Subsection 5.3(4) and section 10 of the Regulations set out exports that require the exporter to hold a valid export permit issued under the Regulations. A copy of the permit must be included with these exports in addition to the labelling and safety data sheet prescribed by sections 21 and 22 of the Regulations.

The regulations require notification to be provided at least 15 days (at least 7 days if the person holds a permit to export the substance issued under paragraph 185(1)(b) of the Act) prior to all exports as per section 5 of the Regulations, including exports requiring a permit.

**Part 6: Declaration**

I understand that I, as the exporter, assume full responsibility for the removal of the substance from the country of destination and any related costs, including the transportation, care, control and storage of the substance, in the event that the exported substance is in contravention of any conditions set out in the export permit or if the export takes place after the export permit has expired or has been cancelled.

I declare that the information provided in this application is accurate and complete. I understand that information in this application may be released to the country of destination.
