

Supplementary Estimates (A), 2012-13

For the
Fiscal year ending
March 31, 2013

The Estimates Documents

Each year, the government prepares Estimates in support of its request to Parliament for authority to spend public funds. This request is formalized through the introduction of appropriation bills in Parliament. The Estimates, which are tabled in the House of Commons by the President of the Treasury Board, consist of the following:

Part I – The Government Expenditure Plan provides an overview of federal spending and summarizes the key elements of the Main Estimates.

Part II – The Main Estimates directly support the Appropriation Act. The Main Estimates identify the spending authorities (Votes) and amounts to be included in subsequent appropriation bills. Parliament will be asked to approve these Votes to enable the government to proceed with its spending plans. Parts I and II of the Estimates are tabled on or before March 1.

Part III – Departmental Expenditure Plans are divided into two components:

- 1) **Reports on Plans and Priorities (RPP)** are individual expenditure plans for each department and agency (excluding Crown corporations). These reports provide increased levels of detail over a three-year period on an organization's main priorities by strategic outcome(s), program activity(ies) and planned/expected results, including links to related resource requirements. The RPPs also provide additional details on risk management, operational and management priorities, transformational projects and grants and contributions, etc. These documents are tabled in Parliament in the spring by the President of the Treasury Board on behalf of the ministers who preside over the appropriation-dependent departments and agencies identified in Schedules I.1.1 and II of the *Financial Administration Act*. These documents are referred to committees, which may then report to the House of Commons pursuant to Standing Order 81(7).
- 2) **Departmental Performance Reports (DPR)** are individual department and agency accounts of results achieved against planned performance expectations as set out in respective RPPs. These Performance Reports, which cover the most recently completed fiscal year, are tabled in Parliament in the fall by the President of the Treasury Board on behalf of the ministers who preside over the appropriation-dependent departments and agencies identified in Schedules I, I.1 and II of the *Financial Administration Act*.

Supplementary Estimates directly support an Appropriation Act. The Supplementary Estimates identify the spending authorities (Votes) and amounts to be included in the subsequent appropriation bill. Parliamentary approval is required to enable the government to proceed with its spending plans. Supplementary Estimates are normally tabled three times a year, the first document in May, the second in late October and the final in late February. Each Supplementary Estimates document is identified alphabetically A, B, C, etc. In special circumstances, more than three Supplementary Estimates documents can be published in any given year.

The Estimates, along with the Minister of Finance's Budget, reflect the government's annual budget planning and resource allocation priorities. In combination with the subsequent reporting of financial results in the Public Accounts and of accomplishments achieved in DPRs, this material helps Parliament hold the government to account for the allocation and management of public funds.

Introduction to Supplementary Estimates

Structure of these Supplementary Estimates

This Supplementary Estimates document is presented in four sections:

1. *Introduction to Supplementary Estimates;*
2. *Summary Tables;*
3. *Details by Department, Agency and Crown Corporation; and*
4. *Annex.*

Purpose and General Information

The purpose of Supplementary Estimates is to present to Parliament information on the Government of Canada's spending requirements which were either not sufficiently developed in time for inclusion in the Main Estimates, or have subsequently been refined to account for developments in particular programs and services.

Supplementary Estimates also provide updated information on changes to expenditure forecasts of major statutory items as well as on such items as: transfers of money between Votes; debt deletion; loan guarantees; new or increased grants; and changes to Vote wording.

Supplementary Estimates documents are normally tabled in Parliament approximately one month in advance of the related Appropriation Act that provides the necessary authority for the Government of Canada to spend monies from the Consolidated Revenue Fund to carry out its programs and services. This period is intended to provide the various Standing Committees of Parliament with sufficient time to review proposed spending before the introduction of the Appropriation Act.

Since the spring of 2007, the practice has been to table a Supplementary Estimate for each of the three Parliamentary Supply periods ending June 23, December 10, and March 26. These Supplementary Estimates (A) are the first Supplementary Estimates planned for this fiscal year.

Summary of Estimates to Date – Fiscal Year ending March 31, 2013

The 2012–13 Main Estimates were tabled on February 28, 2012, supporting the government's request to Parliament for authority through annual appropriations to spend \$91.9 billion in budgetary expenditures and \$0.1 billion in non-budgetary expenditures and presenting information on the statutory amounts of \$160.0 billion in budgetary expenditures and \$2.0 billion in net non-budgetary recoveries. Royal Assent for *Appropriation Act No. 1, 2012–13* was granted on March 29, 2012 and provided interim supply to departments, organizations and appropriation-dependent Crown Corporations until the end of June 2012. The President of the Treasury Board will introduce a bill requesting the remainder of the funding included in the Main Estimates in June.

Main Estimates

Introduction to Supplementary Estimates

The tabling of the 2012 Budget on March 29, 2012 did not allow sufficient time for the inclusion of most announced measures in the 2012–13 Main Estimates. New planned expenditures announced in the 2012 Budget will be included in future Estimates documents. Supplementary Estimates (A) does not reflect reductions set out in Budget 2012.

The Supplementary Estimates (A) provides information in support of requests for Parliament's approval of \$2.1 billion in voted appropriations which represent an increase of 2.3% over Main Estimates. Also presented in this document is information related to an increase of \$0.2 billion in forecast budgetary statutory expenditures.

Budget 2012

These Supplementary Estimates

Table 1: Total 2012–13 Supplementary Estimates (A) (\$ billions)

	Budgetary ¹	Non-Budgetary ²
Voted Appropriations ³	2.1	0.0
Statutory Expenditures ⁴	0.2	0.0
Total	2.3	0.0

Notes:

1. Budgetary expenditures include the cost of servicing the public debt; operating and capital expenditures; transfer payments to other levels of government, organizations or individuals; and payments to Crown corporations.
2. Non-Budgetary expenditures (loans, investments and advances) are outlays that represent changes in the composition of the financial assets of the Government of Canada.
3. Voted Appropriations are those for which parliamentary authority is sought through an Appropriation bill.
4. Statutory Expenditures are those authorized by Parliament through enabling legislation and for which forecasts are provided for information purposes.

Major Changes to Planned Expenditures

The following section provides an overview of major items included in these Supplementary Estimates.

Major voted initiatives included in these Supplementary Estimates requiring Parliamentary approval:

Paylist Requirements – Funding for allocations to eligible departments and agencies for the payment of accumulated severance pay benefits

Funding will be used to reimburse departments, agencies and Crown corporations for severance pay benefits this fiscal year. Under recent collective agreements, affected employees will no longer accumulate severance pay in cases of resignation and retirement. Severance benefits accumulated up to the signature of the applicable collective agreement are payable to the employee. Eligible expenditures will be reimbursed through a direct transfer to departmental appropriations during the fiscal year in which such costs are actually incurred. The timing of payments depends on the signing and subsequent implementation of collective agreements.

Voted items

Treasury Board Secretariat
\$850.0 million

Introduction to Supplementary Estimates

Funding for projects to rehabilitate the parliamentary precinct buildings

Public Works and Government Services Canada is the custodian of the buildings and grounds on Parliament Hill; it is rehabilitating the Parliamentary Precinct buildings and conserving their heritage character, providing accommodation that meets the requirements of Parliament, and creating a safe and welcoming environment for tenants and visitors. This funding will cover costs related to the rehabilitation of the West Block and the Wellington Building and the leasing of temporary space during this work.

Public Works and Government Services

\$242.9 million

Funding for Canada's fast start financing commitments under the Copenhagen Accord, which supports climate change adaptation and mitigation in developing countries

The Copenhagen Accord laid out a road map for a post-2012 climate change regime and included a commitment by developed countries to provide financing to developing countries for climate change adaptation and mitigation. This funding will support initiatives: to help the poorest and most vulnerable people adapt to the impacts of climate change they are currently experiencing; to increase the availability of clean energy in developing countries; and to improve the management of forest and agriculture resources in developing countries including the protection of rainforests and protected areas.

Canadian International Development Agency

\$171.1 million

Environment

\$24.9 million

Foreign Affairs and International Trade

\$5.0 million

Parks Canada Agency

\$1.5 million

Funding to meet operational requirements and ongoing programs such as ensuring isotope production; addressing legacy costs of the wind-down of the Dedicated Isotope Facilities, urgent health, safety, security and environmental priorities at Chalk River Laboratories

This funding will allow Atomic Energy of Canada Ltd. to meet costs associated with: continued isotope production; winding down of the Dedicated Isotopes Facility; addressing infrastructure and operational upgrades related to health, safety, security and environmental priorities at Chalk River Laboratories. It will also be used to pay out voluntary severance to align with government efforts to eliminate the accumulation of these benefits.

Atomic Energy of Canada Limited

\$160.0 million

Funding for specific claims settlements

Specific claims settlements seek to rectify historic wrongs arising from alleged non-fulfillment of a legal obligation (e.g. a treaty) or the improper administration of lands and other assets under the *Indian Act*. This funding supports specific claims settlements anticipated for this fiscal year.

Indian Affairs and Northern Development

\$150.0 million

Funding for the implementation of the Port Hope Area Initiative

The Port Hope Area Initiative cleans up and safely stores low-level radioactive waste that was improperly disposed of in the Ontario communities of Port Hope and Port Granby. Funding included in these supplementary estimates will support the implementation phase of the initiative, during which contaminated soil will be removed and transported to two new waste management sites for long term storage and monitoring.

Natural Resources

\$73.2 million

Introduction to Supplementary Estimates

Funding for incremental pension requirements

This funding will allow VIA Rail Canada Inc. to make pension contributions to address the solvency of its pension plans.

VIA Rail Canada Inc.
\$68.0 million

First Nations Community Policing Services – Transfer from Public Safety and Emergency Preparedness to Royal Canadian Mounted Police

This funding supports the provision of policing services by the Royal Canadian Mounted Police in certain First Nations communities across Canada.

Royal Canadian Mounted Police
\$41.0 million

Significant updates to statutory forecasts included in these Supplementary Estimates for information purposes:

Statutory items

Funding for the Agricultural Disaster Relief program to provide targeted financial assistance to help producers to return their farms to operation and/or to contain the impacts after a natural disaster

The Agricultural Disaster Relief program is a framework that allows federal, provincial and territorial governments to work together on a case-by-case basis to assess disasters (e.g., extreme weather, disease, pests, etc.) affecting Canadian farmers and respond with targeted, disaster-specific programming when assistance is needed beyond existing programs.

Agriculture and Agri-Food
\$110.8 million (statutory)
\$11.9 million (voted)

Funding to accelerate repairs and maintenance at post-secondary institutions (Knowledge Infrastructure Program)

The Knowledge Infrastructure Program was announced in January 2009 as part of Canada's Economic Action Plan. In December 2010, the Prime Minister extended the completion for some Economic Action Plan projects from March 31, 2011 to October 31, 2011. Consistent with the project agreements and the Economic Action Plan extension, Industry Canada must reimburse provinces/territories/institutions for eligible expenses that were incurred by the October 31, 2011 deadline. These funds are needed to make the final payments to 65 projects which must still obtain proof of completion from a third party (e.g., provincial government auditor).

Industry
\$52.5 million

Introduction to Supplementary Estimates

Major net changes to individual Votes in these Supplementary Estimates

The amounts presented in these Supplementary Estimates are incremental to the Main Estimates. The net change in a Vote consists of transfers (amounts transferred in and out of the vote) and adjustments (the amount in the related Appropriation Act).

Introduction to Supplementary Estimates

New Vote and Statutory Authorities Presented in these Supplementary Estimates

Changes to Government Structure and New Authorities Being Sought

Section 31.1 of the *Financial Administration Act* provides expenditure authority for transfers of any power, duty or function or control or supervision of a portion of the federal public administration for Orders in Council made under section 2 of the *Public Service Rearrangement and Transfer of Duties Act*. Pursuant to section 31.1, unexpended money related to the transferred functions is deemed to have been appropriated to the department to which the functions have been transferred.

The deemed appropriations in the department(s) receiving the functions are established based on the nature of the appropriations of the department(s) from which the functions have been transferred. The deemed appropriations in the receiving department(s) may include operating expenditures, program expenditures, capital expenditures, grants and contributions or other Votes, as determined by the nature of the Votes of the department(s) from which the functions have been transferred.

The complexity of the calculation of unexpended money depends on the nature of the functions transferred. If the final amounts of unexpended money have been determined in time for inclusion in a Supplementary Estimates, they will be reflected in adjustments to the amounts of previous authorities of the affected departments. Following the end of the fiscal year, the Public Accounts of Canada will reflect the availability and use of the deemed authorities.

Changes to the structure of Government reflected in these Supplementary Estimates include:

Structure

Indian Affairs and Northern Development – Order in Council P.C. 2012-0286 transfers to the Department of Indian Affairs and Northern Development the control and supervision of the portion of the federal public administration in the Department of Canadian Heritage known as the Urban Aboriginal Youth and Community Programs Unit, effective April 1, 2012.

Changes to voted and statutory authorities being sought in these Supplementary Estimates include:

New and changed authorities are listed in each Ministry Summary: underlined vote number or (S) for statutory items indicate new authorities and underlined wording are changed authorities.

New vote authorities are being sought by:

New Votes

- There are no new vote authorities being sought.

Amendments to the wording of voted authorities are being sought by:

Amendments to Votes

- Health (Vote 10a)

New statutory authorities included in these Supplementary Estimates are:

New statutory authorities

- Agriculture and Agri-Food – Contribution payments for the Agricultural Disaster Relief program/AgriRecovery
- Industry – Contributions under the Knowledge Infrastructure Program

Horizontal Items included in these Supplementary Estimates

A horizontal initiative is an initiative in which partners from two or more organizations have established a formal agreement (e.g. Memorandum to Cabinet, Treasury Board submission, federal-provincial agreement) to work toward the achievement of shared outcomes.

This table provides a summary of those items for which funding is sought in Supplementary Estimates. It also provides an overview of initiatives related to Supplementary Estimates in then current fiscal year where two or more organizations are seeking incremental funding increases.

Items for Inclusion in the Proposed Schedules to the Appropriation Bill

This table provides the reader with a preview of the Appropriation Bill. As noted previously, Supplementary Estimates directly supports the Bill. This table provides a list of Vote numbers, Vote wording and the requested funds that will be proposed to Parliament for approval. There are two schedules to the Appropriation Bill in Supplementary Estimates: Schedule 1 identifies those items for the fiscal year ending March 31, 2013 whereas Schedule 2 identifies those items for the fiscal year ending March 31, 2014.

Only positive adjustments to appropriations are included in a Proposed Schedule to the Appropriation Bill. Where funding for a Vote has netted to zero or has a negative amount displayed in these Supplementary Estimates, no change is required to existing spending authority and is not requested of Parliament. Therefore, they are not included in these schedules.

Once the Appropriation Bill is approved, the Vote wording becomes the governing conditions under which expenditures may be made. The following kinds of Votes can appear in Supplementary Estimates:

- a. Program expenditures Votes – This type of Vote is used when there is no requirement for either a separate “Capital expenditures” Vote or “Grants and contributions” Vote because neither equals or exceeds \$5 million. In this case, all expenditures are charged to the one Vote.
- b. Operating expenditures Votes – This type of Vote is used when there is a requirement for either a “Capital expenditures” Vote or a “Grants and contributions” Vote or both; that is, when expenditures of either type equals or exceeds \$5 million.
- c. Capital expenditures Votes – This type of Vote is used when capital expenditures equal or exceed \$5 million. Expenditure items in a “Capital expenditures” Vote could include individual items expected to exceed \$10,000 for the acquisition of land, buildings and works (Standard Object 8), as well as the acquisition of machinery and equipment (Standard Object 9), or for purposes of constructing or creating assets where an organization expects to draw upon its own labour and materials or employs consultants or other services or goods (Standard objects 1 to 9). Different threshold limits may be applied for different capital expenditure classes.
- d. Grants and contributions Votes – This type of Vote is used when the total of grants and contributions expenditures equals or exceeds \$5 million. It should be noted that the inclusion of a grant, contribution or other transfer payment item in Supplementary Estimates imposes no requirement to make a payment, nor does it give a prospective recipient any right to the funds. It should also be noted that in the Vote wording, the meaning of the word “contributions” is considered to include “other transfer payments” because of the similar characteristics of each.
- e. Non-budgetary Votes – This type of Vote is identified by the letter “L”, and provides authority for spending in the form of loans or advances to, and investments in, Crown corporations and loans or advances for specific purposes to other governments, international organizations or persons or corporations in the private sector.
- f. Special Votes: Crown Corporation Deficits and Separate Legal Entities – Where it is necessary to appropriate funds for a payment to a Crown corporation or for the expenditures of a legal entity, a separate Vote is established. A legal entity for these purposes is defined as a unit of government operating under an Act of Parliament and is responsible directly to a Minister.
- g. Treasury Board centrally-managed Votes – To support the Treasury Board in performing its statutory responsibilities for managing the government’s financial, human and materiel resources, a number of special authorities are required as outlined below.
 - i. Government Contingencies Vote – This Vote serves to supplement other appropriations and to provide for miscellaneous, urgent or unforeseen expenditures not otherwise provided for, including grants and contributions not listed in the Estimates and the increase of the amount of grants listed in these Supplementary Estimates. This authority to supplement other appropriations is provided until parliamentary approval can be obtained and as long as the expenditures are within the legal mandate of the organization.
 - ii. Government-Wide Initiatives Vote – This Vote supplements other appropriations in support of the implementation of strategic management initiatives in the Public Service of Canada.

Items for Inclusion in the Proposed Schedules to the Appropriation Bill

- iii. Compensation Adjustments Vote – This Vote supplements other appropriations to provide funding for the increased personnel costs of collective agreements between the Treasury Board and collective bargaining units representing public servants, as well as collective agreements signed by separate employers, including members of the Royal Canadian Mounted Police and the Canadian Forces, Governor in Council appointees and Crown corporations as defined in section 83 of the *Financial Administration Act*.
- iv. Public Service Insurance Vote – This Vote provides for the payment, in respect of insurance, pension or benefit programs or other arrangements, or in respect of the administration of such programs, or arrangements, including premiums, contributions, benefits, fees and other expenditures, made in respect of the public service or any part thereof and for such other persons, as Treasury Board determines, and authority to expend any revenues or other amounts received in respect of such programs or arrangements to offset any such expenditures in respect of such programs or arrangements and to provide for the return to certain employees of their share of the premium reduction under subsection 96(3) of the *Employment Insurance Act*.
- v. Operating Budget Carry Forward Vote – This Vote supplements other appropriations for the operating budget carry forward from the previous fiscal year.
- vi. Paylist Requirements Vote – This Vote supplements other appropriations for requirements related to parental and maternity allowances, entitlements on cessation of service or employment and adjustments made to terms and conditions of service or employment of the federal public administration including members of the Royal Canadian Mounted Police and the Canadian Forces, where these have not been provided from the Compensation Adjustments Vote.
- vii. Capital Budget Carry Forward Vote – This Vote supplements other appropriations for the capital budget carry forward from the previous year.
