

Table 14
Number of DTC claimants benefitting through a tax reduction by net income range, 2012-2021

This table presents the number of DTC claimants benefitting through a tax reduction, broken down by Net Income Range. The number of claimants benefitting through a tax reduction is derived by multiplying both the total "Number of Claimants" by the share of accepted DTC determinations by BADL published in Table 11. For more information, please refer to the description of "Number of claimants benefitting through a tax reduction" in the "Description of DTC items" section of the explanatory notes.

Notes:

1. All counts are rounded to the nearest ten. The sum of the data may not add to the total, due to rounding.
2. Data on the number of claimants are as of December 31 of the respective calendar year and are subject to change.
3. Data are from returns processed between January 1 and December 31 of the respective calendar year.
4. (Re)assessments processed during the calendar year that did not result in a change to the DTC amount utilized were not counted in these estimates.
5. Number of claimants benefitting through a tax reduction refers to the number of unique tax filers who claimed the DTC, either for themselves, their spouse or their dependent during the calendar year.
6. Net income ranges are derived using line 23600 from the claimant T1 tax forms.
7. Net income ranges are presented in current dollars and any comparisons over time should be made with caution.
