

The Blueprint for Action model “in practice”

The Blueprint for Action model is a tool for school communities to plan intervention strategies that combine substance use intervention approaches and Comprehensive School Health approaches, to prevent substance-related harms among youth.

		Substance Use Intervention Approaches			
		Upstream prevention	Harm reduction	Stigma reduction	Equity-oriented
Comprehensive School Health Framework Components	Teaching and Learning				
	Social and Physical environment				
	Policy				
	Partnerships and Services
