

Table 11
DTC determination by BADL, 2011-2018

This table presents the DTC determinations of individuals broken down by BADL. For individuals with a determination that contains both accepted and rejected restrictions, only the accepted restrictions are counted. Therefore, the rejected restrictions contained in accepted certificates are not counted. Caution should be exercised when interpreting the acceptance/rejection rate at the BADL level. Please refer to the "DTC determination" description in the "Description of DTC items" section of the explanatory notes for more information.

Notes:

1. All counts are rounded to the nearest ten. The sum of the data may not add to the total, due to rounding.
2. A DTC determination refers to an Agency decision related to a T2201 Disability Tax Credit Certificate application. With respect to this publication, the determination is as of the date of the data compilation, as DTC determinations are subject to change.
3. Data on DTC determinations are as of December 31 of the respective calendar year and are subject to change.
4. Individuals who have had multiple DTC determinations processed during the calendar year are only being counted once.
5. DTC determinations with multiple accepted restrictions linked to their certificate will be counted once for each restriction, while the "Total Unique Determinations" column presents a unique count of DTC determinations. As such, this count will not add up to the sum of restrictions by status.
6. For DTC determinations that contain both accepted and rejected restrictions, only the accepted restrictions are counted.
