Preface

The *Fiscal Reference Tables* provide annual data on the financial position of the federal, provincial-territorial and local governments. The data are presented on both a Public Accounts basis—corresponding to the accounting conventions used to report financial information to the respective legislatures—as well as on a National Accounts basis—as prepared by Statistics Canada and the International Monetary Fund.

Where applicable, the *Fiscal Reference Tables* also incorporate recent Statistics Canada National Accounts revisions.

For information or clarification, please contact Bradley.Recker@fin.gc.ca.

Table of Contents

Federal Government—Public Accounts

1	Fiscal transactions (millions of dollars)	9
2	Fiscal transactions (per cent of GDP)	10
3	Revenues (millions of dollars)	11
4	Revenues (per cent of GDP)	12
5	Revenues (per cent of total)	13
6	Other taxes and duties	14
7	Expenses (millions of dollars)	15
8	Expenses (per cent of GDP)	16
9	Expenses (per cent of total)	17
10	Major transfers to persons	18
11	Major transfers to other levels of government	19
12	Direct program expenses	20
13	Public debt charges	21
14	Interest-bearing debt	22
15	Total liabilities, net debt and the accumulated deficit	23
16	Unmatured debt held by outside parties	24
17	Actual, cyclically adjusted and cyclically adjusted primary budget balances	25

Provincial and Territorial Governments—Public Accounts

18	Newfoundland and Labrador	29
19	Prince Edward Island	29
20	Nova Scotia	30
21	New Brunswick	30
22	Quebec	31
23	Ontario	31
24	Manitoba	32
25	Saskatchewan	32
26	Alberta	33
27	British Columbia	34
28	Yukon Territory	35
29	Northwest Territories	36
30	Nunavut	37
31	All provinces and territories (millions of dollars)	38
32	All provinces and territories (per cent of GDP)	38

National Accounts

33 Total government revenue	40
34 Total government expense	41
35 Total government saving and capital and financial account	42
36 Federal government revenue	43
37 Federal government expense	44
38 Federal government saving and capital and financial account	45
39 Provincial and territorial government revenue	46
40 Provincial and territorial government expense	47
41 Provincial and territorial government saving and capital and financial account	48
42 Local government revenue	49
43 Local government expense	50
44 Local government saving and capital and financial account	51
45 Total Canada Pension Plan and Québec Pension Plan	52
46 Total government actual, cyclically adjusted and cyclically adjusted primary budgetary balances	53
47 Federal government liabilities and assets	54
48 Provincial, local and Aboriginal governments' liabilities and assets	55
49 Social security funds	56
50 Total government liabilities and assets	57

International Fiscal Comparisons

51 G-7 general government total tax and non-tax receipts	59
52 G-7 general government total outlays	60
53 G-7 general government financial balances	61
54 G-7 general government net financial liabilities	62
55 G-7 general government gross financial liabilities	63

Due to a break in the series following the introduction of full accrual accounting, data from 1983-84 onward are not directly comparable with earlier years.

⁽¹⁾ In 2019-20, the government began presenting actuarial gains and losses related to public sector pensions and other employee and veteran future benefits as a separate category of expenses titled "Net actuarial losses". Fiscal results for 2008-09 to 2018-19 have been reclassified to reflect this change.

⁽²⁾ In 2017-18, the government implemented, on a retroactive basis, a change in its methodology for the determination of the discount rate for unfunded future benefits. Fiscal results for 2008-09 to 2016-17 have been restated to reflect this change. The government recorded an increase of \$875 million to the opening balance of the 2008-09 accumulated deficit to reflect the cumulative retroactive impact of this accounting change on the fiscal results of years prior to 2008-09.

⁽³⁾ In 2011-12, the accumulated deficit increased by \$3,337 million due to one-time adjustments related to enterprise Crown corporations' and other government business enterprises' transition from Canadian Generally Accepted Accounting Principles to International Financial Reporting Standards. In addition, the opening balance of the accumulated deficit in 2011-12 increased by \$1,341 million to reflect the retroactive impact of a change in the government's approach for accounting for accumulated sick leave entitlements in 2012-13.

⁽⁴⁾ The opening balance of the accumulated deficit in 2012-13 has been adjusted to reflect the retroactive impact of changes made in 2013-14 in the accounting for unamortized premiums and discounts arising on the buy-back of bonds (\$5,669 million increase in the accumulated deficit), and in the accounting for loans expected to be repaid through future appropriations (\$1,795 million increase in the accumulated deficit).

2021-22	16.6	18.8	1.0	3.2	0.4	-3.6	0.2		45.5	0.4	-3.3

Due to a break in the series following the introduction of full accrual accounting, data from 1983-84 onward are not directly comparable with earlier years.

⁽¹⁾ In 2019-20, the government began presenting actuarial gains and losses related to public sector pensions and other employee and veteran future benefits as a separate category of expenses titled "Net actuarial losses". Fiscal results for 2008-09 to 2018-19 have been reclassified to reflect this change.

⁽²⁾ In 2017-18, the government implemented, on a retroactive basis, a change in its methodology for the determination of the discount rate for unfunded future benefits. Fiscal results for 2008-09 to 2016-17 have been restated to reflect this change. The government recorded an increase of \$875 million to the opening balance of the 2008-09 accumulated deficit to reflect the cumulative retroactive impact of this accounting change on the fiscal results of years prior to 2008-09.

⁽³⁾ In 2011-12, the accumulated deficit increased by \$3,337 million due to one-time adjustments related to enterprise Crown corporations' and other government business enterprises' transition from Canadian Generally Accepted Accounting Principles to International Financial Reporting Standards. In addition, the opening balance of the accumulated deficit in 2011-12 increased by \$1,341 million to reflect the retroactive impact of a change in the government's approach for accounting for accumulated sick leave entitlements in 2012-13.

⁽⁴⁾ The opening balance of the accumulated deficit in 2012-13 has been adjusted to reflect the retroactive impact of changes made in 2013-14 in the accounting for unamortized premiums and discounts arising on the buy-back of bonds (\$5,669 million increase in the accumulated deficit), and in the accounting for loans expected to be repaid through future appropriations (\$1,795 million increase in the accumulated deficit).

Due to a break in the series following the introduction of full accrual accounting, data from 1983-84 onward are not directly comparable with earlier years.

⁽¹⁾ In 2019-20, the government began presenting actuarial gains and losses related to public sector pensions and other employee and veteran future benefits as a separate category of expenses titled "Net actuarial losses". Prior to this change, actuarial gains and losses were included as part of direct program expenses. Fiscal results for 2008-09 to 2018-19 have been reclassified to reflect this change.

Table 8

Expenses (per cent of GDP)

Due to a break in the series following the introduction of full accrual accounting, data from 1983-84 onward are not directly comparable with earlier years.

⁽¹⁾ In 2019-20, the government began presenting actuarial gains and losses related to public sector pensions and other employee and veteran future benefits as a separate category of expenses titled "Net actuarial losses". Prior to this change, actuarial gains and losses were included as part of direct program expenses. Fiscal results for 2008-09 to 2018-19 have been reclassified to reflect this change.

Due to a break in the series following the introduction of full accrual accounting, data from 1983-84 onward are not directly comparable with earlier years.

⁽¹⁾ In 1996-97, the Canada Health and Social Transfer (CHST) was introduced to replace the Canada Assistance Plan, education support, and insurance and medical care. Since April 2004, the CHST has been divided into the Canada Health Transfer and the Canada Social Transfer.

⁽¹⁾ Other transfer payments include transfers to individuals and other organizations not included in major transfers to persons and other levels of government.

⁽²⁾ In 2019-20, the government began presenting actuarial gains and losses related to public sector pensions and other employee and veteran future benefits as a separate category of expenses titled "Net actuarial losses". Prior to this change, actuarial gains and losses were included as part of direct program expenses. Fiscal results for 2008-09 to 2018-19 have been reclassified to reflect this change.

Table 13

Due to a break in the series following the introduction of full accrual accounting, data from 1983-84 onward are not directly comparable with earlier years.

⁽¹⁾ Includes government holdings of its own debt.

⁽²⁾ Includes Canada bills, Canada notes and Euro medium-term notes.

⁽³⁾ Includes Canada Savings Bonds and Canada Premium Bonds.

⁽¹⁾ For some years, temporary counter-cyclical fiscal measures (e.g. temporary stimulus measures in response to the 2008-2009 global recession and the COVID-19 pandemic), as well as one-off fiscal operations (e.g. related to sales tax harmonization, Alberta flood costs), are included in the cyclical component of the budgetary balance and therefore excluded from the cyclically adjusted budgetary balance.

Sources: Public Accounts of Quebec (components of revenues and expenditures restated from Québec's Budgetary Statistics documents), Québec Budget 2022-2023, data for 2021-2022 comes from the pre-election Report on the State of Québec's Public Finances published on August 15, 2022.

⁽¹⁾ Federal transfers are presented on a cash basis until 2004-05 and on an accrual basis thereafter.

⁽²⁾ Data from 2011-12 onward include the impact of the application change of the accounting standard on transfer payments.

⁽³⁾ Includes impact of the extraordinary loss relating to the closure of the Gently-2 nuclear power plant in 2012-13.

Due to breaks in the series following the implementation of the accounting reforms, data from 1997-98 onward, 2006-07 onward, and 2009-10 onward are not directly comparable with earlier years. The government has prepared consolidated financial statements since 1997-98. From 2006-07 to 2008-09, the net results of the health and social services and education networks were established using the modified equity method.

As of 2009-10, the revenue and expenditure of the networks are consolidated line by line, like those of non-budget-funded bodies and special funds.

Sources: 2017-18 to 2020-22 Public Accounts of Ontario; Ontario Ministry of Finance and Treasury Board Secretariat for all other years.

Starting in 1993-94, all numbers are presented based on the Public Sector Accounting Board accounting standards.

Starting in 2005-06, the Province's financial reporting was expanded to include hospitals, school boards and colleges. Financial data prior to 2005-06 have not been restated to reflect expanded reporting.

Expenditure deficit, and net debt for 2001-02 to 2016-17 have also been restated to reflect a change in accounting for pension assets of jointly sponsored pension plans. These figures are now consistent with 2017-18 onward and are not directly comparable with earlier years.

Sources:

- 1990-91 to 2003-04: 2009-10 *Government of Alberta Annual Report*, Executive Summary, Historical Fiscal Summary table, with program expense adjusted to include annual pension provision expense (i.e. annual change in unfunded pension liabilities) beginning in 1993-94;
- 2004-05 to 2007-08: Government of Alberta annual reports, Consolidated Financial Statements (i.e. Public Accounts of Alberta);
- 2008-09 to 2021-22: 2021-22 *Final Results Year-End Report*, Historical Fiscal Summary, 2008-09 to 2021-22.

Data are not fully comparable due mainly to various changes to accounting standards. Major breaks in the series include:

- 1990-91 to 1992-93: expense excludes change in unfunded pension liabilities; net financial debt / (assets) does include unfunded pension liabilities;
- 1993-94 to 2003-04: SUCH sector (school boards, universities and colleges, health entities) own-source revenue and expense, and assets and liabilities not included in numbers (grants to these entities are included in expense);
- 2004-05 to 2007-08: SUCH sector included on "net equity" basis (net revenue included in revenue; net assets included in assets);
- 2008-09 to 2021-22: SUCH sector included on "line-by-line" basis (revenue, expense, assets and liabilities reported in revenue, expense, assets and liabilities).

⁽¹⁾ Federal transfers include: \$1,582 million for 2013 Alberta flood assistance in 2013-14, less \$423 million in 2014-15, \$70 million in 2015-16, \$29 million in 2016-17, and \$128 million in 2017-18, plus \$56 million in 2018-19 and \$15 million in 2021-22, following revisions to original estimates of disaster recovery costs and what expense is eligible, and associated federal revenue accrued in 2013-14; two \$251 million Fiscal Stabilization Program payments in 2015-16 and 2019-20; and accrued revenue of \$495 million in wildfire assistance in 2016-17, less \$67 million in 2017-18, \$32 million in 2018-19, \$23 million in 2019-20, and \$3 million in 2021-22, following revisions to original estimates of costs and associated federal revenue accrued in 2016-17.

Sources: Public Accounts of British Columbia and *Financial and Economic Review* documents.

⁽¹⁾ Includes the impacts of the joint trusteeship of pension plans, restructuring exit expenses, negotiating framework incentive payments, climate action dividends, and \$1,599 million for Harmonized Sales Tax transition funding repayment in 2011-12. These items are included in total expenditures in B.C. fiscal reporting.

Due to a break in the series following the move to fully comply with generally accepted accounting principles, data from 1998-99 onward are not directly comparable with earlier years.

Sources: Public Accounts of Yukon, 2021-22 Budget 2022. Figures are on a non-consolidated basis.

Due to a break in the series following an accounting change, data from 2011-12 onward are not directly comparable with earlier years.

⁽¹⁾ Reflects 2009-10 estimates changes from 2007-08 forward. Own-source revenues and federal cash transfers may not sum to total revenues.

⁽²⁾ Includes recoveries of prior years' expense, adjustments for changes in tangible capital assets, investment in land development, expenditures on loan programs and other adjustments.

⁽¹⁾ For some years, temporary counter-cyclical fiscal measures (e.g. temporary stimulus measures in response to the 2008-2009 global recession and the COVID-19 pandemic), as well as one-off fiscal operations (e.g. related to sales tax harmonization, Alberta flood costs), are included in the cyclical component of the budgetary balance and therefore excluded from the cyclically adjusted budgetary balance.
