

**Department of the Environment**  
*Canadian Environmental Protection Act, 1999*

Notice is hereby given that the Minister of the Environment, pursuant to section 127 of the *Canadian Environmental Protection Act, 1999* (CEPA), is issuing disposal at sea permit no. ATL-00200-1, authorizing the loading for disposal and the disposal of waste or other matter at sea. The permit is published in the Canadian Environmental Protection Act Registry on Tuesday, December 14, 2021. All documents referenced in this permit are available upon request by email at [immersionatl-disposalatseaatl@ec.gc.ca](mailto:immersionatl-disposalatseaatl@ec.gc.ca).

1. Permittee: Fisheries and Oceans Canada, Moncton, New Brunswick.
2. Waste or other matter to be disposed of: dredged material.
  - 2.1. Nature of waste or other matter: dredged material consisting of gravel, sand, silt, clay and seaweed.
3. Duration of permit: The permit is valid from January 1, 2022, to December 31, 2022.
  - 3.1. The loading and disposal at sea activities for Pointe-Sapin Site B (CA-AT-D199) disposal site are restricted to the following period: from January 1, 2022, to March 31, 2022.
4. Reference document:
  - a. map titled "Site Plan: Pointe Sapin" (September 9, 2021)
5. Loading site:
  - a. Pointe-Sapin, New Brunswick, at approximately 46.96049° N, 64.83050° W North American Datum of 1983 (NAD83), as described in the map identified in paragraph 4a.
6. Disposal sites:
  - a. Pointe-Sapin, Site A (CA-AT-D115), New Brunswick, within a 200-square-metre boundary of 46.95794° N, 64.83431° W (NAD83)
  - b. Pointe-Sapin, Site B (CA-AT-D199), New Brunswick, bound by 46.95904° N, 64.83740° W; 46.95850° N, 64.83641° W; 46.95690° N, 64.838791° W; and 46.95760° N, 64.83970° W (NAD83)

The disposal sites are as described in the map identified in paragraph 4a.

7. Method of loading: Dredging will be carried out using a mechanical dredge or a suction dredge.

8. Route to disposal sites and method of transport:

- a. Pointe-Sapin, Site A (CA-AT-D115): most direct navigational route from the loading site to the disposal site via pipeline
- b. Pointe-Sapin, Site B (CA-AT-D199): most direct navigational route from the loading site to the disposal site via land-based heavy equipment, as described in the map identified in paragraph 4a

9. Method of disposal: Disposal will be carried out by pipeline or land-based heavy equipment, as described in the map identified in paragraph 4a.

10. Total quantity to be disposed of:

- a. Pointe Sapin Site A (CA-AT-D115): not to exceed 30 000 cubic metres, place measure
- b. Pointe-Sapin Site B (CA-AT-D199): not to exceed 30 000 cubic metres, place measure

11. Fees: The fee prescribed by the *Disposal at Sea Permit Fee Regulations* must be paid by the permittee in accordance with those regulations as modified according to the provisions of the *Service Fees Act*. The applicable fee rates for April 1, 2021, are in effect for the duration of this permit.

12. Inspection and records:

12.1. Pursuant to Part 10 of CEPA, the permittee and its contractors are subject to inspection by enforcement officers designated under CEPA.

12.2. The permittee must keep records of all loading and disposal activities aboard any ship involved with the disposal operations. The records must be accessible to enforcement officers designated under CEPA.

12.3. At all times, a paper or digital copy of this permit and the document referenced in paragraphs 4a and 14.1 must be available at the loading site and on all powered equipment directly engaged in the loading and disposal operations. The documents must be accessible to enforcement officers designated under CEPA for the duration of this permit.

12.4. The permittee must retain records of all loading and disposal activities at its principal place of business in Canada for the duration of the permit and for 5 years following the expiry of the permit.

12.5. The loading or disposal at sea referred to under this permit must not be carried out by any person without written authorization from the permittee. The authorization must be accessible to enforcement officers designated under CEPA.

13. Reporting and notification:

13.1. The permittee must provide the following information at least 48 hours before loading and disposal activities commence: name or identification number of powered vessels or heavy equipment to be used to carry out the loading and/or disposal, name of the contractor including corporate and on-site contact information, and expected period of loading and disposal activities. The above-noted information must be submitted to:

13.2. The permittee must notify the Canadian Coast Guard Marine Communications and Traffic Services (MCTS) in Sydney ([navwarn.mctssydney@innav.gc.ca](mailto:navwarn.mctssydney@innav.gc.ca)) in advance of the commencement of work so that appropriate navigational warnings may be issued.

13.3. The permittee must submit a written report to the minister, as represented by the regional director of the Environmental Protection Operations Directorate, Atlantic Region, care of Natasha Boyd, as identified in paragraph 13.1 a, within 30 days after the expiry of the permit. This report must provide the quantity of matter disposed of at the disposal sites and the dates on which disposal activities occurred.

14. Plans to be submitted to the Department of the Environment before the commencement of the work:

14.1. The permittee must submit a written Dredged Material Disposal Plan (DMDP) outlining procedures to accurately measure or estimate quantities of dredged material disposed of at the disposal sites, a detailed description of the loading and disposal activities, a schedule for use of the disposal sites, and spill prevention and response measures. The plan must also include mitigation measures relating to birds and bird habitat. The plan must be submitted to the minister, as represented by the regional director of the Environmental Protection Operations Directorate, Atlantic Region, care of Natasha Boyd, as identified in paragraph 13.1a, no later than 7 days before loading and disposal activities authorized by this permit commence. Modifications to the DMDP must be made in writing to the Department of the Environment.

15. Special precautions:

15.1. The permittee must carry out project activities authorized by this permit in accordance with all procedures and mitigation measures outlined in the DMDP referenced in paragraph 14.1.

On behalf of the Minister of Environment and Climate Change

Mona Sidarous  
Regional Director  
Environmental Protection Operations Directorate  
Atlantic Region

Signed on December 6, 2021
