Notes:

1. All counts are rounded to the nearest ten. The sum of the data may not add to the total due to rounding.

2. A zero (0) indicates that the information has been suppressed for confidentiality purposes. Suppressed information also includes valid zeroes.

3. If a tax filer or their spouse or common-law partner carried on a business in 2022 (other than a business whose expenditures are primarily in connection with a tax shelter), then their return is classified as a self-employed return. A return other than a self-employed return is classified as an employee return.
