The following entities do not have to file the form:

## Section 1 – Reporting entity information

### For individual code, tick:

1. If the individual or the individual's spouse (common-law partner) is self-employed.

### For partnership code, tick:

## Country Codes

For a list of country codes, see the CRA website at: [cra.gc.ca/E/pub/tg/t4061/t4061-e.html#P482\\_43418](http://cra.gc.ca/E/pub/tg/t4061/t4061-e.html#P482_43418).

## Section 2 – Certification

This area should be completed and signed by:

- the person filing this form in the case of an individual;
- an authorized officer in the case of a corporation;
- the trustee, executor, or administrator where the person filing the return is a trust; or
- an authorized partner in the case of a partnership.

If a person or firm other than the reporting entity prepared this form, provide their name, address and telephone number.

## How to complete the Form T1142 Supplement

A separate supplement must be filed for each non-resident trust. A nil amount should be reported by indicating "0" (zero) rather than leaving the amount or fair market value field empty.

Amounts should be rounded to the nearest dollar.

## Foreign currency reporting and conversion

Report monetary values in Canadian dollars except where an election has been made to use a functional currency.

When converting amounts into Canadian dollars or functional currency, you should use the exchange rate in effect at the time of the transaction. Use the exchange rate in effect at year-end to report year-end balances. If contributions or distributions are made throughout the year, we will accept an average rate for the year.

## Section A – Identification of the non-resident trust

Provide the name of the non-resident trust and its trust account number, if any, issued by the CRA. Provide the name, address, country of residence at the reporting entity's year end, and telephone number of the trustee(s).

## Section B – Distributions from the non-resident trust

Complete this part if, in the taxation year, the taxpayer received funds or property other than funds from this non-resident trust.

### Funds

If the taxpayer received funds report the amount and indicate in the appropriate box whether this was a distribution of income or of capital for income tax purposes. For this purpose, "funds" includes cash and negotiable instruments, such as cheques and drafts.

### Property other than funds

If the taxpayer received property that is other than funds (e.g., real estate or shares), provide a description of this property and an estimate of its fair market value at the time of the distribution. Indicate in the appropriate box whether this was a distribution of income or of capital for income tax purposes.

### Estimating fair market value

For purposes of completing Form T1142, there is no requirement to obtain a formal appraisal of the property. An estimate of the fair market value is sufficient. The following sections will help you estimate the fair market value of certain properties.

#### Securities

The fair market value of publicly traded shares may be obtained from public listings of transactions on recognized stock exchanges, investment publications, or from a broker or investment dealer.

For securities in a privately owned business, information may be obtained from a person who is familiar with the business such as an accountant or business valuator.

For more information, see Information Circular 89-3, *Policy Statement on Business Equity Valuations*.

#### Listed personal property and other personal-use-property

The fair market value of these properties may be estimated by consulting with art, coin, jewellery, antique and stamp dealers. You can also refer to catalogues for the value of these objects.

#### Real estate

The fair market value of real estate may be estimated by collecting information on sales of similar properties in the same area around the date you received the property. This information can be obtained from real estate pamphlets, which provide asking prices. If possible you should determine if the property sold and what the actual sale price was. You can also use newspapers which provide the asking price or land-registry or land-title offices.

To support your valuation, you should keep documents containing the following information:

- a brief description of the property, including location, lot, building size, and date and type of construction;
- the cost and date of acquisition;
- the cost of any additions or improvements;
- the property assessment for municipal tax purposes; and
- insurance coverage.

## Section C – Indebtedness to the non-resident trust

This section must be completed if the reporting entity was indebted to the trust at any time during the year. List each debt separately.
