**Decrease in the number of primary elevator licences. /
Diminution du nombre de licence de silos primaires**

Effective the 1984-85 crop year the Canadian Grain Commission allowed operators of primary elevators to licence two or more adjacent facilities, which were under the control of a single manager, as a single primary elevator.

Dès le début de la campagne agricole 1984-85, la Commission canadienne des grains a accepté de délivrer une seule licence aux exploitants de deux silos ou plus lorsque ceux-ci étaient gérés par une seule personne et étaient attenants.

As a result of this policy and the continued rationalization of the primary elevator system, the number of licences issued declined dramatically, going from 2,800 in 1983-84 to 1,967 on August 1, 1984.

Suite à cette nouvelle politique et à la consolidation du réseau de silos primaires, le nombre de silos agréés passa de 2 800 en 1983-84 à 1 967 au 1^{er} août 1984.
