Notes:

1. All counts are rounded to the nearest ten and all amounts are rounded to the nearest thousand. The sum of the data may not add to the total due to rounding.
2. Data are from (re)assessed income tax and benefit returns as of November 25 2022 and are subject to change as more returns are (re)assessed.
3. Amounts are as calculated on Schedule 14 - Climate Action Incentive and reported on line 45110.
4. CAI payments for the April 2021-March 2022 fuel charge year (which correspond to the fuel charge applying at a carbon price of \$40 per tonne) were largely claimed during the Spring of 2021 when most individuals filed their 2020 income tax returns. As a result CAI payments for the 2021-22 fuel charge year are associated with and presented as part of 2020 taxation year assessments.
