- Small manufacturing corporations that meet requirements 1 through 4 in Part 1 of this schedule should complete Part 1 only. All other corporations should complete Part 2 except those that only generate electrical energy for sale or produce steam for sale. Corporations that generate electrical energy for sale or produce steam for sale must complete Part 10 on page 4.
- Income that is eligible for the small business deduction is not eligible for the manufacturing and processing profits deduction.
- Sections, subsections, and paragraphs referred to in this schedule are found in the federal *Income Tax Act*.
- Reference: Interpretation Bulletin IT-145R, *Canadian Manufacturing and Processing Profits – Reduced Rate of Corporate Tax*.
- See page 6 for notes and definitions to help you complete this schedule.

Part 1 – Small manufacturing corporations

See notes 1 to 6 on page 6.

To qualify as a small manufacturer, the corporation has to meet all of the following requirements:

1. its activities during the year were primarily manufacturing or processing in Canada of goods for sale or lease;
2. the following calculation totals \$200,000 or less:

active business income minus active business losses of the corporation for the year [this includes the corporation's share of active business income and active business loss for the fiscal period of each partnership of which the corporation was a member at any time in its year (see i) below)]	100 _____
plus	
the active business income for the taxation year of each Canadian corporation with which the corporation was associated in the year (see ii) below)	105 _____
Total	110 _____

3. it was not engaged at any time during the year in the processing of foreign ore or foreign tar sands beyond certain stages as set out in Regulation 5201 (c.1), (c.2), and (c.3), or in any activities that are excluded from manufacturing and processing by items (a) to (l) under the definition of "manufacturing or processing" in subsection 125.1(3); and
4. the corporation did not carry on any active business outside Canada at any time during the year.

If the corporation meets requirements 1 through 4, its Canadian manufacturing and processing profits are equal to line 100 above. Enter this amount on line 200 in Part 9 of this schedule.

If the corporation does not meet requirements 1 through 4, complete Part 2 below.

Partnerships and associated corporations

On a separate sheet of paper attached to this form, please give the following information (if it applies):

- i) for partnerships – give the name, partnership identification number, and total income or loss from each active business carried on by each partnership of which the corporation was a member at any time in its taxation year; and
- ii) for associated corporations – give the name, Business Number, and total income from each active business for the taxation year carried on by each Canadian corporation with which the corporation was associated in the year.

Part 2 – Corporations that do not qualify as small manufacturers

Notes and definitions to help you complete this schedule

1. **Active business**, in relation to any business carried on by a taxpayer resident in Canada, means any business other than a specified investment business or a personal services business.
2. **Active business income of an associated corporation** includes its share of the active business income for the fiscal period of a partnership of which it was a member at any time in the year.
3. **Fiscal period of a partnership** refers to the period coinciding with or ending in the taxation year of the corporation.
4. **Taxation year of an associated corporation** means any taxation year that coincides with or ends in the taxation year of the corporation completing this schedule.
5. **Year** means the taxation year of the corporation completing this schedule.
6. The term **associated** has the meaning given by section 256. See the *T2 Corporation Income Tax Guide* for more information.
7. To determine the cost of capital, exclude from the gross cost or rental cost the part that reflects the extent the property was used during the year by the corporation or the partnership (Regulation 5204):
 - (a) in an active business carried on outside Canada;
 - (b) to earn Canadian or foreign investment income as defined in subsection 129(4) (assuming that the subsection applies also to partnerships);
 - (c) in activities that earn Canadian resource profits as defined in Regulation 5202; or
 - (d) in activities referred to in items (a), (b), or (e) under the definition of "Canadian exploration and development expenses" in subsection 66(15), items (a) or (b) under the definition of "foreign exploration and development expenses" in subsection 66(15), items (a), (c), (f), or (i) under the definition of "Canadian exploration expense" in subsection 66.1(6), or items (a), (c), or (g) under the definition of "Canadian development expense" in subsection 66.2(5).
8. Canadian exploration and development expenses, foreign exploration and development expenses, Canadian exploration expense, and Canadian development expense are defined in subsection 66(15), subsection 66.1(6), and subsection 66.2(5) respectively. The corporation's Canadian or foreign exploration and development expenses include the share of these expenses incurred by a partnership only if the corporation was a member of that partnership at the end of the partnership's fiscal period.
9. Salaries and wages paid or payable to employees or amounts paid or payable to non-employees by a partnership that are included in its Canadian or foreign exploration and development expenses will be excluded from the calculation of the partnership's "Cost of labour" only if these exploration and development expenses can be included in the corporate partner's exploration and development expenses (see note 8 above).
10. Regulation 5203 provides that a corporation's income from the processing of foreign ore be excluded from its net resource income (NRI) for the year. Income from foreign ore processing is generally equal to the resource profits for the year less the sum of Canadian resource profits for the year and the earned depletion base at the beginning of the immediately following taxation year.

11. The following terms are defined in the *Income Tax Regulations*:

Term	Income Tax Regulations
– Gross cost	5202 and 5204
– Net resource income	5203(3)
– Qualified activities	5202
– Rental cost	5202
– Resource activities	5203(2)
– Salaries and wages	5202
– Scientific research and experimental development	2900(1)

12. The percentages of prescribed resource loss to be used in calculating adjusted business income are listed below. If a corporation's taxation year straddles two calendar years, prorate the percentage of prescribed resource loss based on the number of days in each calendar year.

Year	Percentage	Year	Percentage
2003	22.5%	2006	8.75%
2004	18.75%	2007 and later	0%
2005	16.25%
