

Information on the Form T2203, Provincial and Territorial Taxes for 2011 – Multiple Jurisdictions

Provincial or territorial income tax relating to business income is generally payable to the province or territory where the permanent establishment generating that income is located.

There are situations where, at the end of the year, a person resides in a province or territory of Canada, but all or part of the person's business income for the year was earned and can be allocated to a permanent establishment outside that province or territory, or outside Canada. If this is your case, you have to determine the part of your total provincial or territorial tax that is payable to the jurisdiction where you reside and to the other jurisdictions in Canada.

The same rules apply if you were a non-resident of Canada throughout 2011 who carried on business in more than one province or territory in Canada.

Tax and multiple jurisdictions

When tax is payable to multiple jurisdictions, provincial/territorial tax rates are applied to the taxable income from all sources. Non-refundable tax credits and some other tax credits are allowable (with certain restrictions relating to residency) in calculating a "basic provincial/territorial tax." The basic tax is then prorated by applying the percentage of income allocated to that province or territory.

Form T2203 accommodates this calculation for the province or territory of residence and for all jurisdictions where business income was earned. It contains modified versions of Form 428 for all provinces and territories, and the related schedules that you need to calculate your provincial/territorial taxes for 2011.

Form T2203

You will find the following components of Form T2203 in this publication:

Part 1 – Allocating income to multiple jurisdictions (common to all, complete in all cases);

Part 2 – Federal surtax on income you earned outside Canada and refundable Quebec abatement (complete if income is allocated to "Other" or to Quebec);

Part 3 – Non-refundable tax credits (complete the applicable column for each province/territory to which income is allocated for 2011);

Part 4 – Provincial or territorial tax (multiple jurisdictions) (complete for each province/territory to which income is allocated for 2011);

Part 5 – Provincial or territorial tax (common to all, complete to summarize your total provincial or territorial tax).

Additional provincial and territorial credits allowed to residents and non-residents of a province or territory

In addition to the credits included in Part 4 of Form T2203, you may be eligible for certain other tax credits. The chart at the end of this package identifies additional provincial and territorial credits, and the forms that you have to complete to claim them.

Many of these credits are limited to the amount of tax payable to the province or territory; when this amount is required (for example, you are instructed to enter the amount from line 428 of your return or from a line of the regular provincial/territorial Form 428), use the applicable provincial or territorial tax amount from lines 1 to 12 in Part 5 of Form T2203.

Include these credits on line 479 of your return, and attach the completed forms to your return.

For more information, call **1-800-959-8281**.

Provincial and Territorial Taxes for 2011 – Multiple Jurisdictions

Use this form to calculate your provincial and/or territorial taxes for 2011 if **either** of the following applies:

- you resided in a province or territory on December 31, 2011 (or the date you left Canada if you emigrated from Canada in 2011), and all or part of your business income for the year was earned and is allocable to a permanent establishment outside that province or territory, or outside Canada; **or**
- you were a non-resident throughout 2011 carrying on business in more than one province or territory in Canada.

If you have to calculate your provincial and/or territorial tax using Form T2203, **do not complete** Form 428.

Complete and attach to your 2011 tax return only the parts of this form and any related schedules you need to calculate the provincial and/or territorial taxes that apply to you. Read "Additional provincial and territorial credits allowed to residents and non-residents of a province or territory" on the previous page for more information about other credits you can claim on line 479 of your return.

If you have to pay minimum tax, or you are subject to tax on split income, also attach a completed Form T691, *Alternative Minimum Tax*, or Form T1206, *Tax on Split Income – 2011*.

Part 1 – Allocating income to multiple jurisdictions

Enter the total of net income from line 236 of your return and the deduction for split income claimed on line 232 of your return.

Business income earned in the year: Add self-employment income from lines 135 to 143 of your return, and business income from a partnership from line 122 of your return (exclude losses).

Excess income: Line 1 minus line 2 (if negative, enter "0")

If you are a resident of Quebec, you must allocate to Quebec any business income you earned outside Canada in the year.
- In Column 3:** Allocate to your province or territory of residence the amount from line 3, if any.
- In Column 4:** If the amount from line 1 is **equal to or greater** than line 2, add columns 2 and 3.
If the amount on line 1 is **less than** line 2, determine the percentage of income allocation to each jurisdiction in column 2, multiply the amount on line 1 by each percentage, and enter the result in column 4.
- In Column 5:** Determine the percentage for each jurisdiction based on the income you allocated in column 4.
