For the fiscal year ending March 31, 2023, the department's expenditure report of $3,276,700,000 is presented.

The expenditure report is based on the financial statements of the Department of Finance Canada.

The expenditure report includes all expenses incurred during the fiscal year, including salaries, supplies, travel, and other services.

The expenditure report also provides a breakdown of the various expense categories, such as personnel costs, operating expenses, and capital expenditures.

The department's expenditure report is an important tool for stakeholders to evaluate the department's performance and accountability.

The report is intended to provide transparency and accountability to the public and to ensure that the department's resources are used in an efficient and effective manner.

The department's expenditure report is available for public scrutiny and can be accessed on the department's website.
The following is a summary of the document:

**GDP Growth**:
- 2023 GDP growth is expected to be around 2%, which is lower than the 4% growth anticipated in the previous year. For the G7 countries, GDP growth is expected to be slower, with projections ranging from 1.5% to 2.5%.

**Inflation**:
- Inflation rates are expected to remain low, with projections for 2023 ranging from 2% to 3% for the G7 countries. This is lower than the 4% inflation rate that was reported in 2022.

**Exchange Rates**:
- The Canadian dollar is expected to appreciate against the US dollar, with a forecasted exchange rate of 1.30 CAD/USD for 2023.

**Interest Rates**:
- Central banks are expected to keep interest rates low, with projections for the Canadian interest rate at 1% for 2023.

**International Trade**:
- Trade volumes are expected to grow, with a forecasted trade volume of $1.2 trillion for 2023.

**Energy**:
- The energy sector is expected to remain strong, with a forecasted growth of 5% for 2023.

**Conclusion**:
- Overall, the economic outlook for 2023 is positive, with growth expected to be steady and inflation to remain low. However, there are some risks to this outlook, including the potential for political instability and the impact of the ongoing pandemic.
