

Your Financial Tool Kit

Developed by the Financial Consumer Agency of Canada, the Investor Education Fund and l'Autorité des marchés financiers

Budgeting to reach my goals

Choose one of your goals. Enter the cost. (If you already have some money saved for the goal, enter the amount you still need to save.) Enter how much time you have to save for it. Divide the savings amount by the time to see how much you need to save each month. If you wish, enter more than one goal, and add up the total amount you will need to save each month to reach them all.

Goal	Cost	Timeframe (months)	Monthly savings
