VOLUNTARY INFORMATION

In addition to the type of information requested in the mandatory section 71 notice (entitled *Notice with respect to certain cobalt-containing substances*), interested stakeholders are encouraged to provide any additional information on the substances described in the Cobalt-Containing Substances Group, to help inform the risk assessment process. Organizations that may be interested in submitting additional information include those that manufacture, import, export or use a substance, whether alone, in a mixture, in a product, or in a manufactured item.

Examples of the type of information that could help inform the risk assessment process include, but are not limited to:

- Analogues or alternatives for these substances;
- Quantities of the substances manufactured, imported, used, and/or exported per calendar year, for the last 5 years;
- Customer contact information;
- Supplier information (name, location and contact information);
- Environmental releases; and
- Waste management information.

This information will help the Government of Canada improve decision making for these substances and ensure all activities are considered before moving forward with further actions regarding these substances.
