At a Glance: Departmental Evaluation Plan for Health Canada 2021-22 to 2025-26

The Office of Audit and Evaluation (OAE) Departmental Evaluation Plan for Health Canada describes the Program Evaluation Division's scheduled work for the five-year period from 2021-22 to 2025-26. The Plan was developed to meet Health Canada's commitments under the *Policy on Results* (2016), which requires that each department prepare a five-year plan that is updated annually.

The projects included in this Evaluation Plan were selected to ensure full coverage of all Grant and Contribution spending over \$5 million annually over a five-year period, prior commitments in Treasury Board Submissions, the information needs of program management, and program risks, and optimal use of resources. The Departmental Results Framework (DRF), program inventory, and performance information profiles developed by Health Canada have formed the basis for this plan.

The COVID-19 pandemic continues to have a significant impact on the work of Health Canada (HC) as it remains at the forefront of the Government of Canada's response. To be respectful of the need for branches to focus on the response, and to respond to other oversight reviews such as those led by the Office of the Auditor General and the Standing Committee on Health, OAE reprioritized work and, as necessary and where possible, shifted the timing of planned evaluations.

The present Departmental Evaluation Plan (DEP) reflects the response of OAE to these circumstances, by developing a plan that ensures that OAE focuses its efforts and resources on emerging priorities while continuing to meet our reporting commitments under the *Financial Administration Act* (FAA).

Planning for Evaluation

Over the next five years, the OAE plans to conduct 29 evaluations that involve Health Canada: 19 will focus exclusively on Health Canada activities and two evaluations will examine the activities of both Health Canada and the Public Health Agency of Canada (PHAC). The remaining eight projects are horizontal evaluations – three of which are led by Health Canada and the remaining five projects are led by other government departments or agencies. A yearly breakdown is provided in **Table 1** below. **Table 2** outlines the direct program spending (DPS) by core responsibility for all scheduled evaluations for the next five years.

Table 1 – Numbe	er of eva	lluations	per 1	tiscal	year

	2021-22	2022-23	2023-24	2024-25	2025-25	Total
Health Canada	2	3	7	4	3	19
Health Canada and PHAC	1	1	0	0	0	2
Horizontal (HC-led)	0	2	0	1	0	3
Horizontal (OGD-led)	0	2	1	0	2	5

Health Information (\$102,973,979)	Pan-Canadian Health Organizations	2023-24	\$102,973,979	N/A
Canada Health Act (\$1,659,838)	N/A	N/A	\$1,659,838	Low Need: HC's activities have focused on the administration of the Act, such as monitoring for compliance. On an annual basis, the federal Minister of Health is required to report to Parliament on the administration and operation of the Canada Health Act, which provides good oversight on this activity.
Medical Assistance in Dying (\$500,000)	N/A	N/A	\$500,000	Low Need: Program has been recently implemented. Furthermore, while the potential for conducting an evaluation will be examined in the future, parliamentary reporting requirements provide good oversight on

-

¹ To obtain detailed estimates on program budgets, annual data for 2021-22 is presented. This financial data was extracted by the Chief Financial Officer Branch on February 22, 2021. As a result, these budget figures may not fully align with those contained in other corporate reporting documents such as the Departmental Plan, the Departmental Results Report or the Three-Year Transfer Payment Program Plan.
