COVID-19 vaccines

DEBUNKING THE **MYTHS**

VACCINE **MYTH**	VACCINE **FACT**
The vaccines were rushed and they aren't safe	Vaccines approved by Health Canada are **backed by data** demonstrating their **safety**, **efficacy** and **quality**
The vaccines can give you COVID-19	The vaccines **cannot give you COVID-19**; they do not contain a live virus strain
The vaccines contain egg proteins	The vaccines **don't contain egg proteins** and can be given to people with egg allergies
The vaccines cause severe side effects	The vaccines are all safe. Most **side effects are mild** and will resolve within a few days on their own
The vaccines can make women infertile	There is **no evidence** that the vaccines cause infertility
