

Department of the Environment
Canadian Environmental Protection Act, 1999

Notice is hereby given that the Minister of the Environment, pursuant to subsection 129(3) of the *Canadian Environmental Protection Act, 1999* (CEPA), is varying the conditions of disposal at sea permit no. QUE-00666-1 as outlined below. The varied conditions are published in the Canadian Environmental Protection Act Registry on Tuesday, October 20, 2026.

7. Method of loading: Dredging will be carried out using a trailing suction hopper dredge and/or a barge mounted mechanical dredge with hydraulic shovel. Leveling of the seabed will be carried out by means of a steel beam, scraper blade, or hydraulic shovel.

8. Route to disposal sites and method of transport: most direct navigational route from the loading sites to the disposal sites via trailing suction hopper dredge and/or a tug and a towed split-hull barge.

9. Method of disposal: Disposal will be carried out by bottom dumping, directly from the ship, and/or vessel towed split-hull barge.

On behalf of the Minister of Environment and Climate Change

Éric Vachon
Regional Director
Environmental Protection Operations Directorate
Eastern and Central Region

Signed on October 7, 2026
