

# What income do I report on my taxes?

When you do your taxes you need to report all types of income. Here are some examples:

## Report it

I work a part-time job.

I receive money through stocks.

I make a little extra cash walking dogs.

I receive social assistance payments.

I earn income driving for a ride-share service.

## Don't report it

I won some lottery money.

I was given money for my birthday.

I get GST/HST credit and Canada child benefit payments.

### What if I didn't have any income this year?

You should still do your taxes to take advantage of any eligible credits and benefits!
