Notes:

1. All counts are rounded to the nearest ten. The sum of the data may not add to the total, due to rounding.
2. Data on the number of claimants are as of December 31 of the respective calendar year and are subject to change.
3. Data are from returns processed between January 1 and December 31 of the respective calendar year.
4. (Re)assessments processed during the calendar year that did not result in a change to the DTC amount utilized were not counted in these estimates.
5. Number of claimants benefitting through a tax reduction refers to the number of unique tax filers who claimed the DTC, either for themselves, their spouse or their dependent during the calendar year.
6. The number of claimants benefitting through a tax reduction for each BADL is derived by multiplying both the total "Number of Claimants" and the "Total Amount of DTC Utilized" by the share of accepted DTC determinations by BADL published in Table 11.
