

# Renewable Fuels Regulation

## Next Steps

*Meeting of Industry Technical Advisory Group  
May 22, 2009*

# Next Steps for Advisory Group

---

- Next 2 weeks:
  - Advisory Group members to review text of Working Document for Consultation
  - You are encouraged to contact Environment Canada staff if you have any questions
    - We intend to distribute questions and responses (if not confidential) to all members
- Early June (*decide on date today*):
  - Two-day meeting to provide comments on text to Environment Canada staff
  - Written comments in advance would be helpful
- By end of June :
  - Submit final written comments to Environment Canada
  - Intent is to distribute these to all members

# Steps after Advisory Group ends

---

- EC reviews comments from Advisory Group members
  - Analysis, decisions, changes to concept text as needed
- EC prepares final drafting instructions and submits to Justice Canada
- Justice Canada drafts proposed regulations
- Minister of Environment submits regulatory package to Treasury Board for consideration for pre-publication
- Proposed regulations published for comment in *Canada Gazette*, Part I (December)
  - 60-day comment period
- EC reviews comments
  - Analysis, decisions, changes to proposed regulations as needed
- Minister of Environment submits regulatory package to Treasury Board for consideration for final publication
- Final regulations published in *Canada Gazette*, Part II (June 2010)

# Contact on the Regulation

---

- One-window contact for informal questions and comments on the details of the Regulation during the consultation period:
- Bruce McEwen
  - Oil, Gas & Alternative Energy Division, Environment Canada
  - 819-953-4581
  - [Bruce.McEwen@ec.gc.ca](mailto:Bruce.McEwen@ec.gc.ca)
