Objet: Modifications proposées au *Règlement canadien sur le contingentement de la commercialisation du dindon (1990)*

Cher Monsieur Ference,

Le 13 août 2026, le Conseil des produits agricoles du Canada (le Conseil) a examiné les modifications proposées au *Règlement canadien sur le contingentement de la commercialisation du dindon (1990)* tel que demandé dans la requête datée du 29 juin 2026, pour la période réglementée 2026-2027, qui commence le 28 juin 2026 et se termine le 26 juin 2027.

Après un examen approfondi de la justification fournie par les Éleveurs de dindon du Canada et suite à une analyse interne, les membres du Conseil ont convenu que les modifications étaient nécessaires à la mise en œuvre du plan de commercialisation énoncé dans la *Proclamation visant l'Office canadien de commercialisation des dindons*. Par conséquent, les modifications ont été approuvées et entreront en vigueur à la date à laquelle elles sont enregistrées.

Le Conseil reconnaît que, dans un avenir prévisible, la croissance démographique ne sera plus le principal moteur de la demande pour le dindon. Le Conseil est confiant que cette nouvelle réalité est prise en compte dans les décisions pour établir les allocations.

Pour toute question, n'hésitez pas à communiquer avec moi ou avec Lisa Melanson-Daigle, secrétaire du Conseil, par courriel à l'adresse fpcc.secretariat.cpac@fpcc-cpac.gc.ca.

Sincères salutations,

Dear Mr. Douglas:

Re: **Canadian Turkey Quota Regulations 2026/2027**

Please find enclosed a submission and supporting rationale from the Turkey Farmers of Canada (TFC) revising the 2026/2027 Quota Regulations. We request that this be given consideration and prior approval by the Farm Products Council of Canada at its earliest convenience.

As you are aware, the TFC Directors approved a change to the control period calendar so that it begins at the beginning of July and ends at the end of June the following year. To bridge the current and new schedules, 2026/2027 will be a transitional 14-month control period from Sunday, April 26, 2026, to Saturday June 26, 2027.

The proposed allocation is the result of discussions and motions at the TFC 286th Meeting of June 22-23, 2026, to revise the allocation under the Special Conditional Quota Request Process.

Should your staff have any questions, please do not hesitate to have them contact our office.

We look forward to the Council's consideration and prior approval of this amendment.

Sincerely,

Adam Power
Executive Director

Encls.

Canadian Turkey Marketing Agency c.o.b. **Turkey Farmers of Canada**

Submission to: Farm Products Council of Canada
Regarding: Amendment to the Schedule to the Canadian Turkey Marketing Quota Regulation (1990) for 2026/2027

Date: June 29, 2026

This amendment to the 2026/2027 Schedule to the Canadian Turkey Marketing Quota Regulation reflects the decision of the Turkey Farmers of Canada (TFC) Directors at their meeting of June 22-23, 2026, to adjust the conditional allocation under the Special Conditional Quota Request Process (SCQRP). The rationale for revising the federal quota for inter-provincial and export trade of turkey to 209,341,083 kg for the transitional 2026/2027 Control Period is detailed in the following sections.

Contents:

- 1) **Preamble: Control Period Schedule Change and the Transitional 2026/2027 Control Period**
- 2) **Relevant Motions**
- 3) **Federal Turkey Allocations**
- 4) **Proposed Amendment: Special Conditional Quota Request Process (SCQRP)**
- 5) **TFC Policies, Statutory Obligations and Adjustments for a 14-Month Control Period**
- 6) **Revised 2026/2027 Federal Quota**
- 7) **List of Appendices**

1) **Preamble: Control Period Schedule Change and the Transitional 2026/2027 Control Period**

In December 2025, the TFC approved a change to the control period calendar to start the first week that ends in July and to end the last Saturday of June the following year. To bridge the current and new control period schedules, 2026/2027 will be a transitional 14-month control period from Sunday, April 26, 2026, to Saturday June 26, 2027.

As part of the decision to implement a transitional 14-month control period, a set of one-time adjustments were approved to allow for the two additional months, and to ensure that production and supply patterns are unaffected during the transitional control period and that TFC policies can be administered. The one-time adjustments from the two previous Quota Order submissions for this control period are unchanged. This relatively minor change to a conditional allocation builds on the previous quota orders.

2) **Relevant Motions**

During the TFC 286th Meeting of June 22-23, 2026, the following motions were passed that necessitate this Quota Order submission:

To approve the request from EVQ for a conditional allocation of an additional 4,150 kg under the Producer-Vendor provisions of the SCQRP for the 2026/2027 Control Period.

To approve the two requests from TFO for a combined conditional allocation of 47,675 kg under the Producer-Vendor provisions of the SCQRP for the 2026/2027 Control Period.

3) Federal Turkey Allocations

As per the TFC Commercial Allocation Policy, conditional policies, previous decisions and relevant motions, the 2026/2027 federal quota for turkey, excluding the unregulated area, consists of the following components:

Federal Turkey Allocations - Transitional 14-Month 2026/2027 Control Period

		Pounds	Kilograms
A	Commercial Allocation	351,285,922	159,340,613
B	Multiplier Breeder	5,515,817	2,501,933
C	Primary Breeder	5,396,387	2,447,760

D	<i>Section 1 Parts</i>	<i>48,799,858</i>	<i>22,135,243</i>
E	<i>Section 1 Whole</i>	<i>21,252,562</i>	<i>9,640,000</i>
F	<i>Section 1 Carry-Forward</i>	<i>0</i>	<i>0</i>
G	<i>Section 2 Planned Exports</i>	<i>20,909,469</i>	<i>9,484,376</i>
H	<i>Section 3 Live</i>	<i>8,230,590</i>	<i>3,733,333</i>
I=Sum of D to H	Total Export	99,192,479	44,992,952
J	Special Conditional Request Quota	127,482	57,825
K	2025/2026 Overmarketing	0	0
L=A+B+C+I+J-K	Total Quota	461,518,087	209,341,083
M	Base Allocations	213,940,000	97,041,552
N=L-M	Over Base Allocations	247,578,087	112,299,531

4) Proposed Amendment: Special Conditional Quota Request Process (SCQRP)

The SCQRP addresses market opportunities that cannot be met by normal market growth within the commercial quota. Provincial commodity boards, in conjunction with processors, may request conditional allocations to satisfy opportunities arising from specific events, product test marketing, the launch of innovative products, incremental sales by producer-vendors and/or niche markets. The utilization of these allocations is conditional upon policy terms being met, the failure of which will result in production counting against commercial quota. Quebec has requested a conditional allocation of 4,150 kg for the marketing of niche products by a producer-vendor, in addition to a prior request for 6,000 kg. Ontario has requested a conditional allocation totaling 47,675 kg on behalf of two producers.

5) TFC Policies, Statutory Obligations and Adjustments for a 14-Month Control Period

This amendment adheres to the terms of the TFC's Special Conditional Quota Request Process and all other statutory obligations.

Given the factors agreed upon to adjust 12-month equivalent allocations to a 14-month control period:

- The 12-month Commercial Allocation of 136,000,000 kg has been set to 159,340,613 kg.
- The Multiplier Breeder Allocation was calculated on the basis of the 14-month Commercial Allocation and 2,501,933 kg was arrived at.
- The Primary Breeder Allocation of 2,098,080 kg was increased by 1/6th to 2,447,760 kg.
- Export Policy allocations were adjusted by a combination of agreed upon factors, with the 12-month equivalent allocation of 41,297,441 kg being set to 44,992,952 kg for the 14 months.
- The SCQRP requests totaling 57,825 kg do not require adjustment.

Adjustments to Conditional Allocation Policy Provisions for a 14-Month Control Period

Appendix III

To facilitate two additional months in 2026/2027, adjustments of 1/6 to several conditional policy provisions are required. In Table 1: the adjustments of 1/6th are illustrated, with the normal or 12-month value shown on the upper line and the adjusted or 14-month value on the lower line. In Table 2, the adjusted numbers in the allocation table are indicated by yellow shading.
