

Information on Form T3MJ, T3 Provincial and Territorial Taxes for 2006 – Multiple Jurisdictions

Provincial or territorial income tax relating to business income is generally payable to the province or territory where the permanent establishment generating that income is situated.

There are situations where, at the end of the year, a trust resides in a province or territory of Canada, but all or part of the trust's business income for the year was earned and can be allocated to a permanent establishment outside that province or territory, or outside Canada. If this is the case, the trust has to determine the part of its total provincial or territorial tax that is payable to the jurisdiction where it resides and to the other jurisdictions in Canada. In such cases, complete Form T3MJ; **do not** complete the provincial or territorial T3 form applicable to the trust's residency.

The same rules apply if the trust was a non-resident of Canada throughout 2006 and it carried on a business in more than one province or territory in Canada.

Tax and multiple jurisdictions

When tax is payable to multiple jurisdictions, provincial/territorial tax rates are applied to the taxable income from all sources. Certain credits, such as the provincial dividend tax credit, are only allowed if the trust resides in the province. Other credits may be prorated. From this, a "basic provincial/territorial tax" is calculated. The basic tax is then prorated by applying the percentage of income allocated to that province or territory.

Form T3MJ accommodates this calculation for the province or territory of residence and for all jurisdictions where business income was earned.

Form T3MJ

There are four parts to Form T3MJ:

- Part 1 – Allocating income to multiple jurisdictions (common to all, complete in all cases)
- Part 2 – Federal surtax on income the trust earned outside Canada and refundable Quebec abatement (complete if income is allocated to "Other" or to Quebec)
- Part 3 – Provincial and territorial tax (multiple jurisdictions) (complete for each province/territory to which income is allocated)
- Part 4 – Provincial and territorial taxes (common to all, complete to summarize the trust's total provincial or territorial tax)

T3 PROVINCIAL AND TERRITORIAL TAXES FOR 2006 – MULTIPLE JURISDICTIONS

Use this form to calculate the trust's provincial and/or territorial taxes for 2006 if **either** of the following applies:

- the trust resided in a province or territory on December 31, 2006 (use the date the trust left Canada if it ceased residence in 2006), and all or part of the trust's business income for the year was earned and is allocated to a permanent establishment outside that province or territory, or outside Canada; **or**
- the trust was a non-resident throughout 2006 carrying on business in more than one province or territory in Canada.

Complete and attach to the trust's 2006 T3 return, only the parts of this form and any related schedules you need to calculate the provincial/territorial taxes applicable to the trust.

If the trust has to pay minimum tax, attach a completed Schedule 12, *Minimum Tax*.

Note: All references to schedules on this form and its parts are those relating to the T3 Schedules.

Part 1 – Allocating income to multiple jurisdictions

Enter the total net income from line 50 of the trust's T3 return.

Business income earned in the year: Total of the amounts from lines 06 to 09 of the trust's T3 return	–	1
Excess income: line 1 minus line 2. If negative, enter "0".	=	2
		3

Complete the following allocation chart:

In Column 2: Allocate the amount from line 2 to each province and territory where the trust had a permanent establishment in 2006. See Part XXVI of the *Income Tax Regulations* if you need further instructions.

If the trust is a resident of Quebec, it must allocate to Quebec any business income earned outside Canada in the year.

In Column 3: Allocate to the trust's province or territory of residence the amount from line 3, if any.

In Column 4: If the amount from line 1 is **equal** to or **greater** than line 2, add columns 2 and 3.

If the amount on line 1 is **less than** line 2, determine the percentage of income allocated to each jurisdiction in column 2. Then, multiply the amount on line 1 by each percentage, and enter the result in column 4.

In Column 5: Determine the percentage for each jurisdiction based on the income allocated in column 4.

Line 25 – Unused risk capital investment tax credit

The trust can claim the following unused Nunavut tax credits:

- labour-sponsored venture capital corporation tax credit;
- community-endorsed venture capital corporation tax credit; and
- territorial business corporation direct investment tax credit.

The trust may not need to use the entire amount of the unused credit to reduce the territorial tax payable to zero. In this case, it can carry forward the unused amount up to seven years after the year in which the investment was made. If the trust wants to carry an amount forward, attach a letter to the return telling us:

- the amount of the carryforward;
- the year(s) of the original investment; and
- the year(s) to which the trust wants the amount applied.

Enter, on line 25 on the previous page, the amount of the unused risk capital investment tax credit from previous years or \$30,000, whichever is less.
