence**  
*\$438.4 million*

**Human Resources and Skills  
Development**  
*\$231.2 million*

**National Defence**  
*\$144.0 million*

**Foreign Affairs and  
International Trade**  
*\$107.5 million*

## Introduction to Supplementary Estimates

---

### **Funding for additional grants to fund initiatives in child protection, as well as maternal, newborn and child health**

This grant authority will support the required flexibility to fund strategic investments in priority areas such as child protection and maternal, newborn and child health. This is not new funding and reflects a change in delivery mechanism from contribution to grant. The grant increase will be offset by a corresponding decrease in contributions.

### **Canadian International Development Agency**

*\$100.0 million*

### **Funding for Canada's fast start financing commitments under the Copenhagen Accord, which supports climate change adaptation and mitigation in developing countries (*horizontal item*)**

The Copenhagen Accord laid out a road map for a post 2012 climate change regime and included a commitment by developed countries to provide financing to developing countries for climate change adaptation and mitigation. This funding will support initiatives with the following key objectives: to help the poorest and most vulnerable people adapt to the impacts of climate change they are currently experiencing; to increase the availability of clean energy in developing countries; and to improve the management of forest and agriculture resources in developing countries including the protection of rainforests and protected areas.

### **Canadian International Development Agency**

*\$95.9 million*

### **Funding for increases in non-discretionary expenses (fit-up, utilities and maintenance) associated with Crown-owned buildings and leased space**

Public Works and Government Services is responsible for the provision of office space for federal departments and agencies. It is expected that these facilities be safe, healthy and support the effective delivery of programs and services. This funding will cover costs related to the preparation of office space for occupancy and costs related to temporary space during the renovation of Crown-owned buildings.

### **Public Works and Government Services**

*\$84.9 million*

### ***Significant updates to statutory forecasts included in these Supplementary Estimates for information purposes:***

### **Statutory items**

### **Funds for the enhanced Employment Insurance benefits in accordance with the Budget Implementation Act, 2009**

This funding is to recover higher than anticipated temporary benefits provided through the Employment Insurance (EI) Program as part of the Canada's Economic Action Plan. Per the *Budget Implementation Act, 2009*, an amount of \$2.9 billion was set aside in 2010–11 to help Canadians during the economic downturn. Actual expenditures associated with these temporary benefits exceeded the initial funding by \$281.1 million and this difference is to be transferred to the EI Operating Account.

### **Human Resources and Skills Development**

*\$281.1 million*

### **Increase to the forecast of Guaranteed Income Supplement benefit payments based on updated population and average monthly rate forecasts**

The Guaranteed Income Supplement (GIS) provides additional income support, on top of the Old Age Security benefits, for low-income seniors living in Canada. The increase to the GIS benefit payments, as forecasted by the Chief Actuary of Canada, represents two components: an increase in the estimated number of beneficiaries and an increase in the average monthly rate for beneficiaries.

### **Human Resources and Skills Development**

*\$143.0 million*

## Introduction to Supplementary Estimates

---

### **Increase in Canada Disability Savings Grants payments due to revised growth rate estimates**

The Canada Disability Savings Program helps Canadians with severe and prolonged disabilities and their families save for the future through Registered Disability Savings Plans (RDSPs). The funding requested is to help adjust for a new carry-forward provision under the Program which was implemented in January 2012. The carry-forward provision allows beneficiaries to claim unused grant and bond entitlements for a ten-year period, back to 2008, when RDSPs became available.

### **Human Resources and Skills Development**

*\$114.5 million*

### **Increase to the forecast of Old Age Security benefit payments based on updated population and average monthly rate forecasts**

The Old Age Security (OAS) Program provides a basic pension income to all Canadian seniors who meet the residence and legal requirements. The increase to the OAS program, as forecasted by the Chief Actuary of Canada, represents three components: an increase in the estimated number of beneficiaries, an increase in the forecasted average monthly rate for the OAS pension, and an increase in the anticipated OAS benefit re-payments.

### **Human Resources and Skills Development**

*\$104.6 million*

### **Revised forecast of interest on Unmatured Debt**

The decrease in interest on unmatured debt reflects revisions of forecasted interest rates by private sector economists.

### **Finance**

*(\$762.0 million)*

## Introduction to Supplementary Estimates

### *Major net changes to individual Votes in these Supplementary Estimates*

The amounts presented in these Supplementary Estimates are incremental to the Main Estimates. The net change in a Vote consists of transfers (amounts transferred in and out of the vote) and adjustments (the amount in the related Appropriation Act).

<b>Voted Expenditures</b>				
<b>Organization</b>	<b>Vote Number and Description</b>	<b>Amount (\$)</b>	<b>Increase as a percentage of Authorities to date</b>	<b>Rationale</b>

### *New Vote and Statutory Authorities Presented in these Supplementary Estimates*

#### **Changes to Government Structure and New Authorities Being Sought:**

Section 31.1 of the *Financial Administration Act* provides expenditure authority for transfers of any power, duty or function or control or supervision of a portion of the federal public administration for Orders in Council made under section 2 of the *Public Service Rearrangement and Transfer of Duties Act*. Pursuant to section 31.1, unexpended money related to the transferred functions is deemed to have been appropriated to the department to which the functions have been transferred.

The deemed appropriations in the department(s) receiving the functions are established based on the nature of the appropriations of the department(s) from which the functions have been transferred. The deemed appropriations in the receiving department(s) may include operating expenditures, program expenditures, capital expenditures, grants and contributions or other Votes, as determined by the nature of the Votes of the department(s) from which the functions have been transferred.

The calculation of unexpended money depends on the nature of the functions transferred. If the final amounts of unexpended money have been determined in time for inclusion in a Supplementary Estimates, they will be reflected in adjustments to the amounts of previous authorities of the affected departments. Following the end of the fiscal year, the Public Accounts of Canada will reflect the availability and use of the deemed authorities.

#### **Changes to the structure of Government reflected in these Supplementary Estimates include:**

#### **Structure**

Health – Order in Council P.C. 2012-1136 transferred the control and supervision of the remaining activities of the Assisted Human Reproduction Agency of Canada to Health, effective September 30, 2012.

#### **Changes to voted and statutory authorities being sought in these Supplementary Estimates include:**

New and changed authorities are listed in each Ministry Summary: underlined vote number or (S) for statutory items indicate new authorities and underlined wording are changed authorities.

New vote authorities are being sought by:

#### **New Votes**

- Canadian Intergovernmental Conference Secretariat (Vote 7c)
- Finance (Vote 7c and L17c)
- Human Resources and Skills Development (Vote 7c)
- Public Works and Government Services (6c)

Amendments to the wording of voted authorities are being sought by:

#### **Amendments to Vote wording**

- Canadian International Development Agency (Vote L40c)
- Public Service Commission (Vote 95c)

## Introduction to Supplementary Estimates

---

New statutory authorities included in these Supplementary Estimates are:

- Environment – Nature Conservancy of Canada
- Finance – Payment to Ontario related to the Canada Health Transfer (Part V.1 – *Federal-Provincial Fiscal Arrangements Act*)
- Finance – Incentive for Provinces to Eliminate Taxes on Capital (Part IV – *Federal-Provincial Fiscal Arrangements Act*)
- Finance – International Bank for Reconstruction and Development for the Agriculture Advance Market Commitment (*Bretton Woods and Related Agreements Act*, section 8)
- Finance – International Finance Corporation in support of the Fast Start international climate change financing initiative (*Bretton Woods and Related Agreements Act*, section 8)
- Human Resources and Skills Development – The provision of funds for enhanced Employment Insurance benefits in accordance with the *Budget Implementation Act, 2009*
- Natural Resources – Payment of the Crown Share Adjustment for Nova Scotia Offshore Petroleum Resources

**New statutory authorities**

## **Horizontal Items included in these Supplementary Estimates**

---

A horizontal initiative is an initiative in which partners from two or more organizations have established a formal agreement (e.g. Memorandum to Cabinet, Treasury Board submission, federal-provincial agreement) to work toward the achievement of shared outcomes.

This table provides a summary of those items for which funding is sought in Supplementary Estimates. It also provides an overview of initiatives related to Supplementary Estimates in the current fiscal year where two or more organizations are seeking incremental funding increases.

### Funding to support Centres of Excellence for Commercialization and Research program

*Announced in Budget 2007, the Centres of Excellence for Commercialization and Research Program’s goal is to create a more effective and efficient way to identify research and commercialization opportunities where Canada has the potential to be a world leader, and to improve how the government supports world-class centres of excellence. The Program selects organizations through a competitive process based on the likelihood that they will commercialize the technologies they develop and achieve financial sustainability. These funds will be used to make payments to the successful recipients from the fourth round of competition, which concluded in November 2012. This program is administered by the Networks of Centres of Excellence Secretariat, housed at the National Sciences and Engineering Research Council of Canada.*

### Funding to modernize the federal government system for pay administration services

*The Pay Modernization project will replace the 40 year-old pay system with commercial off-the-shelf technology and streamline and modernize business processes for 108 departments and agencies which use the Public Works and Government Services pay system.*

Public Works and Government Services	23,199
Shared Services Canada	2,470
Total	25,669

### Funding to continue enhancing the ability to prevent, detect and respond to food-borne illness outbreaks

*This funding will allow the participating organizations, the Canadian Food Inspection Agency, Health Canada and the Public Health Agency of Canada, to continue implementing the federal government's plan to minimize food-borne health risks and improve rapid response capacity in the event of a food safety outbreak. Key components include: maintaining inspectors who test for listeria in ready-to-eat meat processing facilities; increased training for meat inspectors; upgrades in inspector tools such as laptops; improved test detection methods for listeria and improved health risk assessment capacity; strengthened surveillance and outbreak detection capability; increased inter-agency coordination; and maintaining the food safety web portal that informs Canadians on food safety related issues.*

Canadian Food Inspection Agency	13,123
Health	3,291
Public Health Agency of Canada	5,664
Total	22,078

### Funding to support the sharing of immigration information with the United States

*Canada and the U.S. have committed to share information to improve immigration and refugee determinations, better establish the identity of foreign nationals and conduct screening at the earliest opportunity. This will be achieved by building systems to automate information sharing to the greatest extent possible, while ensuring a high level of privacy protection.*

### **Funding to streamline government import regulations and border processes for commercial trade**

*Under the Perimeter Security and Economic Competitiveness Action Plan, the Single Window Initiative was identified as a joint priority that will facilitate trade and align regulatory approaches. The initiative will significantly reduce the paperwork burden by allowing commercial importers to provide all the required import information electronically through a single window to Canada Border Services Agency. Canada Border Services Agency will then transmit this information to those departments which regulate the goods being imported.*

### **Funding for the development of the Rouge National Urban Park**

*This funding will support the creation of Canada's first National Urban Park. Located within the Greater Toronto Area, the Rouge National Urban Park will be easily accessible to approximately 20% of Canada's population and provide a contiguous park area from Lake Ontario to the Oak Ridges Moraine. It will also be unique in Canada as the only federal park to integrate and feature agricultural land use alongside traditional park activities.*

## Items for Inclusion in the Proposed Schedules to the Appropriation Bill

---

This table provides the reader with a preview of the Appropriation Bill. As noted previously, Supplementary Estimates directly supports the Bill. This table provides a list of Vote numbers, Vote wording and the requested funds that will be proposed to Parliament for approval. There are two schedules to the Appropriation Bill in Supplementary Estimates: Schedule 1 identifies those items for the fiscal year ending March 31, 2013 whereas Schedule 2 identifies those items for the fiscal year ending March 31, 2014.

Only positive adjustments to appropriations are included in a Proposed Schedule to the Appropriation Bill. Where funding for a Vote has netted to zero or has a negative amount displayed in these Supplementary Estimates, no change is required to existing spending authority and is not requested of Parliament. Therefore, they are not included in these schedules.

Once the Appropriation Bill is approved, the Vote wording becomes the governing conditions under which expenditures may be made. The following kinds of Votes can appear in Supplementary Estimates:

- a. Program expenditures Votes – This type of Vote is used when there is no requirement for either a separate “Capital expenditures” Vote or “Grants and contributions” Vote because neither equals or exceeds \$5 million. In this case, all expenditures are charged to the one Vote.
- b. Operating expenditures Votes – This type of Vote is used when there is a requirement for either a “Capital expenditures” Vote or a “Grants and contributions” Vote or both; that is, when expenditures of either type equals or exceeds \$5 million.
- c. Capital expenditures Votes – This type of Vote is used when capital expenditures equal or exceed \$5 million. Expenditure items in a “Capital expenditures” Vote could include individual items expected to exceed \$10,000 for the acquisition of land, buildings and works (Standard Object 8), as well as the acquisition of machinery and equipment (Standard Object 9), or for purposes of constructing or creating assets where an organization expects to draw upon its own labour and materials or employs consultants or other services or goods (Standard objects 1 to 9). Different threshold limits may be applied for different capital expenditure classes.
- d. Grants and contributions Votes – This type of Vote is used when the total of grants and contributions expenditures equals or exceeds \$5 million. It should be noted that the inclusion of a grant, contribution or other transfer payment item in Supplementary Estimates imposes no requirement to make a payment, nor does it give a prospective recipient any right to the funds. It should also be noted that in the Vote wording, the meaning of the word “contributions” is considered to include “other transfer payments” because of the similar characteristics of each.
- e. Non-budgetary Votes – This type of Vote is identified by the letter “L”, and provides authority for spending in the form of loans or advances to, and investments in, Crown corporations and loans or advances for specific purposes to other governments, international organizations or persons or corporations in the private sector.
- f. Special Votes: Crown Corporation Deficits and Separate Legal Entities – Where it is necessary to appropriate funds for a payment to a Crown corporation or for the expenditures of a legal entity, a separate Vote is established. A legal entity for these purposes is defined as a unit of government operating under an Act of Parliament and is responsible directly to a Minister.
- g. Treasury Board centrally-managed Votes – To support the Treasury Board in performing its statutory responsibilities for managing the government’s financial, human and materiel resources, a number of special authorities are required as outlined below.
  - i. Government Contingencies Vote – This Vote serves to supplement other appropriations and to provide for miscellaneous, urgent or unforeseen expenditures not otherwise provided for, including grants and contributions not listed in the Estimates and the increase of the amount of grants listed in these Supplementary Estimates. This authority to supplement other appropriations is provided until parliamentary approval can be obtained and as long as the expenditures are within the legal mandate of the organization.
  - ii. Government-Wide Initiatives Vote – This Vote supplements other appropriations in support of the implementation of strategic management initiatives in the Public Service of Canada.

## Items for Inclusion in the Proposed Schedules to the Appropriation Bill

---

- iii. Compensation Adjustments Vote – This Vote supplements other appropriations to provide funding for the increased personnel costs of collective agreements between the Treasury Board and collective bargaining units representing public servants, as well as collective agreements signed by separate employers, including members of the Royal Canadian Mounted Police and the Canadian Forces, Governor in Council appointees and Crown corporations as defined in section 83 of the *Financial Administration Act*.
- iv. Public Service Insurance Vote – This Vote provides for the payment, in respect of insurance, pension or benefit programs or other arrangements, or in respect of the administration of such programs, or arrangements, including premiums, contributions, benefits, fees and other expenditures, made in respect of the public service or any part thereof and for such other persons, as Treasury Board determines, and authority to expend any revenues or other amounts received in respect of such programs or arrangements to offset any such expenditures in respect of such programs or arrangements and to provide for the return to certain employees of their share of the premium reduction under subsection 96(3) of the *Employment Insurance Act*.
- v. Operating Budget Carry Forward Vote – This Vote supplements other appropriations for the operating budget carry forward from the previous fiscal year.
- vi. Paylist Requirements Vote – This Vote supplements other appropriations for requirements related to parental and maternity allowances, entitlements on cessation of service or employment and adjustments made to terms and conditions of service or employment of the federal public administration including members of the Royal Canadian Mounted Police and the Canadian Forces, where these have not been provided from the Compensation Adjustments Vote.
- vii. Capital Budget Carry Forward Vote – This Vote supplements other appropriations for the capital budget carry forward from the previous year.
