

Department of the Environment
Canadian Environmental Protection Act, 1999

Notice is hereby given that the Minister of the Environment, pursuant to subsection 129(3) of the *Canadian Environmental Protection Act, 1999* (CEPA), is varying the conditions of disposal at sea permit no. PYR-00567-1 as outlined below. The varied conditions are published in the Canadian Environmental Protection Act Registry on Tuesday, August 25, 2026.

7. Method of loading: Loading will be carried out using a cutter suction dredge, a suction dredge, a trailing suction hopper dredge, land-based heavy equipment, a barge-mounted mechanical dredge, a barge-mounted excavator, a clamshell dredge and/or a crane equipped with a clamshell dredge.

8. Route to disposal site and method of transport: most direct navigational route from the loading site to the disposal site via hopper scow/barge, barge-mounted excavator, barge-mounted mechanical dredge, clamshell dredge, crane equipped with a clamshell dredge and/or flat scow/barge. As described in the drawing “Figure 2. Route to Disposal Site” (January 2026), included in the document identified in paragraph 4 and submitted in support of the permit application.

On behalf of the Minister of Environment and Climate Change

Gevan Mattu
Regional Director
Environmental Protection Operations Directorate
Pacific and Yukon Region

Signed on August 4, 2026
