

End of the registration of (s)-kinoprene pesticides

All pesticides used in Canada must be registered under the *Pest Control Products Act*. Pesticides are re-evaluated to ensure that they continue to meet health and environmental requirements. Re-evaluation may result in the revocation of a product or product uses. Health Canada may also request changes to a product's label, including mitigation measures, use sites and application methods.

(s)-kinoprene is an insect hormone equivalent used to control several pests on greenhouse ornamental crops. The re-evaluation decision for the active ingredient **(s)-kinoprene** was published on June 16, 2021.

Pesticides containing (s)-kinoprene are cancelled.

Cancelled product	Registration No.
ENSTAR EW	29661

As of June 16, 2023:

The sale of pesticides containing (s)-kinoprene is prohibited.

As of June 16, 2024:

The use of pesticides containing (s)-kinoprene is prohibited.

Using unregistered pesticides is a violation of the *Pest Control Products Act*.

Read the label

All pesticides registered in Canada have a Health Canada-approved label with a registration number. Read the pesticide label carefully, as it contains specific information on how to use it. To find the most up-to-date label, use our online [label search tool](#) or search for “Health Canada pesticide labels” using your favourite search engine.

For more information

Re-evaluation decision [RVD2021-06](#), (s)-kinoprene and its associated end-use products.

The re-evaluation decision is the official Health Canada document. In the event of any discrepancy with the content of this factsheet, the content of the decision shall prevail.

Health Canada's Pesticide Compliance Program (PCP) is responsible for the enforcement of the *Pest Control Products Act*. Visit: canada.ca/pesticide-compliance
