Area III – Net capital loss for carryback

Notes:

- Use this area for applying 2002 net capital losses only (see Chapter 5 of the *Capital Gains* guide for more information).
- You can only apply 2002 net capital losses against taxable capital gains.
- Applying a net capital loss carryback will result in a reduction of the capital gains deduction, if claimed, in the year(s) of the loss application. It may also reduce capital gains deductions you claimed in the following years.
- In 1999, we calculated your net capital losses using an inclusion rate (**IR**) of 3/4. In 2000, we used the **IR** that appears on your *Notice of Assessment* or *Notice of Reassessment* for 2000. For 2001 and the following years, we are using an **IR** of 1/2 to calculate your net capital losses. To apply a 2002 net capital loss against taxable capital gains in 1999, 2000, or 2001, you have to adjust the amount of the 2002 net capital loss to agree with the **IR** for the year to which you apply the loss.
