Introduction to Supplementary Estimates

Structure of these Supplementary Estimates

This Supplementary Estimates document is presented in three distinct sections:

1. *Introduction to Supplementary Estimates;*
2. *Summary Tables;* and
3. *Detail by Department, Agency and Crown Corporation.*

Purpose and General Information

The purpose of Supplementary Estimates is to present to Parliament information on the Government of Canada's spending requirements which were either not sufficiently developed in time for inclusion in the Main Estimates, or have subsequently been refined to account for developments in particular programs and services. Supplementary Estimates also provide updated information on changes to expenditure forecasts of major statutory items as well as on such items as: transfers of money between Votes; debt deletion; loan guarantees; new or increased grants; and changes to Vote wording.

Supplementary Estimates documents are normally tabled in Parliament approximately one month in advance of the related Appropriation Act that provides the necessary authority for the Government of Canada to spend monies from the Consolidated Revenue Fund to carry out its programs and services. This period is intended to provide the various Standing Committees of Parliament with sufficient time to review proposed spending before the introduction of the Appropriation Act.

For the past three fiscal years, three Supplementary Estimates have been tabled each year: one in each of the three Parliamentary Supply periods ending June 23, December 10, and March 26. These Supplementary Estimates (C) are the third and final Supplementary Estimates planned for this fiscal year, for consideration by Parliament in the Supply period ending March 26, 2011.

Summary of Estimates to Date – Fiscal Year ending March 31, 2011

The 2010–11 Main Estimates were tabled on March 3, 2010 seeking Parliament's approval to spend \$96.3 billion in voted appropriations. The Main Estimates also presented information on \$162.7 billion in statutory requirements for a total Main Estimates of \$259.0 billion. *Appropriation Act No. 1, 2010–11* received royal assent on March 31, 2010 and provided interim supply of \$27.2 billion to departments, agencies and appropriation-dependent Crown corporations until the end of June 2010, when full supply for the remaining \$69.1 billion in Main Estimates was provided through *Appropriation Act No. 2, 2010–11* that received royal assent on June 30, 2010.

Supplementary Estimates (A), 2010-11 were tabled on May 25, 2010 seeking Parliament's approval for \$3.3 billion in voted appropriations. *Appropriation Act No 3, 2010–11* provided supply for the full amount sought in the Supplementary Estimates (A) and received royal assent on June 30, 2010.

appropriations and a decrease
of \$0.7 billion in statutory
expenditures*

Introduction to Supplementary Estimates

Supplementary Estimates (B), 2010–11 were tabled on November 4, 2010 seeking Parliament's approval for \$4.4 billion in voted appropriations. *Appropriation Act No. 4, 2010–11* provided supply for the full amount sought in the Supplementary Estimates (B) and received royal assent on December 15, 2010.

Supplementary Estimates (B) – \$2.4 billion
\$4.4 billion in voted appropriations and a decrease of \$2.0 billion in statutory expenditures

The Supplementary Estimates (C), 2010–11 provide information in support of requests for Parliament's approval for \$0.9 billion in voted appropriations which represents an increase of 1% over Main Estimates. Also presented in this document is information related to an increase of \$0.9 billion in forecast statutory expenditures.

Supplementary Estimates (C) – \$1.8 billion
\$0.9 billion in voted appropriations and an increase of \$0.9 billion in statutory expenditures

Statutory Expenditures ⁴	(218.1)	1,104.4	886.3
Total	701.6	1,104.4	1,806.0

Notes:

1. Budgetary expenditures include the cost of servicing the public debt; operating and capital expenditures; transfer payments to other levels of government, organizations or individuals; and payments to Crown corporations.
2. Non-budgetary expenditures (loans, investments and advances) are outlays that represent changes in the composition of the financial assets of the Government of Canada.
3. Voted Appropriations are those for which parliamentary authority is sought through an Appropriation bill.
4. Statutory Expenditures are those authorized by Parliament through enabling legislation.

Table 2 provides a reconciliation of the Estimates to date and Update of Economic and Fiscal Projections of October 2010.

** The Budget and Update of Economic and Fiscal Projections present expenses on a gross basis, whereas Main Estimates are presented on a net basis. Certain revenues are netted against budgetary expenses.

*** Other adjustments consist of cash disbursements for capital acquisitions, expenditures charged to prior years and program expenses not yet allocated.

Introduction to Supplementary Estimates

Highlights of these Supplementary Estimates

The following provides an overview of the major items (voted and statutory) included in these Supplementary Estimates.

Major voted initiatives included in these Supplementary Estimates requiring Parliamentary approval:

Funding to acquire the Nortel Carling Campus, cover closing transaction costs and pay property taxes for the new National Defence Headquarters – \$216.8 million

Currently, the Department of National Defence accommodates 17,000 employees in 48 buildings dispersed across the National Capital Area. The acquisition of the Carling Campus (previously, the Nortel Complex) will result in the consolidation of up to 50% of National Defence staff based in the area into a single campus, resulting in operational and cost efficiencies and a substantial reduction in the cost of leased space. The acquisition is part of the National Capital Area Office Accommodation Strategy.

Voted items

Public Works and Government Services
\$216.8 million

Funding to support costs associated with ensuring isotope production; shutdown of the Dedicated Isotope Facilities; operational and infrastructure upgrades related to health, safety, security and environmental priorities at Chalk River Laboratories; new reactor technology development; commercial life extension projects; and management of operational pressures – \$175.4 million

This funding will allow Atomic Energy of Canada Ltd. to meet costs associated with isotope production; winding down of the Dedicated Isotopes Facilities; addressing infrastructure and operational upgrades related to health, safety, security and environmental priorities at Chalk River Laboratories; developing new build reactor technology; funding shortfalls in reactor life extension projects; and managing operational pressures.

Atomic Energy of Canada Limited
\$175.4 million

Funding for benefits under the Disability Awards and Allowances Program to Veterans and to eligible family members and dependants – \$155.6 million

The New Veterans Charter legislation enacted in 2006 provided for the payment of disability awards and allowances to recognize and compensate Canadian Forces members and Veterans, and in some cases eligible surviving spouses and dependent children, for the non-economic effects of a service-related disability. Additional funding is required to cover payments resulting from the current backlog of disability award applications and the number of new applications received.

Veterans Affairs
\$155.6 million

Funding for the write-off of debts owed to the Crown for unrecoverable Canada Student Loans – \$149.5 million

Pursuant to subsection 25(2) of the *Financial Administration Act*, an amount of \$149,541,766 is requested to write-off 61,791 debts related to Canada Student Loans. This covers a three-year period and represents less than 1% of the total Canada Student Loan portfolio. The Canada Student Loans Program provides financial assistance for post-secondary education for students in financial need.

Human Resources and Skills Development
\$149.5 million

Funding to support the introduction of a Pay Direct Card for the Public Service Health Care Plan – \$63.3 million

The Pay Direct Card, introduced in November 2010, allows for immediate claim processing of prescription drugs purchases covered under the Public Service Health Care Plan. The elimination of paperwork burden is expected to result in more comprehensive claim payments.

Treasury Board Secretariat
\$63.3 million

Introduction to Supplementary Estimates

Implementation of Harmonized Sales Tax for Ontario and British Columbia and the Affordable Living Tax Credit for Nova Scotia – \$63.3 million

This funding will support the administration of the Harmonized Sales Tax (HST) and associated tax credits in Ontario and British Columbia as well as the collection of the tax related to non-commercial importations that are destined for those provinces. The administration of the Affordable Living Tax Credit, announced in 2010 as part of the modification to Nova Scotia's existing HST regime, will also be supported.

Canada Revenue Agency

\$ 57.8 million

Statistics Canada

\$ 0.8 million

Canada Border Services Agency

\$4.7 million

Significant updates to statutory forecasts included in these Supplementary Estimates for information purposes:

Statutory items

Funding to stimulate housing construction through low-cost loans to municipalities for improvements to housing-related and community infrastructure – \$793.2 million (non-budgetary)

The Municipal Infrastructure Lending Program provides low-cost loans to municipalities across the country for housing-related and community infrastructure projects such as sewers, water lines, and neighbourhood regeneration projects. These loans will significantly decrease the cost of borrowing for municipalities, and can be used by them to fund their contribution for cost-shared federal infrastructure programming.

Canada Mortgage and Housing Corporation

\$793.2 million

Newfoundland Fiscal Equalization Offset Payments – For decreases in equalization payments as a result of increases in offshore oil and gas revenues – \$388.8 million

Regulations under the provisions of the Fiscal Equalization Offset Payments in the *Canada-Newfoundland Atlantic Accord Implementation Act* allow Newfoundland and Labrador to be compensated for losses in equalization payments due to increases in offshore oil and gas revenues.

Natural Resources

\$388.8 million

Increase in the AgriStability program payments based primarily on the declining prices of grains and oilseeds late in 2009, and excess moisture in the Prairie provinces in 2010 – \$315.3 million

AgriStability is a program which provides income support when an agricultural producer experiences large income losses (income declines greater than 15 percent). This funding will be used to provide increased direct payments to producers that correspond to income losses resulting from declining prices of the grains and oilseeds sector in 2009, and excess moisture in the Prairie provinces in 2010. The funds will provide affected producers with income support to stabilize their farming operations.

Agriculture and Agri-Food

\$315.3 million

Increase in net loans disbursed under the *Canada Student Financial Assistance Act* as a result of higher new loan projections made by the Office of the Chief Actuary in addition to a decrease in forecasted repayments – \$311.2 million (non-budgetary)

The Canada Student Loans Program provides financial assistance for post-secondary education for students in financial need. The increase in funding is based upon higher than estimated demand.

Human Resources and Skills Development

\$311.2 million

Introduction to Supplementary Estimates

Increase in the AgriInsurance program contribution payments based on both an elevated market price trend which began in 2008 and continued until early 2009 as well as ongoing increases in participation rates in the program – \$72.0 million

AgriInsurance is a program designed to ensure agricultural producers' access to insurance programs to protect their crops and to help manage uncontrollable risks inherent to the agriculture industry. The increased payments are due to the continuation of an elevated market price trend which began in 2008 and increased program participation rates. The funds will be used for insurance payouts to participating producers who have suffered crop failures.

Agriculture and Agri-Food
\$72.0 million

Increase in Canada Disability Savings Grants due to revised growth rate estimates – \$67.4 million

Registered Disability Savings Plans (RDSP) help Canadians with disabilities and their families save for the future. To encourage long-term financial security of eligible beneficiaries with disabilities, the Government of Canada provides matching grant payments to RDSP issuers on behalf of beneficiaries. This increase in forecast expenditures is the result of much higher than estimated take-up by Canadians than forecasted when the program was established in 2008.

Human Resources and Skills Development
\$67.4 million

Increase in Canada Education Savings Grants payments due to changes to the general economic landscape that have occurred since August 2009 – \$60.0 million

The Government of Canada provides payments to the Registered Education Savings Plan (RESP) trustees on behalf of RESP beneficiaries to encourage Canadians to save for post-secondary education for their children. The increase in anticipated expenditures for the Canada Education Savings Grant is the result of higher than anticipated contributions to RESPs.

Human Resources and Skills Development
\$60.0 million

Reduction to the Provincial-Territorial Infrastructure Base Funding Program to reflect new cash flow requirements in agreements signed with provinces and territories – (\$62.7 million)

Budget 2009 allowed for the acceleration of the Provincial-Territorial Base Fund for those jurisdictions able to expedite their infrastructure spending in 2009-10 and 2010-11. Reductions to the Provincial-territorial Base Fund in 2010-11 were made to reflect the new cash flow requirements in agreements signed with provinces and territories.

Office of Infrastructure of Canada
(\$62.7 million)

Reduction to the Green Infrastructure Fund to adjust annual cash flow to align with projected spending for approved projects – (\$70.1 million)

In Budget 2009, funding for Infrastructure Canada's Green Infrastructure Fund was equally distributed over the duration of the program (\$200 million per year over five years). Reductions to the Green Infrastructure Fund in 2010-11 were made to accommodate delays in project approvals and start-ups, enabling the department to align the program's funding with projected spending for approved projects in future years.

Office of Infrastructure of Canada
(\$70.1 million)

Revised forecast of public debt charges due to lower forecasted interest rates in the 2010 Update of Economic and Fiscal Projections – (\$125.0 million)

Public Debt charges are being revised downward from \$28,432 million to \$28,307 million. This reflects the revised forecast outlined in the Update of Economic and Fiscal Projections. The decrease of \$125M is caused by a downwards revision to the interest rate forecast.

Finance
(\$125.0 million)

Introduction to Supplementary Estimates

Decrease in Guaranteed Income Supplement benefit payments based on updated population and average monthly rate forecasts – (\$211.0 million)

The Guaranteed Income Supplement is a monthly benefit provided to low-income seniors who receive the Old Age Security benefit. The decrease of \$211.0 million is a combination of two factors: a decrease in the estimated number of beneficiaries from 1,684,943 to 1,632,480; and an increase in the forecasted average monthly rate from \$408.37 to \$410.72.

Human Resources and Skills Development
(\$211.0 million)

Modification to original estimate of disbursements to provinces under the Softwood Lumber Products Export Charge Act as a result of changing prices and volumes in the Canada/United States lumber market – (\$279.0 million)

The Canada Revenue Agency has a statutory authority to collect a formula-based charge on softwood lumber products exported to the United States and to reimburse the impacted province net of administration fees and legal costs. This revised forecast is as a result of changing conditions in the Canada – United States lumber market.

Canada Revenue Agency
(\$279.0 million)

Decrease in Old Age Security benefit payments based on updated population and average monthly rate forecasts – (\$356.0 million)

Old Age Security is a monthly benefit available to Canadian residents 65 years of age or over who meet the residency requirement. The decrease of \$356.0 million is a combination of three factors: a decrease in the estimated number of beneficiaries from 4,789,402 to 4,783,374; a decrease in the forecasted average monthly rate for the OAS pension from \$504.24 to \$500.12; and an increase of \$85.0 million in anticipated OAS benefit repayments.

Human Resources and Skills Development
(\$356.0 million)

Changes to Government Structure and New Authorities Being Sought

Structure

Changes to the structure of Government reflected in these Supplementary Estimates include:

- NAFTA Secretariat, Canadian Section – Order in Council P.C. 2010-1083 establishes NAFTA Secretariat, Canadian Section in the Department of Foreign Affairs and International Trade for the purpose of facilitating the operation of the Agreement, effective August 27, 2010.

Changes to voted and statutory authorities being sought in these Supplementary Estimates include:

New vote authorities are being sought by:

- Citizenship and Immigration (Vote 7c),
- Human Resources and Skills Development (Vote 7c),
- Public Works and Government Services (Votes 8c and 9c), and
- Treasury Board (Vote 15c).

New Votes

Amendments to the wording of voted authorities are being sought by:

- Human Resources and Skills Development (Vote 1c).

Amendments to Votes

New statutory authorities included in these Supplementary Estimates are:

- Canada Mortgage and Housing Corporation – Low-cost loans to municipalities for improvements to housing-related and community infrastructure,
- Human Resources and Skills Development – Pathways to Education Canada upfront multi-year funding to support their community-based early intervention programs which will help disadvantaged youth access post-secondary education in Canada, and
- Natural Resources – Newfoundland Fiscal Equalization Offset Payments.

Overview of Summary Tables

This section provides an overview of the following summary tables provided in the Supplementary Estimates.

1. Summary of these Supplementary Estimates
2. Summary of Estimates to Date for 2010–11
3. Proposed Schedules to the Appropriation Bill
4. Statutory Items in these Supplementary Estimates
5. Summary of Changes to Voted Appropriations
6. Budgetary Supplementary Estimates by Standard Object of Expenditure
7. Allocations from the Treasury Board Central Votes
8. Horizontal Items included in these Supplementary Estimates
9. Transfers between organizations included in these Supplementary Estimates
10. \$1 Items included in these Supplementary Estimates

1. Summary of these Supplementary Estimates

This table identifies Budgetary and Non-Budgetary Supplementary Estimates by department, agency and Crown corporation; and by type of parliamentary authority (annual Votes and Statutory requirements).

The first two columns entitled “Previous Authorities” represent Estimates to date, which consist of the Main Estimates, Supplementary Estimates (A) and Supplementary Estimates (B). The third column entitled “Permanent Allocations from TB Central Votes” represents permanent allocations from Treasury Board centrally-managed Votes which have an impact on spending authorities. Information on Treasury Board centrally-managed Votes can be found in the table entitled “Allocations from the Treasury Board Central Votes”. The columns under “Authorities to Date” represent the organizations’ total Estimates which is the starting point for these Estimates.

The next six columns entitled “These Supplementary Estimates” are the current requirements as provided in Supplementary Estimates (C). These requirements are split into three categories: Transfers; To be Voted and Statutory.

The last two columns entitled “Total Estimates to Date” provide the reader with an update of total Budgetary and Non-Budgetary requirements for 2010–11.

2. Summary of Estimates to Date for 2010–11

This table displays previous Estimates publications and amounts being requested in these Supplementary Estimates. It also contains a breakdown of funding by Budgetary and Non-Budgetary/Voted and Statutory requirements.

3. Proposed Schedules to the Appropriation Bill

This table provides the reader with a preview of the Appropriation Bill. As noted previously, Supplementary Estimates directly supports the Bill. This table provides a list of Vote numbers, Vote wording and the requested funds that will be proposed to Parliament for approval. There are two schedules to the Appropriation Bill in Supplementary Estimates: Schedule 1 identifies those items for the fiscal year ending March 31, 2011 whereas Schedule 2 identifies those items for the fiscal year ending March 31, 2012.

Only positive adjustments to appropriations are included in a Proposed Schedule to the Appropriation Bill. Where funding for a Vote has netted to zero or has a negative amount displayed in these Supplementary Estimates, no change is required to existing spending authority and not requested of Parliament. Therefore, they are not included in these schedules.

Once the Appropriation Bill is approved, the Vote wording becomes the governing conditions under which expenditures may be made. The following kinds of Votes can appear in Supplementary Estimates:

- a. Program expenditures Votes – This type of Vote is used when there is no requirement for either a separate “Capital expenditures” Vote or “Grants and contributions” Vote because neither equals or exceeds \$5 million. In this case, all expenditures are charged to the one Vote.

Summary Tables

- b. Operating expenditures Votes – This type of Vote is used when there is a requirement for either a “Capital expenditures” Vote or a “Grants and contributions” Vote or both; that is, when expenditures of either type equals or exceeds \$5 million.
- c. Capital expenditures Votes – This type of Vote is used when capital expenditures equal or exceed \$5 million. Expenditure items in a “Capital expenditures” Vote could include individual items expected to exceed \$10,000 for the acquisition of land, buildings and works (Standard Object 8), as well as the acquisition of machinery and equipment (Standard Object 9), or for purposes of constructing or creating assets where an organization expects to draw upon its own labour and materials or employs consultants or other services or goods (Standard objects 1 to 9). Different threshold limits may be applied for different capital expenditure classes.
- d. Grants and contributions Votes – This type of Vote is used when the total of grants and contributions expenditures equals or exceeds \$5 million. It should be noted that the inclusion of a grant, contribution or other transfer payment item in Supplementary Estimates imposes no requirement to make a payment, nor does it give a prospective recipient any right to the funds. It should also be noted that in the Vote wording, the meaning of the word “contributions” is considered to include “other transfer payments” because of the similar characteristics of each.
- e. Non-budgetary Votes – This type of Vote is identified by the letter “L”, and provides authority for spending in the form of loans or advances to, and investments in, Crown corporations and loans or advances for specific purposes to other governments, international organizations or persons or corporations in the private sector.
- f. Special Votes: Crown Corporation Deficits and Separate Legal Entities – Where it is necessary to appropriate funds for a payment to a Crown corporation or for the expenditures of a legal entity, a separate Vote is established. A legal entity for these purposes is defined as a unit of government operating under an Act of Parliament and is responsible directly to a Minister.
- g. Treasury Board centrally-managed Votes – To support the Treasury Board in performing its statutory responsibilities for managing the government’s financial, human and materiel resources, a number of special authorities are required as outlined below.
 - i. Government Contingencies Vote – This Vote serves to supplement other appropriations and to provide for miscellaneous, urgent or unforeseen expenditures not otherwise provided for, including grants and contributions not listed in the Estimates and the increase of the amount of grants listed in these Supplementary Estimates. This authority to supplement other appropriations is provided until parliamentary approval can be obtained and as long as the expenditures are within the legal mandate of the organization.
 - ii. Government-Wide Initiatives Vote – This Vote supplements other appropriations in support of the implementation of strategic management initiatives in the Public Service of Canada.
 - iii. Compensation Adjustments Vote – This Vote supplements other appropriations to provide funding for the increased personnel costs of collective agreements between the Treasury Board and collective bargaining units representing public servants, as well as collective agreements signed by separate employers, including members of the Royal Canadian Mounted Police and the Canadian Forces, Governor in Council appointees and Crown corporations as defined in section 83 of the *Financial Administration Act*.
 - iv. Public Service Insurance Vote – This Vote provides for the payment, in respect of insurance, pension or benefit programs or other arrangements, or in respect of the administration of such programs, or arrangements, including premiums, contributions, benefits, fees and other expenditures, made in respect of the public service or any part thereof and for such other persons, as Treasury Board determines, and authority to expend any revenues or other amounts received in respect of such programs or arrangements to offset any such expenditures in respect of such programs or arrangements and to provide for the return to certain employees of their share of the premium reduction under subsection 96(3) of the *Employment Insurance Act*.
 - v. Operating Budget Carry Forward Vote – This Vote supplements other appropriations for the operating budget carry forward from the previous fiscal year.

Summary Tables

- vi. Paylist Requirements Vote – This Vote supplements other appropriations for requirements related to parental and maternity allowances, entitlements on cessation of service or employment and adjustments made to terms and conditions of service or employment of the federal public administration including members of the Royal Canadian Mounted Police and the Canadian Forces, where these have not been provided from the Compensation Adjustments Vote.

4. Statutory Items in these Supplementary Estimates

This table provides Parliament with an update on significant changes to expenditure forecasts of major statutory items. Statutory items are those that Parliament has approved through other legislation that sets out both the purpose of the expenditures and the terms and conditions under which they may be made. Statutory spending is displayed in the Supplementary Estimates for information only.

5. Summary of Changes to Voted Appropriations

This table displays all Voted information displayed in these Supplementary Estimates in Ministry order.

The first column (Vote Number) indicates the Vote that is to be augmented through these Supplementary Estimates. The letter accompanying the Vote indicates which Supplementary Estimates was used to augment the Vote.

The second column (Gross Amount) displays the total amount of funding being sought in these Supplementary Estimates.

The third column (Less: Available Spending Authorities) represents unused spending authority being used by organizations to minimize the amount being requested in these Supplementary Estimates. Additional information on these amounts is provided in the details section.

The fourth column (Net Amount) displays the net amount of incremental funding being reflected in these Supplementary Estimates. However, it should be noted that the Proposed Schedules to the Appropriation Bill do not reflect funding for organizations where the net amount is zero or negative.

6. Budgetary Supplementary Estimates by Standard Object of Expenditure

To determine and report more accurately the impact of government expenditures on the rest of the economy, the net amount of government purchases by standard object must be determined. All organizations, including those that use revolving funds, must charge their expenditures for purchases to standard object expense categories. Standard objects are the highest level of object classification used for parliamentary and executive purposes, and are reported in the Main and Supplementary Estimates and the Public Accounts. The standard objects of expenditure are as follows:

1. Personnel
2. Transportation and communications
3. Information
4. Professional and special services
5. Rentals
6. Purchased repair and maintenance
7. Utilities, materials and supplies
8. Acquisition of land, buildings and works
9. Acquisition of machinery and equipment
10. Transfer payments
11. Public debt charges
12. Other subsidies and payments

A brief explanation of each Standard Object is provided at the end of this section.

Summary Tables

7. Allocations from the Treasury Board Central Votes

This summary table provides a comprehensive list of allocations from Treasury Board (TB) Central Votes for Government Contingencies, Government-Wide Initiatives, Compensation Adjustments, Operating Budget Carry Forward and Paylist Requirements, where applicable.

Government Contingencies (TB Vote 5) – This summary table provides a comprehensive list of organizations that have received temporary Treasury Board Contingency Vote (TB Vote 5) funding. Temporary funding can be provided for miscellaneous, urgent or unforeseen expenditures, which were not provided for in the Main Estimates and which are required before the next Supplementary Estimates receive Royal Assent. Once Parliament approves the Appropriation Bill for Supplementary Estimates and the Governor General provides Royal Assent, the temporary funding is reimbursed to TB Vote 5.

The following criteria must be met in order for Treasury Board to approve access to TB Vote 5:

- All advances from the Government Contingencies Vote should be considered temporary advances to be covered by items included in subsequent Supplementary Estimates and reimbursed when the associated Appropriation Act is passed. Exceptions are made for requirements that arise after final Supplementary Estimates for the fiscal year where advances would not be reimbursable.
- An organization's existing appropriation must be insufficient to cover both existing requirements and the new initiative until the next Supply period. To that end, an organization must support any request with a valid cash flow analysis.
- A valid and compelling reason exists, particularly as it relates to the payment of grants, as to why the payment needs to be made before the next Supply period. If not, the payment should be deferred and access to TB Vote 5 denied.
- For grants, the Transfer Payment Policy must be consulted and followed to ensure that a valid, legally incorporated recipient exists and that the organization clearly demonstrates that it needs to make a payment before the next Supply period.

Government-Wide Initiatives (TB Vote 10) – This Vote supplements other appropriations in support of the implementation of strategic management initiatives within the public service of Canada. Departments and agencies are not required to reimburse funding allocated from Vote 10.

Compensation Adjustments (TB Vote 15) – This Vote supplements other appropriations that may need to be partially or fully augmented as a result of adjustments made to terms and conditions of service or employment of the federal public administration, including members of the Royal Canadian Mounted Police and the Canadian Forces, Governor in Council appointees and Crown corporations as defined in section 83 of the *Financial Administration Act*. Departments and agencies are not required to reimburse funding allocated from Vote 15.

Operating Budget Carry Forward (TB Vote 25) – This Vote supplements other appropriations by authorizing a carry forward of unused funds from the previous fiscal year up to a maximum of five per cent of departments' and agencies' Main Estimates operating budget as was established in the previous fiscal year. Departments and agencies are not required to reimburse funding allocated from Vote 25.

Paylist Requirements (TB Vote 30) – This Vote supplements other appropriations by providing the government with funding to meet legal requirements of the employer such as parental leave, maternity leave, entitlements upon cessation of service or employment and adjustments made to terms and conditions of service or employment of the federal public administration. Departments, agencies and Crown corporations may access this Vote throughout the fiscal year. Departments, agencies and Crown corporations are not required to reimburse funding allocated from Vote 30.

8. Horizontal Items included in these Supplementary Estimates

A horizontal initiative is an initiative in which partners from two or more organizations have established a formal funding agreement (e.g. Memorandum to Cabinet, Treasury Board submission, federal-provincial agreement) to work toward the achievement of shared outcomes.

This table provides a summary of those items for which funding is sought in these Supplementary Estimates. It also provides an overview of initiatives related to these Supplementary Estimates where two or more organizations are seeking incremental funding increases.

Summary Tables

9. Transfers between organizations included in these Supplementary Estimates

Organizations often request the authority to transfer monies between organizations for various purposes. This table provides a summary of these transactions.

10. \$1 Items included in these Supplementary Estimates

Supplementary Estimates often include “one dollar items”, which seek an alteration in the existing allocation of funds or to existing Vote wording (as in the case of loan guarantees) as authorized in the Main Estimates. The purpose of a one dollar item is not to seek new or additional funds, but rather to reallocate existing spending authorities between Votes and/or to provide appropriate authorities. Therefore, since no new funds are requested, the “one-dollar” amount is merely symbolic.

For example, one-dollar items may be used to:

1. Transfer funds from one Vote to another;
2. Write off debts;
3. Adjust loan guarantees;
4. Authorize grants; or
5. Amend previous Appropriation Acts.

Allocations from the Treasury Board Central Votes

Vote 5 – Government Contingencies

\$546,100,000

Subject to the approval of the Treasury Board, this serves to supplement other appropriations and to provide the government with sufficient flexibility to meet urgent or unforeseen expenditures where a valid cash requirement exists in advance of a Supply period. This authority to supplement other appropriations is provided until parliamentary approval can be obtained and as long as the expenditures are within the legal mandate of the organization. Temporary allocations are reimbursed to TB Vote 5 upon receiving Royal Assent for an Appropriation Act.

Department/Agency/Crown Corporation	Authorized (dollars)	Allocated (dollars)
<p>Justice – Offices of the Information and Privacy Commissioners</p> <p>Authority to access TB Vote 5 has been granted for funding in order to acquire specialized legal and investigative services.</p> <p>This supplemental funding will address the increase in workload associated with court proceedings and complex cases currently under investigation.</p>	<p>400,000</p>	<p>.....</p>
<p>Natural Resources – Atomic Energy of Canada Limited (AECL)</p> <p>Authority to access TB Vote 5 has been granted for funding to meet operational requirements such as ensuring continued isotope production, health and safety upgrades, new-build reactor technology development, refurbishment project shortfalls and one-time employee reduction costs</p> <p>AECL is a commercial Crown Corporation that manages commercial nuclear reactor sales and services, nuclear laboratories maintenance, nuclear research and development, medical isotope production, and radioactive waste and decommissioning of nuclear facilities. Since the existing appropriation for AECL will be exhausted prior to receiving Royal Assent for Supplementary Estimates, access to TB Vote 5 is required to ensure all legal and contractual obligations are met.</p>	<p>175,400,000</p>	<p>.....</p>

Vote 25 – Operating Budget Carry Forward

Subject to the approval of the Treasury Board, this Vote supplements other appropriations by authorizing a carry forward of unused funds from the previous fiscal year up to a maximum of five per cent of departments' and agencies' Main Estimates operating budget from that previous fiscal year. Departments and agencies are not required to reimburse funding allocated from Vote 25.

No allocations have been made from TB Vote 25.

Vote 30 – Paylist Requirements

\$351,312,348

Subject to the approval of the Treasury Board, this supplements other appropriations by providing the government with funding to meet legal requirements of the employer such as parental and maternity leave, entitlements upon cessation of service or employment and adjustments made to terms and conditions of service or employment in the public service. Departments and agencies may access this throughout the fiscal year.

\$1 Items included in these Supplementary Estimates

Through the Supplementary Estimates, an organization can seek changes to various spending authorities originally received through parliamentary approval of the previous Supply bills for Main or Supplementary Estimates. These alterations might include requests for additional funding relating to a transfer of funds from another organization, a re-allocation or amendment of existing spending authorities, or the addition of new authorities.

Parliamentary approval of such changes is sought through an enabling Supply bill. However, in order to be included in a Supply bill, an item must have a monetary value. This is not an issue when a department is also requesting an adjustment to its appropriation. However, in the absence of any increase to the Vote, a notional amount of \$1 allows the item to be included in the Supply bill.

The authority associated with each \$1 item relates to either:

1. *Approval of grants* – The wording used in the Estimates to describe a grant has a legislative character and, therefore all new grants or increases to existing grants must first be approved by Parliament before any payments can be made to eligible recipients. A \$1 item is included when there is no requirement for additional appropriations because the new grant or the increase to an existing grant is to be funded from within existing resources or from a transfer of funds from another organization.
2. *Vote transfers within an organization* – Through Supply legislation, an organization may have received spending authorities in more than one Vote (e.g., operating expenditures Vote and capital expenditures Vote). As the fiscal year progresses, and for various reasons, the organization may need to realign its approved funding due to changes in delivery mechanisms within organizational priorities.
3. *Transfers between organizations* – Transfers between organizations are used for a variety of reasons such as: to redirect funding from one organization to another in order to manage or to implement more efficiently an initiative or project; and/or to reflect new organizational responsibilities.
4. *Modify authority embedded in existing vote wording* – The Supplementary Estimates can be used to amend an existing authority that is embedded in the Vote wording of an organization. Most of these authorities can be found in the non-budgetary Vote wording of organizations and are related to limits or ceilings on loans, investments and advances. Such Votes are preceded by the letter “L”.
5. *Create new vote and associated wording* – The Supplementary Estimates can be used to create a new vote with the associated wording which will give the organization the authority as specified in the new vote wording.

The following table captures, under each of the above categories, the instances where a \$1 item is required in these Supplementary Estimates. A number of these transactions can be captured in a department’s Vote wording, but will require a single \$1 item. Therefore, as the following table is presented by category, there may be some departmental Votes that appear more than once despite the fact they relate to a single \$1 item.

\$1 Items included in these Supplementary Estimates

1. Approval of grants

Organization	Vote Number	Explanation

Detail by Department, Agency and Crown Corporation

Departments, agencies and Crown corporations for which a Minister is responsible, or reports to Parliament, are grouped together to provide a total ministry presentation.

Each Ministry is divided into four sections:

1. Ministry Summary;
2. Explanation of Requirements (Voted Appropriations, Funds Available, Statutory Appropriations and Transfers) for each organization requiring supplementary estimates;
3. Explanation of Funds Available (if applicable); and
4. Transfer Payments (if applicable).

1. Ministry Summary

This table displays all Voted and Statutory information in Ministry order, including:

- Vote number, Vote wording and Statutory wording;
- Authorities to date – Main Estimates plus any previously approved Supplementary Estimates and permanent allocations from TB Central Votes;
- Transfers between Votes both within and between organizations;
- Adjustments to Appropriations (new funding requests); and
- Total Estimates to date.

Where a Vote's "Adjustment to Appropriations" result in a net zero or negative amount for an organization, it will not form part of the Appropriation Bill. Net zero or negative amounts are displayed for information purposes only.

2. Explanation of Requirements

This section provides a description of individual items or initiatives for which spending authority is being requested. Horizontal initiatives affecting more than one organization are flagged as (*horizontal item*) and will be displayed in the summary table "Horizontal Items included in these Supplementary Estimates" presented at the front of these Supplementary Estimates.

This section also identifies all transfers between and within organizations, whether they relate to: a transfer of monies between organizations to accomplish a particular objective; the transfer of responsibility for the delivery of a program; realignments flowing from machinery changes announced by the government; or transfers within an organization to support program needs. Transfers do not have an impact on new appropriations being requested by organizations. Transfers are displayed in the Ministry Summary separately from new appropriations and are also displayed in the summary table dealing with transfers between organizations at the front of these Supplementary Estimates.

3. Explanation of Funds Available

This section provides information about funds that are used to offset or reduce new spending requirements included in these Supplementary Estimates. To minimize the amount of new appropriation authorities requested from Parliament, surplus spending authority available in one Vote can be redirected to another Vote to reduce the overall amount of spending authority required. As well, surplus spending authority available in a number of frozen allotments can also be used with Treasury Board authority to reduce the amount of new appropriations required.

Some examples of surplus spending authority used for offsets include: funds moved from one fiscal year to another fiscal year in the same organization; or funds from one program being redirected to another program.

Detail by Department, Agency and Crown Corporation

4. Transfer Payments

This table provides a listing of transfer payments.

A transfer payment is a grant, contribution or other payment made for the purpose of furthering program objectives but for which no goods or services are received.

Grants, contributions and other transfer payments differ in several respects:

- Grants are transfer payments made on the basis of established eligibility and not normally subject to audit. Grants and their total values have a legislative character and specific descriptions that govern their use;
- Contributions are transfer payments where the recipients must meet performance conditions and may be subject to audit; and
- Other transfer payments are transfer payments, other than grants and contributions, based on legislation or an arrangement which may include a formula to determine the annual amounts.
