

Information on Form T3MJ, *T3 Provincial and Territorial Taxes for 2012 – Multiple Jurisdictions*

Provincial or territorial income tax relating to business income is generally payable to the province or territory where the permanent establishment generating that income is situated.

There are situations where, at the end of the year, a trust resides in a province or territory of Canada, but all or part of the trust's business income for the year was earned and is allocated to a permanent establishment outside that province or territory, or outside Canada. If this is the case, the trust has to determine the part of its total provincial or territorial tax that is payable to the jurisdiction where it resides and to the other jurisdictions in Canada. In such cases, complete Form T3MJ, *T3 Provincial and Territorial Taxes for 2012 – Multiple Jurisdictions*; **do not** complete the provincial or territorial T3 form applicable to the trust's residency.

The same rules apply if the trust was a non-resident of Canada throughout 2012 and it carried on a business in more than one province or territory in Canada.

Tax and multiple jurisdictions

When tax is payable to multiple jurisdictions, provincial/territorial tax rates are applied to the taxable income from all sources. Certain credits, such as the provincial dividend tax credit, are only allowed if the trust resides in the province. Other credits may be prorated. From this, a "basic provincial/territorial tax" is calculated. The basic tax is then prorated by applying the percentage of income allocated to that province or territory.

Form T3MJ accommodates this calculation for the province or territory of residence of the trust and for all jurisdictions where business income was earned.

Form T3MJ

There are four parts to Form T3MJ:

- Part 1 – Allocating income to multiple jurisdictions (common to all, complete in all cases).
- Part 2 – Federal surtax on income the trust earned outside Canada, and refundable Quebec abatement (complete if income is allocated to "Other" or to Quebec).
- Part 3 – Provincial and territorial tax (multiple jurisdictions); complete for each province/territory to which income is allocated.
- Part 4 – Provincial and territorial taxes (common to all, complete to summarize the trust's total provincial or territorial tax).

T3 Provincial and Territorial Taxes for 2012 – Multiple Jurisdictions

Use this form to calculate the trust's provincial and/or territorial taxes for 2012 if **either** of the following applies:

- the trust resided in a province or territory on December 31, 2012 (use the date the trust left Canada if it ceased to be a resident in 2012), and all or part of the trust's business income for the year was earned and is allocated to a permanent establishment outside that province or territory, or outside Canada; **or**
- the trust was a non-resident throughout 2012 carrying on business in more than one province or territory in Canada.

Complete and include with the trust's 2012 T3 return, only the parts of this form and any related schedules you need to calculate the provincial/territorial taxes applicable to the trust.

If the trust has to pay minimum tax, complete Schedule 12, *Minimum Tax*, and include it with the trust's return.

Note: All references to returns and schedules on this form and its parts relate to the T3 return and its schedules.

Part 1 – Allocating income to multiple jurisdictions

Enter the total net income from line 50 of the trust's return.

Business income earned in the year (exclude losses):

Total of the amounts from lines 06 to 09 of the trust's return (amount cannot be negative)

Income other than business income: line 1 minus line 2. If negative enter "0".

	1
–	2
=	3

Complete the following allocation chart:

Step 1: In column 2, allocate the amount from line 2 to each province and territory where the trust had a permanent establishment in 2012. See Part XXVI of the *Income Tax Regulations* if you need further instructions. If the trust is a resident of Quebec, it must allocate to Quebec any business income earned outside Canada in the year.

Step 2: In column 3, allocate to the trust's province or territory of residence the amount from line 3, if any.

Step 3: If the amount on line 1 is **equal** to or **greater** than the amount on line 2, go to step 4. If the amount on line 1 is **less** than the amount on line 2, go to step 5.

Step 4: For each jurisdiction, add columns 2 and 3 then enter the result in column 4. To calculate the percentage of income to allocate to each jurisdiction, divide the amount in column 4 by the amount on line 1. Then multiply the result by 100. Enter this amount in column 5, and go to step 6.

Step 5: To calculate the percentage of income to allocate to each jurisdiction, divide the amount in column 2 by the amount on line 2. Then multiply the result by 100. Enter this percentage in column 5. Multiply the amount on line 1 by the percentage of income allocated to each jurisdiction in column 5. Enter the result in column 4, and go to step 6.

Step 6: If the trust has income allocated to Quebec (line 6915) or to Other (line 6923) in column 4, complete the applicable section of Part 2. If the trust has income allocated to other provinces or territories, complete Parts 3 and 4.
