

Have you claimed your Climate Action Incentive payment yet?

Pollution has a cost. It impacts the air we breathe, our children's health, and our economy. That's why the Government of Canada has put a price on carbon pollution.

The Government of Canada has introduced the new climate action incentive payment. In New Brunswick, a family of four could receive \$256 in 2019. You can claim it when you file your Income Tax and Benefit Return.
