

**Department of the Environment**  
*Canadian Environmental Protection Act, 1999*

Notice is hereby given that the Minister of the Environment, pursuant to section 127 of the *Canadian Environmental Protection Act, 1999* (CEPA), is renewing for the second time disposal at sea permit no. 4353-2-03729, authorizing the loading for disposal and the disposal of waste or other matter at sea, under permit no. 4353-2-03729-02. The renewal is published in the Canadian Environmental Protection Act Registry on Tuesday, September 28, 2021. All documents referenced in this permit are available upon request by email at [immersionpy-disposalatseapyr@ec.gc.ca](mailto:immersionpy-disposalatseapyr@ec.gc.ca).

1. Permittee: Fraser River Pile & Dredge (GP) Inc., New Westminster, British Columbia.
2. Waste or other matter to be disposed of: dredged material.
  - 2.1. Nature of waste or other matter: dredged material consisting of rock, gravel, sand, silt, clay, and wood waste or material typical to the approved loading site, except logs and usable wood.
    - a. The percent volume of wood waste in the dredge material must be visually estimated at the time of dredging and must be included in the disposal tracking sheet included in the Material Management Plan identified in paragraph 4a and in the written report identified in paragraph 13.4
    - b. The permittee must prevent the deposition of log bundling strand into waste or other matter approved for loading and disposal at sea and / or remove log bundling strand from waste or other matter approved for loading and disposal at sea
3. Duration of permit: The permit is valid from October 10, 2021, to October 9, 2022.
4. Reference documents:
  - a. Material Management Plan (July 2021), as submitted in support of the permit application
  - b. Figure 1 of the document titled “4543-2-03729-02 Richmond Plywood-ECCC DAS App Submittal 2021-06-16.pdf” (June 2021), as submitted in support of the permit application
5. Loading site: Richmond Plywood, Richmond, British Columbia, at approximately 49.20205° N, 123.07055° W North American Datum of 1983 (NAD83), as described in Figure 1 identified in paragraph 4b.
6. Disposal site: Point Grey disposal site, within a 1-nautical-mile radius of 49.25666° N, 123.36500° W (NAD83)

7. Method of loading: Loading will be carried out using a barge-mounted excavator or a clamshell dredge.
8. Route to disposal site and method of transport: most direct navigational route from the loading site to the disposal site via hopper scow/barge or flat scow/barge.
9. Method of disposal: Disposal will be carried out by bottom dumping or end dumping.
10. Total quantity to be disposed of: not to exceed 12 000 cubic metres, place measure.
  - 10.1. The procedures to measure or estimate quantities of dredged material disposed of at the disposal site must be included in the Material Management Plan required by paragraph 14.1 prior to the commencement of the first dredging operation to be conducted under this permit.
11. Fees: The fee prescribed by the *Disposal at Sea Permit Fee Regulations* must be paid by the permittee in accordance with those regulations as modified according to the provisions of the *Service Fees Act*. The applicable fee rates for April 1, 2021, are in effect for the duration of this permit.
12. Inspection:
  - 12.1. Pursuant to Part 10 of CEPA, the permittee and its contractors are subject to inspection by enforcement officers designated under CEPA.
  - 12.2. At all times, a paper or digital copy of this permit and of documents referenced in paragraph 4 must be available at the loading site and on all powered ships directly engaged in the loading and disposal operations. The documents must be accessible to enforcement officers designated under CEPA.
  - 12.3. The permittee must retain records of all loading and disposal activities at its principal place of business in Canada for the duration of the permit and for 5 years following the expiry of the permit.
  - 12.4. The loading or disposal at sea referred to under this permit must not be carried out by any person without written authorization from the permittee. The authorization must be accessible to enforcement officers designated under CEPA.
13. Reporting and notification:
  - 13.1. The permittee must provide the following information at least 48 hours before loading and disposal activities commence: name or number of ship, platform or structure used to carry out the loading and/or disposal, name of the contractor including corporate and on-site contact information, and expected period of loading and disposal activities. The above-noted information must be submitted to the following:

For the Department of the Environment:

Environmental Protection Operations Directorate  
Department of the Environment  
Pacific and Yukon Region  
101–401 Burrard St  
Vancouver BC V6C 3R2

Email: [immersionpy-disposalatseapyr@ec.gc.ca](mailto:immersionpy-disposalatseapyr@ec.gc.ca)

For the representatives of potentially affected First Nations:

a. Musqueam Indian Band  
6735 Salish Dr  
Vancouver BC V6N 4C4

Email: [engage@musqueam.bc.ca](mailto:engage@musqueam.bc.ca)

b. Tsleil-Waututh Nation  
3178 Alder Crt  
North Vancouver BC V7H 2V6

Email: [referrals@twnation.ca](mailto:referrals@twnation.ca)

13.2. The permittee must send all project-related notifications to First Nations identified in paragraph 13.1.

13.3 The permittee must provide the First Nations representative identified in paragraph 13.1 at least 48 notice of the work itinerary. The permittee must also provide the identified First Nations at least 10 calendar days' written notice of the opportunity to be present during all pre-dredge, dredge and post-dredge monitoring conducted under the terms of this permit.

13.4. The permittee must submit a written report to the minister, as represented by the regional director of the Environmental Protection Operations Directorate, Pacific and Yukon Region, within 30 days after the expiry of the permit. This report must contain the following information: a list of all work completed pursuant to the permit, including the location of the loading and disposal sites used, the quantity of matter disposed of at the disposal site, and the dates on which disposal activities occurred. The report must be sent to the regional director at any of the following coordinates:

Regional Director  
c/o Michael Buckland-Nicks  
Environmental Protection Operations Directorate  
Pacific and Yukon Region  
101–401 Burrard St  
Vancouver BC V6C 3R2

Email: [immersionpy-disposalatseapyr@ec.gc.ca](mailto:immersionpy-disposalatseapyr@ec.gc.ca)

14. Special precautions:

14.1. The permittee must carry out project activities authorized by this permit in accordance with all procedures and mitigation measures outlined in the Material Management Plan referenced in paragraph 4a.

14.2. The permittee must consult with potentially affected First Nations listed in paragraph 13.1 on any modifications to the Material Management Plan.

14.3. The permittee must ensure that dredging, transportation and disposal activities do not impede Fisheries and Oceans Canada's authorized food, social and ceremonial fisheries for Indigenous Peoples.

On behalf of the Minister of Environment and Climate Change

Saul Schneider  
Regional Director  
Environmental Protection Operations Directorate  
Pacific and Yukon Region

Signed on September 10, 2021
