

List of restricted health care practitioners and pharmacists named in a notice of restriction

Date Published: November 20, 2023

Some licensed health care practitioners and pharmacists in Canada have been restricted from having narcotics, controlled drugs and/or targeted substances sold or provided to them, except when dispensed to them as patients themselves. This list represents the licensed health care practitioners and pharmacists whose restrictions are published on the relevant professional provincial or territorial licensing authority's website.

Licensed health care practitioners and pharmacists may be restricted because they:

- have been convicted of a drug offence under the Criminal Code
- have violated a rule of conduct established by the provincial or territorial professional licensing authority **or**
- no longer wish to prescribe or dispense controlled drugs, narcotics and/or targeted substances.

The relevant professional provincial or territorial licensing authority sends requests to Health Canada to have these individuals named in a notice of restriction.

The Minister of Health has restricted these individuals in accordance with the *Controlled Drugs and Substances Act* and its associated regulations.

The list of restricted practitioners and pharmacists is updated four times a year. For more information, please contact the provincial or territorial professional licensing authority directly. Questions about the publishing of this list may be sent by email to compliance-conformite@hc-sc.gc.ca.

Name (last, first) and licence number	Type of Health Professional	Province/Territory	Date of restriction (YYYY-MM-DD)	Restriction
Bose, Shouren 25962	Pharmacist	Manitoba	2021-02-08	All narcotics All controlled drugs All targeted substances
