

FUTURE-ORIENTED STATEMENT OF OPERATIONS

2021-2022

Environment and Climate Change Canada

FUTURE-ORIENTED STATEMENT OF OPERATIONS (Unaudited)

For the year ending March 31 (in thousands of dollars)	Forecast Results 2020-21	Planned Results 2021-22
Expenses		
Taking Action on Clean Growth and Climate Change	\$ 793,821	\$ 542,902
Preventing and Managing Pollution	434,791	396,192
Conserving Nature	344,419	343,900
Predicting Weather and Environmental Conditions	293,914	292,087
Internal Services	240,431	236,455
Total Expenses	2,107,376	1,811,536
Revenues		
Sales of goods and services	79,204	74,117
Other revenues	30,661	28,589
Revenues earned on behalf of Government	(10,390)	(10,705)
Total Revenues	99,475	92,001
Net cost of operations before government funding and transfers	\$ 2,007,901	\$ 1,719,535

The accompanying notes form an integral part of the Future-Oriented Statement of Operations.

This page is left intentionally blank.

NOTES TO THE FUTURE-ORIENTED STATEMENT OF OPERATIONS (Unaudited)

1. Methodology and Significant Assumptions

The Future-Oriented Statement of Operations has been prepared on the basis of government priorities and departmental plans as described in the Departmental Plan.

The information in the forecast results for fiscal year 2020-21 is based on actual results as at December 31, 2020 and on forecasts for the remainder of the fiscal year. Forecasts have been made for the planned results for fiscal year 2021-22 .

The main assumptions underlying the forecasts are as follows:

- (a) The department's activities will remain substantially the same as in the previous year;
- (b) 2020-21 estimated expenses and revenues, including the determination of amounts internal and external to the government, are based on historical data and trends, up-to-date Annual Reference Level Update (ARLU) information, supplementary estimates, government wide initiatives and carry-forward funding. The general historical pattern is expected to continue;
- (c) 2021-22 planned expenses and revenues, including the determination of amounts internal and external to the government, are based on historical data and trends and up-to-date Annual Reference Level Update (ARLU) information. Figures for the planned results do not include items such as carry-forward funding. The general historical pattern is expected to continue; and
- (d) Estimated year end information for 2020-21 is used as the opening position for the 2021-22 forecasts.

These assumptions are made as at December 31, 2020.

2. Variations and Changes to the Forecast Financial Information

Although every attempt has been made to forecast final results for the remainder of 2020-21 and for 2021-22, actual results achieved for both years are likely to differ from the forecast information presented, and this variation could be material.

In preparing this Future-Oriented Statement of Operations, Environment and Climate Change Canada has made estimates and assumptions about the future. These estimates and assumptions may differ from the subsequent actual results. Estimates and assumptions are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances, and are continually evaluated.

Factors that could lead to material differences between the Future-Oriented Statement of Operations and the historical statement of operations include:

- (a) the timing and the amount of acquisitions and disposals of property, plant and equipment, which may affect gains, losses and amortization expense;
- (b) the implementation of new collective agreements;
- (c) economic conditions, which may affect both the amount of revenue earned and the collectability of loan receivables;
- (d) interest rates in effect at the time of issue, which will affect the net present value of non-interest-bearing loans; and
- (e) other changes to the operating budget, such as new initiatives or technical adjustments later in the fiscal year.

After the Departmental Plan is tabled in Parliament, Environment and Climate Change Canada will not be updating the forecasts for any changes in financial resources made in ensuing supplementary estimates. Variances will be explained in the Departmental Results Report.

NOTES TO THE FUTURE-ORIENTED STATEMENT OF OPERATIONS (Unaudited)

3. Summary of Significant Accounting Policies

The Future-Oriented Statement of Operations has been prepared using Government of Canada's accounting policies in effect for fiscal year 2020-21, and is based on Canadian public sector accounting standards. The presentation and results using the stated accounting policies do not result in any significant differences from Canadian public sector accounting standards.

Significant accounting policies are as follows:

(a) Expenses

Transfer payments are recorded as an expense in the year the transfer is authorized, and all eligibility criteria have been met by the recipient.

Other expenses are generally recorded when goods are received or services are rendered and include expenses related to personnel, professional and special services, repair and maintenance, utilities, materials and supplies, as well as amortization of tangible capital assets. Provisions to reflect changes in the value of assets or liabilities, such as provisions for bad debts, loans, investments and advances and inventory obsolescence, as well as utilization of inventories and prepaid expenses, and other are also included in other expenses.

(b) Revenues

Revenues from regulatory fees are recognized based on the services provided in the fiscal year.

Funds received from external parties for specified purposes are recorded upon receipt as deferred revenue. These revenues are recognized in the period in which the related expenses are incurred.

Deferred revenue consists of amounts received in advance of the delivery of goods and rendering of services that will be recognized as revenue in a subsequent fiscal year as it is earned.

The compensations for excess emissions provided for under the Greenhouse Gas Pollution Pricing Act are recognized upon confirmation by the registered facility that the compensation is to be provided by means of an excess emissions charge payment to Her Majesty in right of Canada.

Other revenues are recognized in the period the event giving rise to the revenues occurred.

Revenues that are non-responsible are not available to discharge the department's liabilities. Although the deputy head is expected to maintain accounting control, he or she has no authority over the disposition of non-responsible revenues. As a result, non responsible revenues are earned on behalf of the Government of Canada and are therefore presented as a reduction of the department's gross revenues.

NOTES TO THE FUTURE-ORIENTED STATEMENT OF OPERATIONS (Unaudited)

4. Parliamentary Authorities

The Department is financed by the Government of Canada through parliamentary authorities. Financial reporting of authorities provided to the department differs from financial reporting according to generally accepted accounting principles because authorities are based mainly on cash flow requirements. Items recognized in the Future-Oriented Statement of Operations in one year may be funded through parliamentary authorities in prior, current or future years. Accordingly, the department has different net cost of operations for the year on a government funding basis than on an accrual accounting basis. The differences are reconciled in the following tables:

(a) Reconciliation of net cost of operations to requested authorities:

(in thousands of dollars)	Forecast Results 2020-21	Planned Results 2021-22
Net cost of operations before government funding and transfers	\$ 2,007,901	\$ 1,719,535
Adjustment for items affecting net cost of operations but not affecting authorities:		
Amortization of tangible capital assets	(47,662)	(52,466)
Services provided without charge by other government departments	(99,443)	(99,815)
Refunds/adjustments to previous years' expenses	3,937	3,655
Decrease (increase) in accrued liabilities not charged to authorities	5,238	4,844
Decrease (increase) in vacation pay and compensatory leave	(4,365)	(2,368)
Decrease (increase) in employee future benefits	2,276	1,612
Decrease (increase) in environmental liabilities	3,500	19,000
Total items affecting net cost of operations but not affecting authorities	(136,519)	(125,538)
Adjustment for items not affecting net cost of operations but affecting authorities:		
Acquisition of tangible capital assets	96,191	104,521
Decrease in lease obligations for tangible capital assets	886	936
Increase (decrease) in inventory	(563)	(307)
Total items not affecting net cost of operations but affecting authorities	96,514	105,150
Requested authorities forecasted to be used	\$ 1,967,896	\$ 1,699,147

NOTES TO THE FUTURE-ORIENTED STATEMENT OF OPERATIONS (Unaudited)

4. Parliamentary Authorities (continued)

(b) Authorities provided/requested:

(in thousands of dollars)	Forecast Results for 2020-21	Planned Results for 2021-22
Authorities requested		
Vote 1 - Operating expenditures	\$ 886,816	\$ 874,087
Vote 5 - Capital expenditures	96,191	104,521
Vote 10 - Grants & Contributions	768,449	623,678
Statutory amounts	216,440	96,861
Total authorities provided/requested	\$ 1,967,896	\$ 1,699,147

Requested authorities for the year ending March 31, 2022 are the planned spending amounts presented in the 2021-22 Departmental Plan. Requested authorities for the year ending March 31, 2021 include amounts presented in the 2020-21 Main Estimates, Supplementary Estimates (B) and government wide initiatives as well as carry-forward funding.
