Introduction to Supplementary Estimates

Structure of these Supplementary Estimates

This Supplementary Estimates document is presented in four sections:

1. *Introduction to Supplementary Estimates;*
2. *Summary Tables;*
3. *Detail by Department, Agency and Crown Corporation;* and
4. *Annex.*

Purpose and General Information

The purpose of Supplementary Estimates is to present to Parliament information on the Government of Canada's spending requirements which were either not sufficiently developed in time for inclusion in the Main Estimates, or have subsequently been refined to account for developments in particular programs and services.

Supplementary Estimates also provide updated information on changes to expenditure forecasts of major statutory items as well as on such items as: transfers of money between Votes; debt deletion; loan guarantees; new or increased grants; and changes to Vote wording.

Supplementary Estimates documents are normally tabled in Parliament approximately one month in advance of the related Appropriation Act that provides the necessary authority for the Government of Canada to spend monies from the Consolidated Revenue Fund to carry out its programs and services. This period is intended to provide the various Standing Committees of Parliament with sufficient time to review proposed spending before the introduction of the Appropriation Act.

Since the spring of 2007, the practice has been to table a Supplementary Estimate for each of the three Parliamentary Supply periods ending June 23, December 10, and March 26. These Supplementary Estimates (B) are the second Supplementary Estimates planned for this fiscal year, for consideration by Parliament in the Supply period ending December 10, 2011.

Summary of Estimates to Date – Fiscal Year ending March 31, 2012

The 2011–12 Main Estimates were tabled on March 1, 2011, supporting the government's request to Parliament for authority through annual appropriations to spend \$91.8 billion in budgetary expenditures and \$0.1 billion in non-budgetary expenditures and presenting information on the statutory amounts of \$159.0 billion in budgetary expenditures and \$0.7 billion in net non-budgetary recoveries.

Main Estimates

Due to the dissolution of Parliament for the purposes of a general election, the appropriation bill to provide interim supply was not voted upon. Consequently, Governor General Special Warrants (Special Warrants) were issued to support the operations of government.

The 2011–12 Main Estimates were re-tabled on June 3, 2011 and Royal Assent for *Appropriation Act No. 1, 2011-12* was granted on June 26, 2011.

Introduction to Supplementary Estimates

Given the timing of the dissolution and reconvening of Parliament, Supplementary Estimates (A), 2011–12 were limited to items needing additional expenditure or grant authority before the next Supply period.

The Supplementary Estimates (A), 2011–12 were tabled June 8, 2011 and provided information in support of Parliament's approval of \$2.0 billion in Voted budgetary appropriations which represents an increase of 2.2% over Main Estimates. Also presented was information related to an increase forecast of \$0.9 million in forecast statutory budgetary expenditures. Royal Assent for *Appropriation Act No. 2, 2011-12* was granted on June 26, 2011.

The Supplementary Estimates (B), 2011–12 provide information in support of requests for Parliament's approval of \$4.3 billion in voted appropriations which represents an increase of 4.7% over Main Estimates. The \$4.3 billion includes funds not used in the previous fiscal year that are being included again (reprofiled) in the request for this fiscal year. These funds are for large initiatives where numerous factors can delay implementation dates. Examples are \$708 million for projects under the Infrastructure Stimulus Fund, \$163 million for Building Canada Fund Communities Component Top Up and \$35 million for Recreational Infrastructure Canada Program. Also presented in this document is information related to an increase of \$0.8 billion in forecast statutory expenditures.

These Supplementary Estimates

Table 1: Total 2011–12 Supplementary Estimates (B) (\$ billions)

	Budgetary ¹	Non-Budgetary ²
Voted Appropriations ³	4.3	0.0
Statutory Expenditures ⁴	2.3	(1.4)
Total	6.6	(1.4)

Notes:

1. Budgetary expenditures include the cost of servicing the public debt; operating and capital expenditures; transfer payments to other levels of government, organizations or individuals; and payments to Crown corporations.
2. Non-budgetary expenditures (loans, investments and advances) are outlays that represent changes in the composition of the financial assets of the Government of Canada.
3. Voted Appropriations are those for which parliamentary authority is sought through an Appropriation bill.
4. Statutory Expenditures are those authorized by Parliament through enabling legislation and for which forecasts are provided for information purposes.

Highlights of these Supplementary Estimates

The following provides an overview of the major items included in these Supplementary Estimates.

Major voted initiatives included in these Supplementary Estimates requiring Parliamentary approval:

Voted items

Funding to support the Infrastructure Stimulus Fund in order to complete construction-ready provincial, territorial and municipal infrastructure projects – \$708.6 million

The Infrastructure Stimulus Fund is designed to provide funding to provincial, territorial and municipal infrastructure projects in order to provide short-term stimulus to the economy through construction-ready infrastructure projects. Eligible projects include water, wastewater, transit, roads, culture, parks, trails and community services infrastructure. This funding supports the completion of projects approved and underway.

Office of Infrastructure of Canada

\$708.6 million

Introduction to Supplementary Estimates

Funding in support of clean energy programs to strengthen Canada's economy and improve its environmental performance— \$473.5 million

Clean Energy initiatives increase the supply of clean energy, improve energy efficiency and reduce greenhouse gas emissions and other pollutants. This funding will be used to provide grants to homeowners who implement energy efficiency improvements; fund research, development and demonstration activities of clean energy technologies; and target improved energy efficiency through regulations, standards and information tools. Funding for Indian Affairs and Northern Development is for an Aboriginal and Northern Communities Initiative – ecoENERGY.

Natural Resources

\$469.7 million

Indian Affairs and Northern Development

\$3.8 million

Funding to maintain the provision of Supplementary Health Benefits (Non-Insured Health Benefits Program) and to ensure continuity of access to Clinical and Client Care nursing services in remote and isolated First Nations communities – \$218.2 million

This funding will be used to sustain basic service levels in the Non-Insured Health Benefits (NIHB) program—a demand-driven insurance plan that funds benefit claims for a limited range of medically-necessary health-related goods and services for 846,000 eligible First Nations and Inuit—and in Clinical and Client Care, to ensure continued provision of nursing services and emergency care on a 24 hours, 7 days per week basis, in 138 remote and isolated First Nations communities. It also includes funding to cover NIHB costs associated with an increased number of eligible First Nations clients resulting from the recent creation of the Qalipu Mi'kmaq First Nations band in Newfoundland and Labrador.

Health

\$218.2 million

Funding related to the assessment, management and remediation of contaminated sites – \$217.9 million

This funding will support the Federal Contaminated Sites Action Plan to reduce and eventually eliminate federal financial liability for contaminated sites. Funding sought through these Supplementary Estimates will be allocated to federal departments, agencies and crown corporations to continue the assessment, remediation and/or risk management of contaminated sites.

17 organizations

\$217.9 million

Funding to meet operational requirements and ongoing programs such as ensuring continued isotope production; addressing legacy costs associated with the wind-down of the Dedicated Isotopes Facility; implementing health and safety upgrades; investing in new build reactor technology development and addressing refurbishment project shortfalls and restructuring costs – \$200.5 million

This funding will allow Atomic Energy of Canada Ltd. to meet costs associated with continued isotope production; winding down of the Dedicated Isotopes Facility; addressing infrastructure and operational upgrades related to health, safety, security and environmental priorities at Chalk River Laboratories; developing new build reactor technology; funding shortfalls in reactor life extension projects; and managing operational pressures and restructuring costs.

Atomic Energy of Canada Limited

\$200.5 million

Introduction to Supplementary Estimates

Funding of awards to claimants resulting from the Independent Assessment Process and Alternative Dispute Resolution related to the Indian Residential Schools Settlement Agreement, including other settlement agreement costs that directly benefit claimants – \$179.4 million

In 2006, funds were set aside as part of the Indian Residential Settlement Agreement to pay awards under the Alternative Dispute Resolution process and the Independent Assessment process for serious and sexual abuse. This amount was equally distributed over the six years of the Agreement with the understanding that it might need to be adjusted to reflect the timing and amount of claims and awards to be processed. As both the number of abuse-related claims and the level of payment awards continue to run significantly above what was originally expected, Indian Affairs and Northern Development is seeking an adjustment to continue to process these court-ordered payments.

Indian Affairs and Northern Development
\$179.4 million

Funding for the Building Canada Fund Communities Component Top Up to complete short-term or construction ready infrastructure needs of smaller communities – \$163.0 million

As part of the Economic Action Plan, the Building Canada Fund Communities Component Top-up targets projects in communities with populations of less than 100,000. The top-up funds projects in three areas of national importance: a growing economy, a clean environment, and strong and prosperous communities. This funding supports the completion of projects approved and underway.

Office of Infrastructure of Canada
\$163.0 million

Funding for the write-off of debts owed to the Crown for unrecoverable Canada Student Loans – \$149.5 million

An amount of \$149,541,766 is requested to write-off 61,791 debts related to direct Canada Student Loans. The Canada Student Loans Program provides financial assistance for post-secondary students in financial need. Amounts being written off are old debts for which all reasonable efforts to collect the amounts owed, as well as repayment assistance opportunities, have been exhausted.

Human Resources and Skills Development
\$149.5 million

Funding for additional grants to international organizations to help address emerging global requirements for development assistance, food aid and nutrition, sustainable agriculture development, research and development, and education – \$125.0 million

The Canadian International Development Agency (CIDA) is seeking to transfer available contribution funding into its grant program to provide CIDA with the flexibility to respond to unforeseen food and non-food humanitarian assistance needs that could emerge before year-end relating to the current global food aid crisis.

Canadian International Development Agency
\$125.0 million

Introduction to Supplementary Estimates

Significant updates to statutory forecasts included in these Supplementary Estimates for information purposes:

Statutory items

Additional Fiscal Equalization Payment – Total Transfer Protection (Part I – Federal-Provincial Fiscal Arrangements Act) – \$952.1 million

Total Transfer Protection payments are made to provinces that would have otherwise experienced a decline in major transfers from the federal government between 2010–11 and 2011–12.

Finance
\$952.1 million

Transitional Payment to Newfoundland and Labrador (Nova Scotia and Newfoundland and Labrador Additional Fiscal Equalization Offset Payments Act) – \$536.1 million

This payment is the result of the 2005 Offshore Arrangement between the Government of Canada and Newfoundland and Labrador, which included the requirement for a Transitional payment in 2011–12 should the province not receive Equalization in that fiscal year.

Finance
\$536.1 million

Funding for expenditures directly associated with the divestiture of the CANDU Reactor Division of Atomic Energy of Canada Limited – \$284.9 million

This funding is directly associated with the divestiture of the CANDU Reactor Division, including completion of existing life extension projects, investment in new reactor development and workforce transition.

Atomic Energy of Canada Limited
\$284.9 million

Funding to provide disaster assistance to producers affected by excess moisture conditions in Alberta, Saskatchewan, Manitoba and Quebec (Agricultural Disaster Relief Program) – \$275.1 million

Excess moisture conditions were experienced in the spring of 2011 in Alberta, Saskatchewan, Manitoba and Quebec. Those provinces experienced record high levels of precipitation, which fell in fields already saturated from a wet 2010. Disaster relief funding was provided to producers to mitigate long term damage to pasture land and to offset extraordinary feed and transportation costs to maintain producers' herds.

Agriculture and Agri-food
\$275.1 million

Revised forecast of Public Debt Charges due to a downward revision in forecast short-term interest rates – (\$410 million)

The Department of Finance has a statutory authority to manage interest costs on federal government borrowing. The decrease is caused by a downwards revision to the interest rate forecast.

Finance
(\$410 million)

Adjustment of Payments to Export Development Canada to discharge obligations incurred pursuant to Section 23 of the *Export Development Act* (Canada Account) for the purpose of facilitating and developing trade between Canada and other countries (Non-budgetary) – (\$1,594 million)

Export Development Canada (EDC) is Canada's export credit agency, wholly owned by the Government of Canada and operated on commercial principles and in a financially self-sustaining manner. EDC offers innovative financing, insurance and risk management solutions to help Canadian exporters and investors expand their international business. The Canada Account facilitates trade by supporting transactions that exceed EDC's risk threshold but are determined by the Government to be in the public interest. This adjustment reflects advance payments received from Chrysler Canada and the cancellation of forecast transactions. Repayments of Canada Account transactions are deposited back into the Consolidated Revenue Fund.

Export Development Canada
(\$1,594 million)

Introduction to Supplementary Estimates

New Vote and Statutory Authorities Presented in these Supplementary Estimates

Changes to Government Structure and New Authorities Being Sought

In June 2011, section 31.1 (below) was added to the *Financial Administration Act* through the passage of the *Supporting Vulnerable Seniors and Strengthening Canada's Economy Act*.

31.1 If an order is made under section 2 of the *Public Service Rearrangement and Transfer of Duties Act*, all of the unexpended money authorized by an Act of Parliament to be paid and applied for the purposes of any power, duty or function or control or supervision of a portion of the federal public administration that is transferred as a result of the operation of sections 2 and 3 of that Act is deemed to have been appropriated for the purposes of the power, duty, function, control or supervision to the department in, or portion of, the federal public administration to which it has been transferred.

Under section 31.1, a transfer of responsibilities under the *Public Service Rearrangement and Transfer of Duties Act* is accompanied by the movement of the associated spending authority.

Shared Services Canada was announced in August 2011 and created by a *Public Service Rearrangement and Transfer of Duties Act* Order in Council. Shared Services Canada will become the provider of email, data centre, and network services for federal departments and agencies. Section 31.1 of the *Financial Administration Act* gives Shared Services Canada the authority to make expenditures related to its duties. No parliamentary authority is required for appropriations through these Estimates.

Changes to the structure of Government reflected in these Supplementary Estimates include:

Structure

- National Capital Commission – Order in Council P.C. 2011-0583 designates the Minister of Foreign Affairs, a member of the Queen's Privy Council for Canada, as the Minister for the purposes of the *National Capital Act*, effective May 18, 2011.
- Old Port of Montreal Corporation Inc. – Order in Council P.C. 2011-0585 designates the Minister of Public Works and Government Services, a member of the Queen's Privy Council for Canada, as the appropriate Minister for the Canada Lands Company Limited for the purposes of the *Financial Administration Act*, effective May 18, 2011.
- Canadian Northern Economic Development Agency – Order in Council P.C. 2011-0586 designates the Minister of Health as the appropriate Minister for the Canadian Northern Economic Development Agency for the purposes of the *Financial Administration Act*, effective May 18, 2011.
- Office of the Co-ordinator, Status of Women – Order in Council P.C. 2011-0588 designates the Minister of Human Resources and Skills Development as the appropriate Minister for the Office of the Co-ordinator, Status of Women for the purposes of the *Financial Administration Act*, effective May 18, 2011.
- Public Service Commission – Order in Council 2011-0796 transfers the Internal Electronic Staffing Process from Human Resources and Skills Development to the Public Service Commission, effective July 1, 2011.

1. Items for Inclusion in the Proposed Schedules to the Appropriation Bill

This table provides the reader with a preview of the Appropriation Bill. As noted previously, Supplementary Estimates directly supports the Bill. This table provides a list of Vote numbers, Vote wording and the requested funds that will be proposed to Parliament for approval. There are two schedules to the Appropriation Bill in Supplementary Estimates: Schedule 1 identifies those items for the fiscal year ending March 31, 2012 whereas Schedule 2 identifies those items for the fiscal year ending March 31, 2013.

Only positive adjustments to appropriations are included in a Proposed Schedule to the Appropriation Bill. Where funding for a Vote has netted to zero or has a negative amount displayed in these Supplementary Estimates, no change is required to existing spending authority and not requested of Parliament. Therefore, they are not included in these schedules.

Once the Appropriation Bill is approved, the Vote wording becomes the governing conditions under which expenditures may be made. The following kinds of Votes can appear in Supplementary Estimates:

- a. Program expenditures Votes – This type of Vote is used when there is no requirement for either a separate “Capital expenditures” Vote or “Grants and contributions” Vote because neither equals or exceeds \$5 million. In this case, all expenditures are charged to the one Vote.
- b. Operating expenditures Votes – This type of Vote is used when there is a requirement for either a “Capital expenditures” Vote or a “Grants and contributions” Vote or both; that is, when expenditures of either type equals or exceeds \$5 million.
- c. Capital expenditures Votes – This type of Vote is used when capital expenditures equal or exceed \$5 million. Expenditure items in a “Capital expenditures” Vote could include individual items expected to exceed \$10,000 for the acquisition of land, buildings and works (Standard Object 8), as well as the acquisition of machinery and equipment (Standard Object 9), or for purposes of constructing or creating assets where an organization expects to draw upon its own labour and materials or employs consultants or other services or goods (Standard objects 1 to 9). Different threshold limits may be applied for different capital expenditure classes.
- d. Grants and contributions Votes – This type of Vote is used when the total of grants and contributions expenditures equals or exceeds \$5 million. It should be noted that the inclusion of a grant, contribution or other transfer payment item in Supplementary Estimates imposes no requirement to make a payment, nor does it give a prospective recipient any right to the funds. It should also be noted that in the Vote wording, the meaning of the word “contributions” is considered to include “other transfer payments” because of the similar characteristics of each.
- e. Non-budgetary Votes – This type of Vote is identified by the letter “L”, and provides authority for spending in the form of loans or advances to, and investments in, Crown corporations and loans or advances for specific purposes to other governments, international organizations or persons or corporations in the private sector.
- f. Special Votes: Crown Corporation Deficits and Separate Legal Entities – Where it is necessary to appropriate funds for a payment to a Crown corporation or for the expenditures of a legal entity, a separate Vote is established. A legal entity for these purposes is defined as a unit of government operating under an Act of Parliament and is responsible directly to a Minister.

Overview

- g. Treasury Board centrally-managed Votes – To support the Treasury Board in performing its statutory responsibilities for managing the government’s financial, human and materiel resources, a number of special authorities are required as outlined below.
- i. Government Contingencies Vote – This Vote serves to supplement other appropriations and to provide for miscellaneous, urgent or unforeseen expenditures not otherwise provided for, including grants and contributions not listed in the Estimates and the increase of the amount of grants listed in these Supplementary Estimates. This authority to supplement other appropriations is provided until parliamentary approval can be obtained and as long as the expenditures are within the legal mandate of the organization.
 - ii. Government-Wide Initiatives Vote – This Vote supplements other appropriations in support of the implementation of strategic management initiatives in the Public Service of Canada.
 - iii. Compensation Adjustments Vote – This Vote supplements other appropriations to provide funding for the increased personnel costs of collective agreements between the Treasury Board and collective bargaining units representing public servants, as well as collective agreements signed by separate employers, including members of the Royal Canadian Mounted Police and the Canadian Forces, Governor in Council appointees and Crown corporations as defined in section 83 of the *Financial Administration Act*.
 - iv. Public Service Insurance Vote – This Vote provides for the payment, in respect of insurance, pension or benefit programs or other arrangements, or in respect of the administration of such programs, or arrangements, including premiums, contributions, benefits, fees and other expenditures, made in respect of the public service or any part thereof and for such other persons, as Treasury Board determines, and authority to expend any revenues or other amounts received in respect of such programs or arrangements to offset any such expenditures in respect of such programs or arrangements and to provide for the return to certain employees of their share of the premium reduction under subsection 96(3) of the *Employment Insurance Act*.
 - v. Operating Budget Carry Forward Vote – This Vote supplements other appropriations for the operating budget carry forward from the previous fiscal year.
 - vi. Paylist Requirements Vote – This Vote supplements other appropriations for requirements related to parental and maternity allowances, entitlements on cessation of service or employment and adjustments made to terms and conditions of service or employment of the federal public administration including members of the Royal Canadian Mounted Police and the Canadian Forces, where these have not been provided from the Compensation Adjustments Vote.
 - vii. Capital Budget Carry Forward Vote – This Vote supplements other appropriations for capital budget carry forward from the previous year.

2. Statutory Forecasts

This table provides Parliament with an update on significant changes to expenditure forecasts of major statutory items. Statutory items are those that Parliament has approved through other legislation that sets out both the purpose of the expenditures and the terms and conditions under which they may be made. Statutory spending is displayed in the Supplementary Estimates for information only.

3. Summary of Changes to Voted Appropriations

This table displays all Voted information displayed in these Supplementary Estimates in Ministry order.

The first column (Vote Number) indicates the Vote that is to be augmented through these Supplementary Estimates. The letter accompanying the Vote indicates which Supplementary Estimates was used to augment the Vote.

The second column (Gross Amount) displays the total amount of funding being sought in these Supplementary Estimates.

Overview

The third column (Less: Available Spending Authorities) represents unused spending authority being used by organizations to minimize the amount being requested in these Supplementary Estimates. Additional information on these amounts is provided in the details section.

The fourth column (Net Amount) displays the net amount of incremental funding being reflected in these Supplementary Estimates. However, it should be noted that the Proposed Schedules to the Appropriation Bill do not reflect funding for organizations where the net amount is zero or negative.

4. Budgetary Supplementary Estimates by Standard Object of Expenditure

To determine and report more accurately the impact of government expenditures on the rest of the economy, the net amount of government purchases by standard object must be determined. All organizations, including those that use revolving funds, must charge their expenditures for purchases to standard object expense categories. Standard objects are the highest level of object classification used for parliamentary and executive purposes, and are reported in the Main and Supplementary Estimates and the Public Accounts. The standard objects of expenditure are as follows:

1. Personnel
2. Transportation and communications
3. Information
4. Professional and special services
5. Rentals
6. Purchased repair and maintenance
7. Utilities, materials and supplies
8. Acquisition of land, buildings and works
9. Acquisition of machinery and equipment
10. Transfer payments
11. Public debt charges
12. Other subsidies and payments

5. Allocations from the Treasury Board Central Votes

This summary table provides a comprehensive list of allocations from Treasury Board (TB) Central Votes for Government Contingencies, Government-Wide Initiatives, Compensation Adjustments, Operating Budget Carry Forward and Paylist Requirements, where applicable.

Government Contingencies (TB Vote 5) – This summary table provides a comprehensive list of organizations that have received temporary Treasury Board Contingency Vote (TB Vote 5) funding. Temporary funding can be provided for miscellaneous, urgent or unforeseen expenditures, which were not provided for in the Main Estimates and which are required before the next Supplementary Estimates receive Royal Assent. Once Parliament approves the Appropriation Bill for Supplementary Estimates and the Governor General provides Royal Assent, the temporary funding is reimbursed to TB Vote 5.

The following criteria must be met in order for Treasury Board to approve access to TB Vote 5:

- All advances from the Government Contingencies Vote should be considered temporary advances to be covered by items included in subsequent Supplementary Estimates and reimbursed when the associated Appropriation Act is passed. Exceptions are made for requirements that arise after final Supplementary Estimates for the fiscal year where advances would not be reimbursable.
- An organization's existing appropriation must be insufficient to cover both existing requirements and the new initiative until the next Supply period. To that end, an organization must support any request with a valid cash flow analysis.
- A valid and compelling reason exists, particularly as it relates to the payment of grants, as to why the payment needs to be made before the next Supply period. If not, the payment should be deferred and access to TB Vote 5 denied.
- For grants, the Transfer Payment Policy must be consulted and followed to ensure that a valid, legally incorporated recipient exists and that the organization clearly demonstrates that it needs to make a payment before the next Supply period.

Overview

Government-Wide Initiatives (TB Vote 10) – This Vote supplements other appropriations in support of the implementation of strategic management initiatives within the public service of Canada. Departments and agencies are not required to reimburse funding allocated from Vote 10.

Compensation Adjustments (TB Vote 15) – This Vote supplements other appropriations that may need to be partially or fully augmented as a result of adjustments made to terms and conditions of service or employment of the federal public administration, including members of the Royal Canadian Mounted Police and the Canadian Forces, Governor in Council appointees and Crown corporations as defined in section 83 of the *Financial Administration Act*. Departments and agencies are not required to reimburse funding allocated from Vote 15.

Operating Budget Carry Forward (TB Vote 25) – This Vote supplements other appropriations by authorizing a carry forward of unused funds from the previous fiscal year up to a maximum of five per cent of departments' and agencies' Main Estimates operating budget as was established in the previous fiscal year. Departments and agencies are not required to reimburse funding allocated from Vote 25.

Paylist Requirements (TB Vote 30) – This Vote supplements other appropriations by providing the government with funding to meet legal requirements of the employer such as parental leave, maternity leave, entitlements upon cessation of service or employment and adjustments made to terms and conditions of service or employment of the federal public administration. Departments, agencies and Crown corporations may access this Vote throughout the fiscal year. Departments, agencies and Crown corporations are not required to reimburse funding allocated from Vote 30.

Capital Budget Carry Forward (TB Vote 33) – This Vote supplements other appropriations by authorizing a carry forward of unused funds from the previous fiscal year. Departments and agencies with a separate Capital Vote are entitled to carry forward up to 20% of their year-end capital budget. Departments and agencies are not required to reimburse funding allocated from Vote 33.

6. Horizontal Items included in these Supplementary Estimates

A horizontal initiative is an initiative in which partners from two or more organizations have established a formal funding agreement (e.g. Memorandum to Cabinet, Treasury Board submission, federal-provincial agreement) to work toward the achievement of shared outcomes.

This table provides a summary of those items for which funding is sought in Supplementary Estimates. It also provides an overview of initiatives related to Supplementary Estimates in then current fiscal year where two or more organizations are seeking incremental funding increases.

7. \$1 Items included in these Supplementary Estimates

Supplementary Estimates often include “one dollar items”, which seek an alteration in the existing allocation of funds or to existing Vote wording (as in the case of loan guarantees) as authorized in the Main Estimates. The purpose of a one dollar item is not to seek new or additional funds, but rather to reallocate existing spending authorities between Votes and/or to provide appropriate authorities. Therefore, since no new funds are requested, the “one-dollar” amount is merely symbolic.

For example, one-dollar items may be used to:

1. Transfer funds from one Vote to another;
2. Write off debts;
3. Adjust loan guarantees;
4. Authorize grants; or
5. Amend previous Appropriation Acts.

 - Sustaining grants to national and international non-profit organizations.
 - Contributions to international organizations and assessments for membership in such organizations, such as the contribution to the International Food Aid Program and Canada's assessment for membership in the United Nations.

Budgetary Supplementary Estimates by Standard Object of Expenditure

- Most of the payments in this standard object category are identified in the Estimates as “Grants” or “Contributions”. The former are not subject to audit and are therefore restricted by Parliament as to amount and recipient and often as to purpose through the approval of the Supply bill which specifies “grants listed in the Estimates”; the latter are conditional and subject to audit and are not so restricted. Grants and their total values have a legislative character and specific descriptions that govern their use.

11. Public Debt Charges

- Interest on the unmatured debt of Canada (including Treasury Bills) and on other liabilities such as trust and other special funds.
- The cost of issuing new loans, amortization of bond discount, premiums and commissions.
- The cost of servicing and administering the Public Debt.

12. Other Subsidies and Payments

- Payments to Crown corporations that include those made to provide for operating deficits as well as other transfers paid to Crown corporations.
- Payments to certain non-budgetary accounts (such as the government contributions to agricultural commodities stabilization accounts, as well as benefits under the *Veterans Land Act*), as well as the write-offs of various types of losses, the annual adjustment of reserves for financial claims and some other miscellaneous items referred to as “Sundries”.
- Miscellaneous expenditures include licenses, permits and payments for dockage, towage, wharfage and mooring privileges; bonding of government employees, loss of personal effects, and expenditures for small miscellaneous articles and services. Also included are many small items and services that do not lend themselves to identification under specific headings detailed in this summary.

Vote 5 – Government Contingencies

\$331,093,619

Subject to the approval of the Treasury Board, this serves to supplement other appropriations and to provide the government with sufficient flexibility to meet urgent or unforeseen expenditures where a valid cash requirement exists in advance of a Supply period. This authority to supplement other appropriations is provided until parliamentary approval can be obtained and as long as the expenditures are within the legal mandate of the organization. Temporary allocations are reimbursed to TB Vote 5 upon receiving Royal Assent for an Appropriation Act.

Funding for the renewal of the Clean Air Regulatory Agenda

The objective of the Clean Air Regulatory Agenda is to improve air quality through the development and enforcement of regulations. This funding will support work at all stages of the regulatory cycle, from foundational science and policy analysis to reporting and enforcement activities. These activities will enable implementation of a five-year regulatory plan that is aligned with actions in the U.S. and designed to reduce greenhouse gas and air pollutant emissions. This funding will also support research into oil sands' impacts and allow for ongoing implementation of the Air Quality Management System, a Canada-wide air quality standards system that will facilitate air pollutant management on a national scale.

\$1 Items included in these Supplementary Estimates

Through the Supplementary Estimates, an organization can seek changes to various spending authorities originally received through parliamentary approval of the previous Supply bills for Main or Supplementary Estimates. These alterations might include requests for additional funding relating to a transfer of funds from another organization, a re-allocation or amendment of existing spending authorities, or the addition of new authorities.

Parliamentary approval of such changes is sought through an enabling Supply bill. However, in order to be included in a Supply bill, an item must have a monetary value. This is not an issue when a department is also requesting an adjustment to its appropriation. However, in the absence of any increase to the Vote, a notional amount of \$1 allows the item to be included in the Supply bill.

The authority associated with each \$1 item relates to either:

1. *Approval of grants* – The wording used in the Estimates to describe a grant has a legislative character and, therefore all new grants or increases to existing grants must first be approved by Parliament before any payments can be made to eligible recipients. A \$1 item is included when there is no requirement for additional appropriations because the new grant or the increase to an existing grant is to be funded from within existing resources or from a transfer of funds from another organization.
2. *Vote transfers within an organization* – Through Supply legislation, an organization may have received spending authorities in more than one Vote (e.g., operating expenditures Vote and capital expenditures Vote). As the fiscal year progresses, and for various reasons, the organization may need to realign its approved funding due to changes in delivery mechanisms within organizational priorities.
3. *Transfers between organizations* – Transfers between organizations are used for a variety of reasons such as: to redirect funding from one organization to another in order to manage or to implement more efficiently an initiative or project; and/or to reflect new organizational responsibilities.
4. *Modify authority embedded in existing vote wording* – The Supplementary Estimates can be used to amend an existing authority that is embedded in the Vote wording of an organization. Most of these authorities can be found in the non-budgetary Vote wording of organizations and are related to limits or ceilings on loans, investments and advances. Such Votes are preceded by the letter “L”.
5. *Create new vote and associated wording* – The Supplementary Estimates can be used to create a new vote with the associated wording which will give the organization the authority as specified in the new vote wording.

The following table captures, under each of the above categories, the instances where a \$1 item is required in these Supplementary Estimates. A number of these transactions can be captured in a department’s Vote wording, but will require a single \$1 item. Therefore, as the following table is presented by category, there may be some departmental Votes that appear more than once despite the fact they relate to a single \$1 item.
