6. Method of loading: dredging will be carried out using a barge-mounted mechanical dredge.

7. Route to disposal site(s) and method of transport: most direct navigational route from the loading site to the disposal site via dump scow.

8. Method of disposal: disposal will be carried out by dump scow.

9. Total quantity to be disposed of: not to exceed 45 000 cubic metres, place measure.

9.1. The permittee shall submit the procedures to measure or estimate quantities of dredged material disposed of at the disposal site(s) to Ms. Natasha Boyd, as identified in paragraph 13.1.a. The Department of the Environment shall approve the procedures prior to the commencement of the first dredging operation to be conducted under this permit.

10. Fees: the fee prescribed by the Disposal at Sea Permit Fee Regulations shall be paid by the permittee in accordance with those regulations.

11. Inspection:

11.1. By accepting this permit, the permittee and its contractors accept that they are subject to inspection pursuant to Part 10 of CEPA.

12. Contractors:

12.1. The loading or disposal at sea referred to under this permit shall not be carried out by any person without written authorization from the permittee.

12.2. The permittee shall ensure that all persons involved in the loading, transport or disposal activities authorized by this permit conduct these activities in accordance with the relevant permit conditions.

13. Reporting and notification:

13.1. The permittee shall provide the following information no later than 48 hours before loading and disposal activities commence: name of the contractor, including corporate and on-site contact information; and expected period of loading and disposal activities. The above-noted information shall be submitted to
