

Cooperative Impact Assessments

The Government of Canada is committed to meeting the objective of **"one project, one assessment"** in its review of projects. By working with other jurisdictions, we can reduce duplication and increase efficiency and certainty about the process.

Ways We Can Cooperate

Planning Phase (up to 180 days)

Projects will go through a planning and engagement phase where potential impacts are discussed with the public and Indigenous peoples at the outset. This phase will present enhanced opportunities for cooperation and harmonization with provinces, territories and Indigenous jurisdictions to achieve **"one project, one assessment"**.

Benefits

"one project, one assessment"

What is a Cooperation Agreement?

A cooperation agreement describes how the Agency will work with another jurisdiction in future project reviews. An agreement sets out guiding principles, roles and responsibilities of each jurisdiction, and the cooperative processes that may be used. Cooperation agreements help inform project-specific cooperation plans.
