

Impact Assessment Agency of Canada (IAAC)

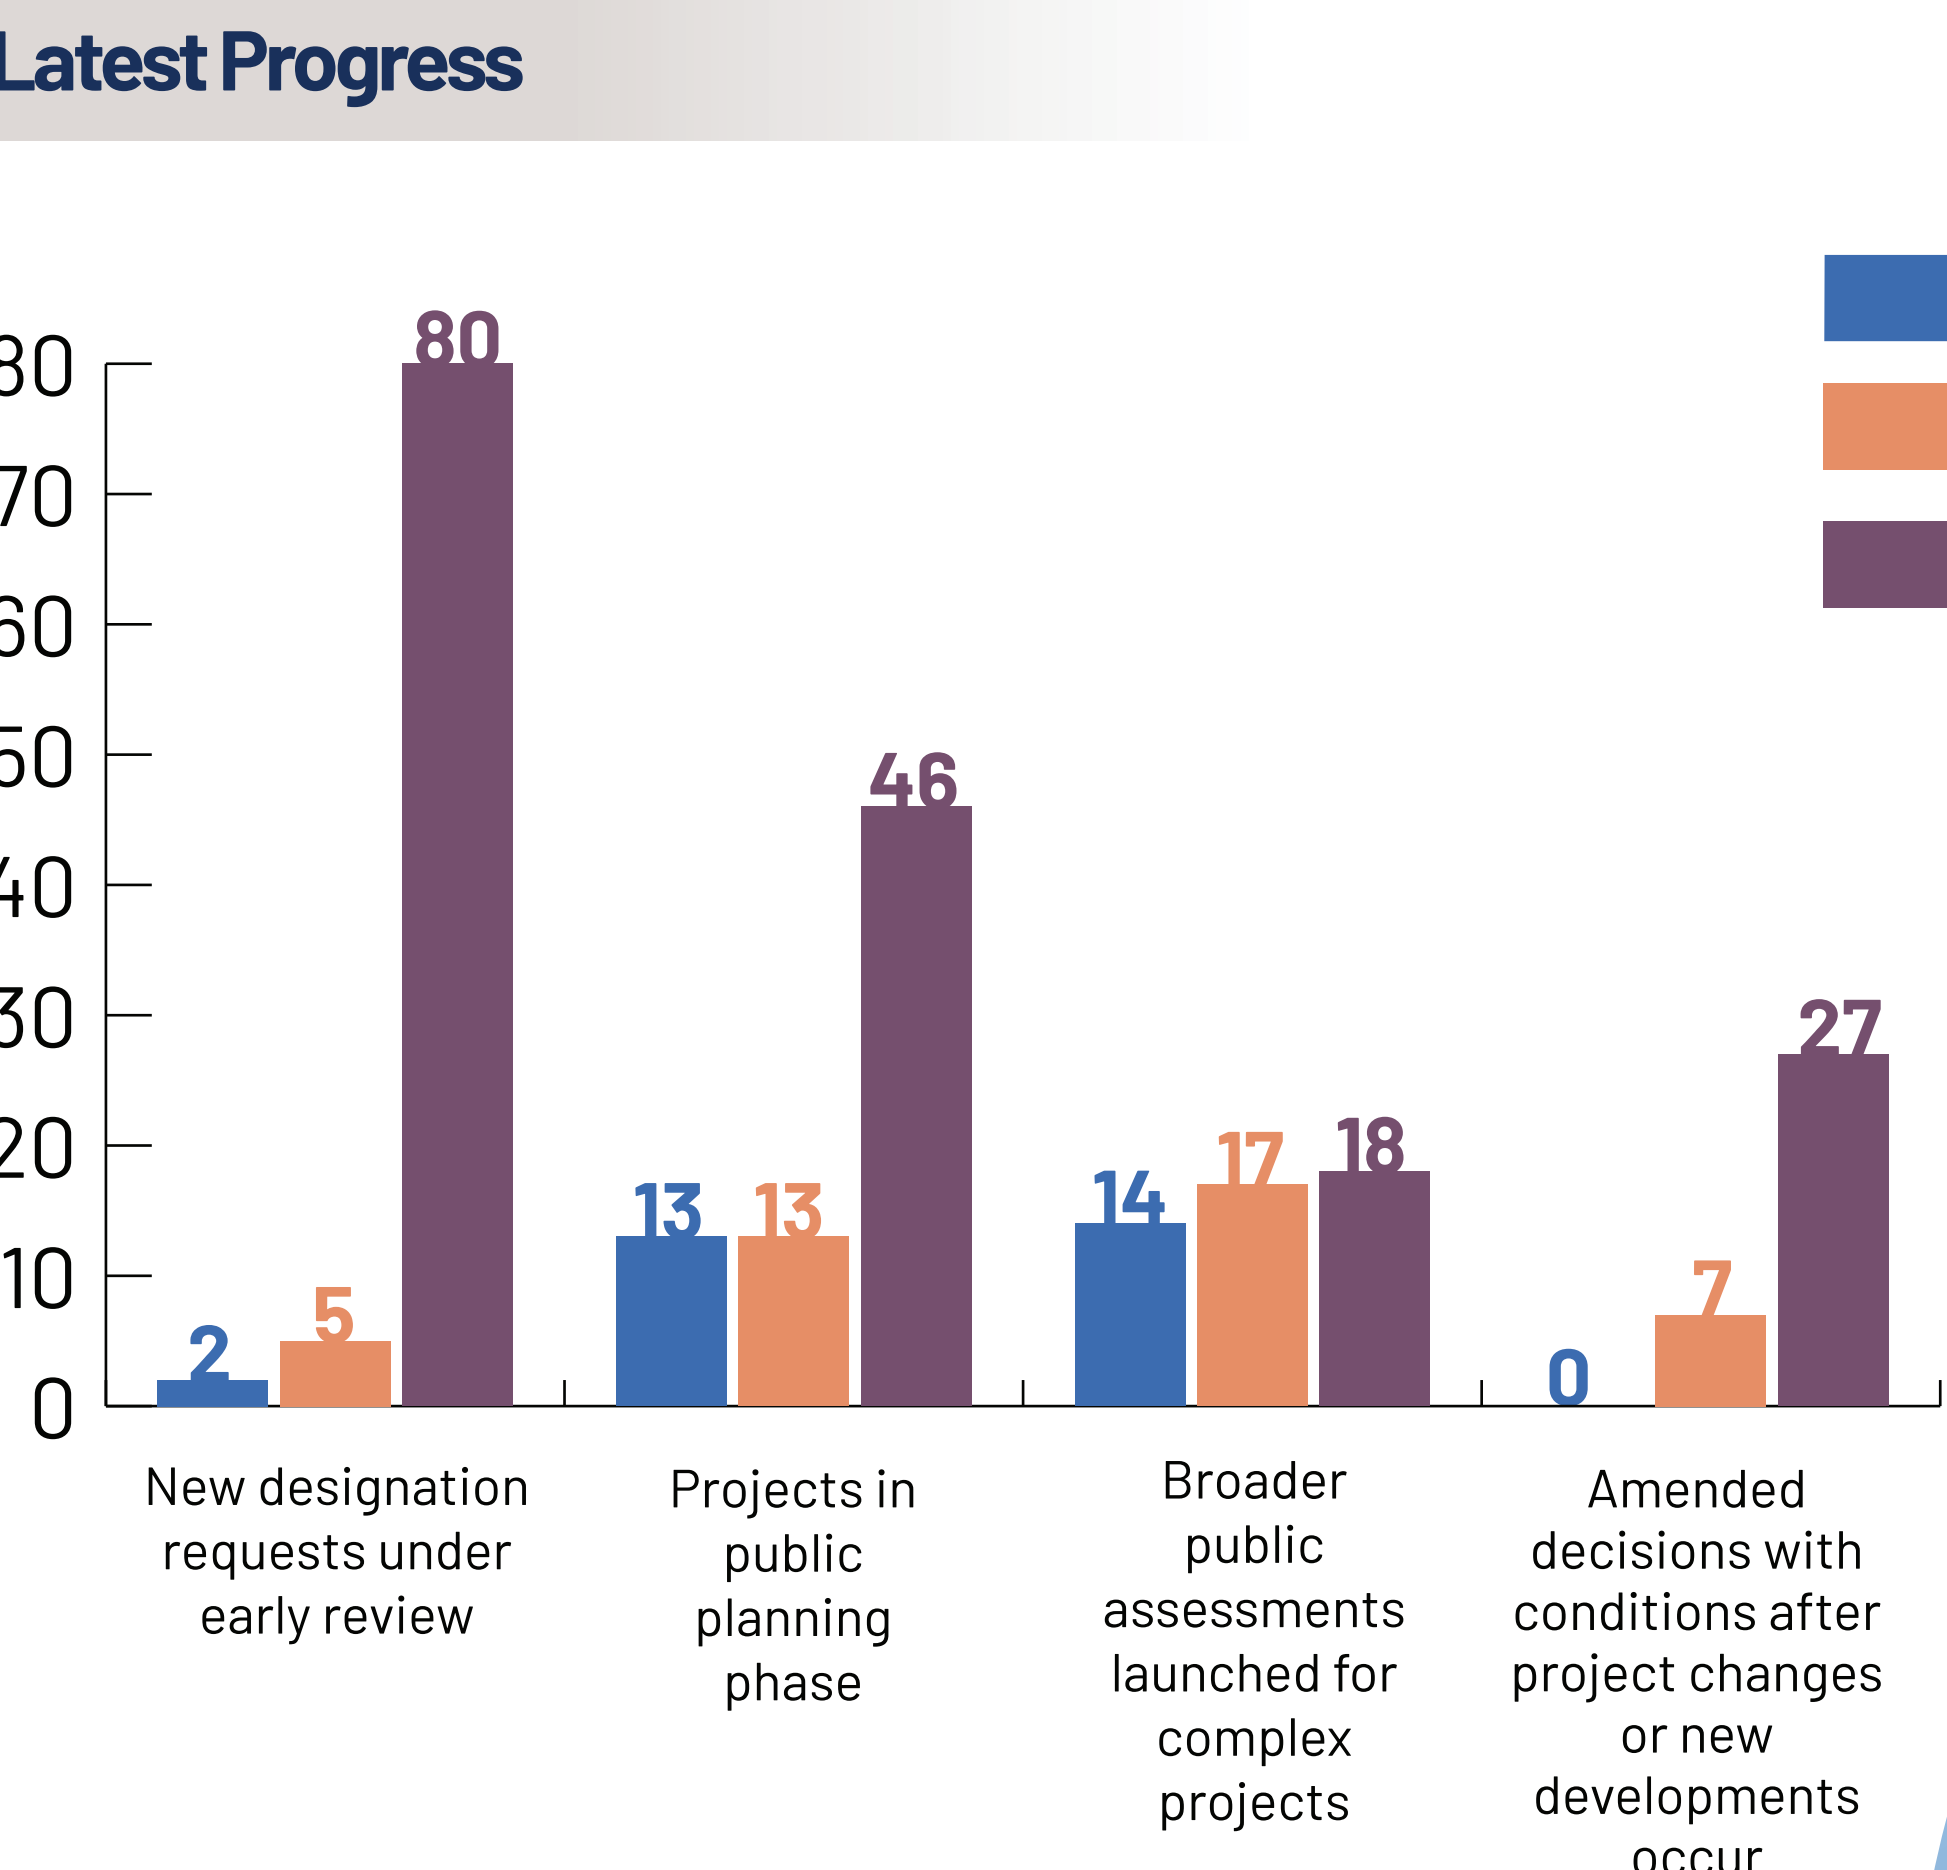

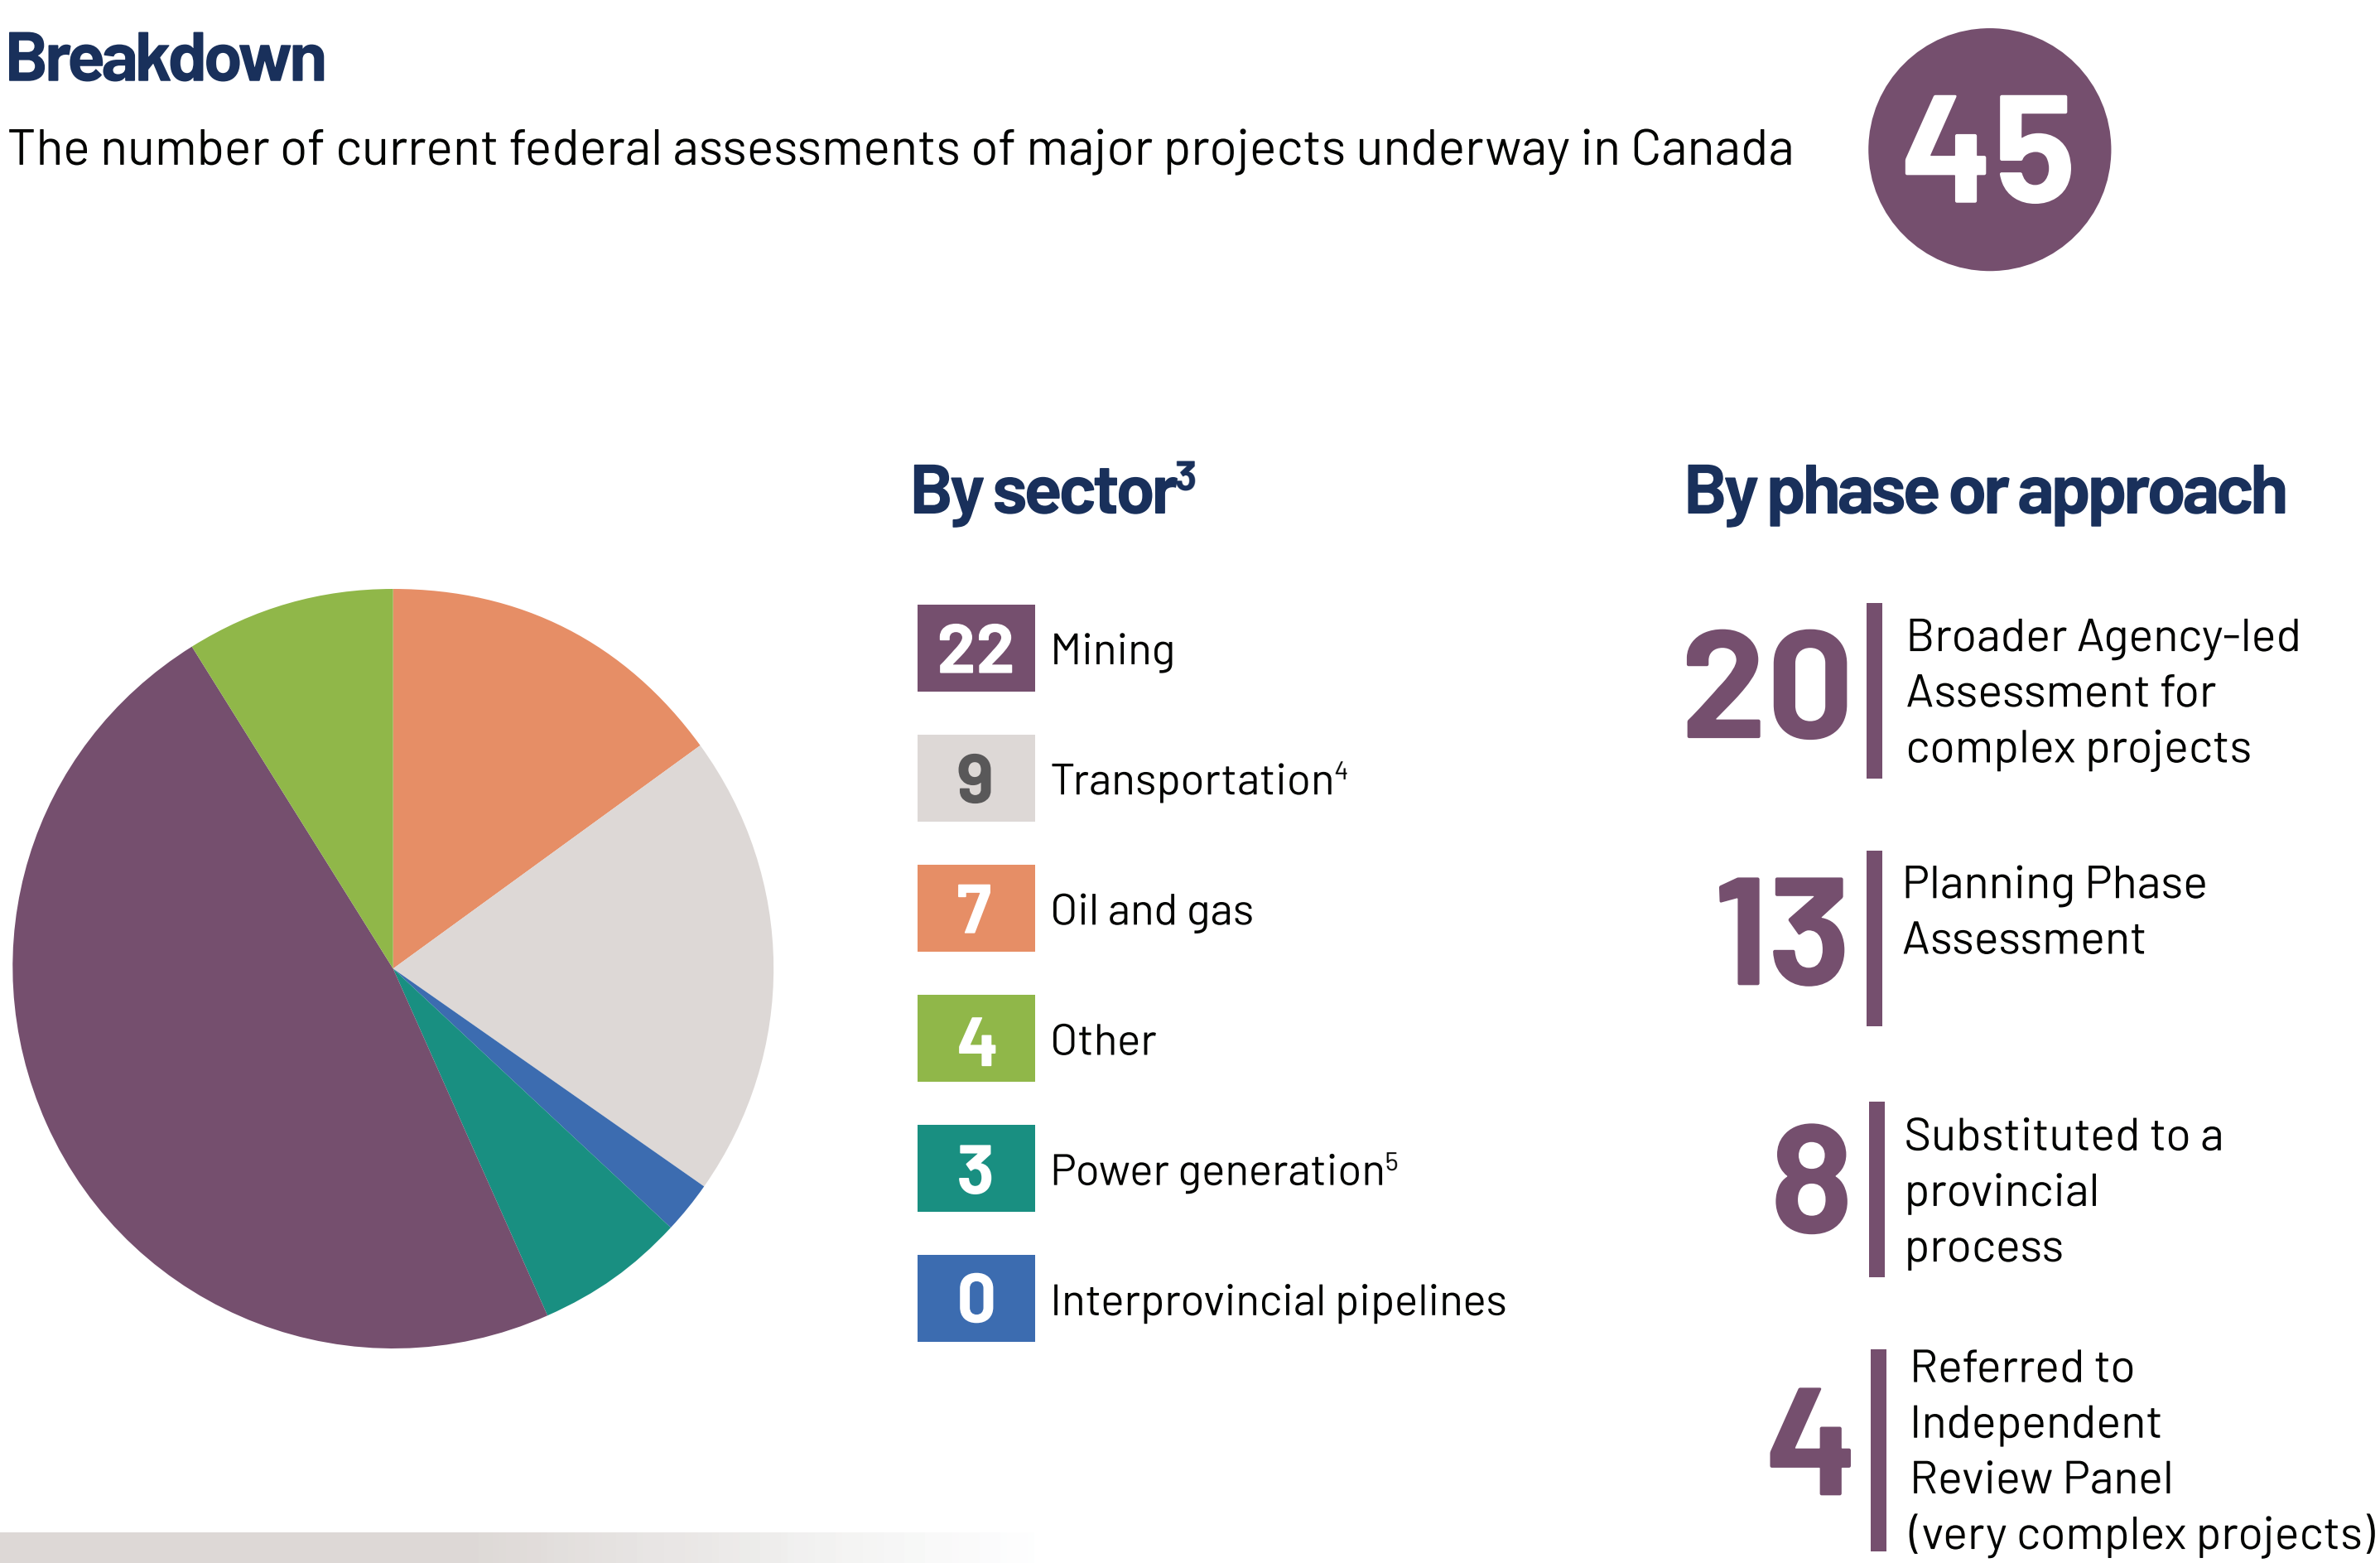

SECOND QUARTER AT A GLANCE REPORT¹

Canada wants good projects that bring jobs and other benefits today and sustain our resources for tomorrow. Canada’s amended **Impact Assessment Act (IAA)** delivers assessments that are timely, efficient and focused on what matters. It does this by conducting assessments that support economic growth while protecting the environment, Indigenous Rights and other issues that matter most to Canadians.

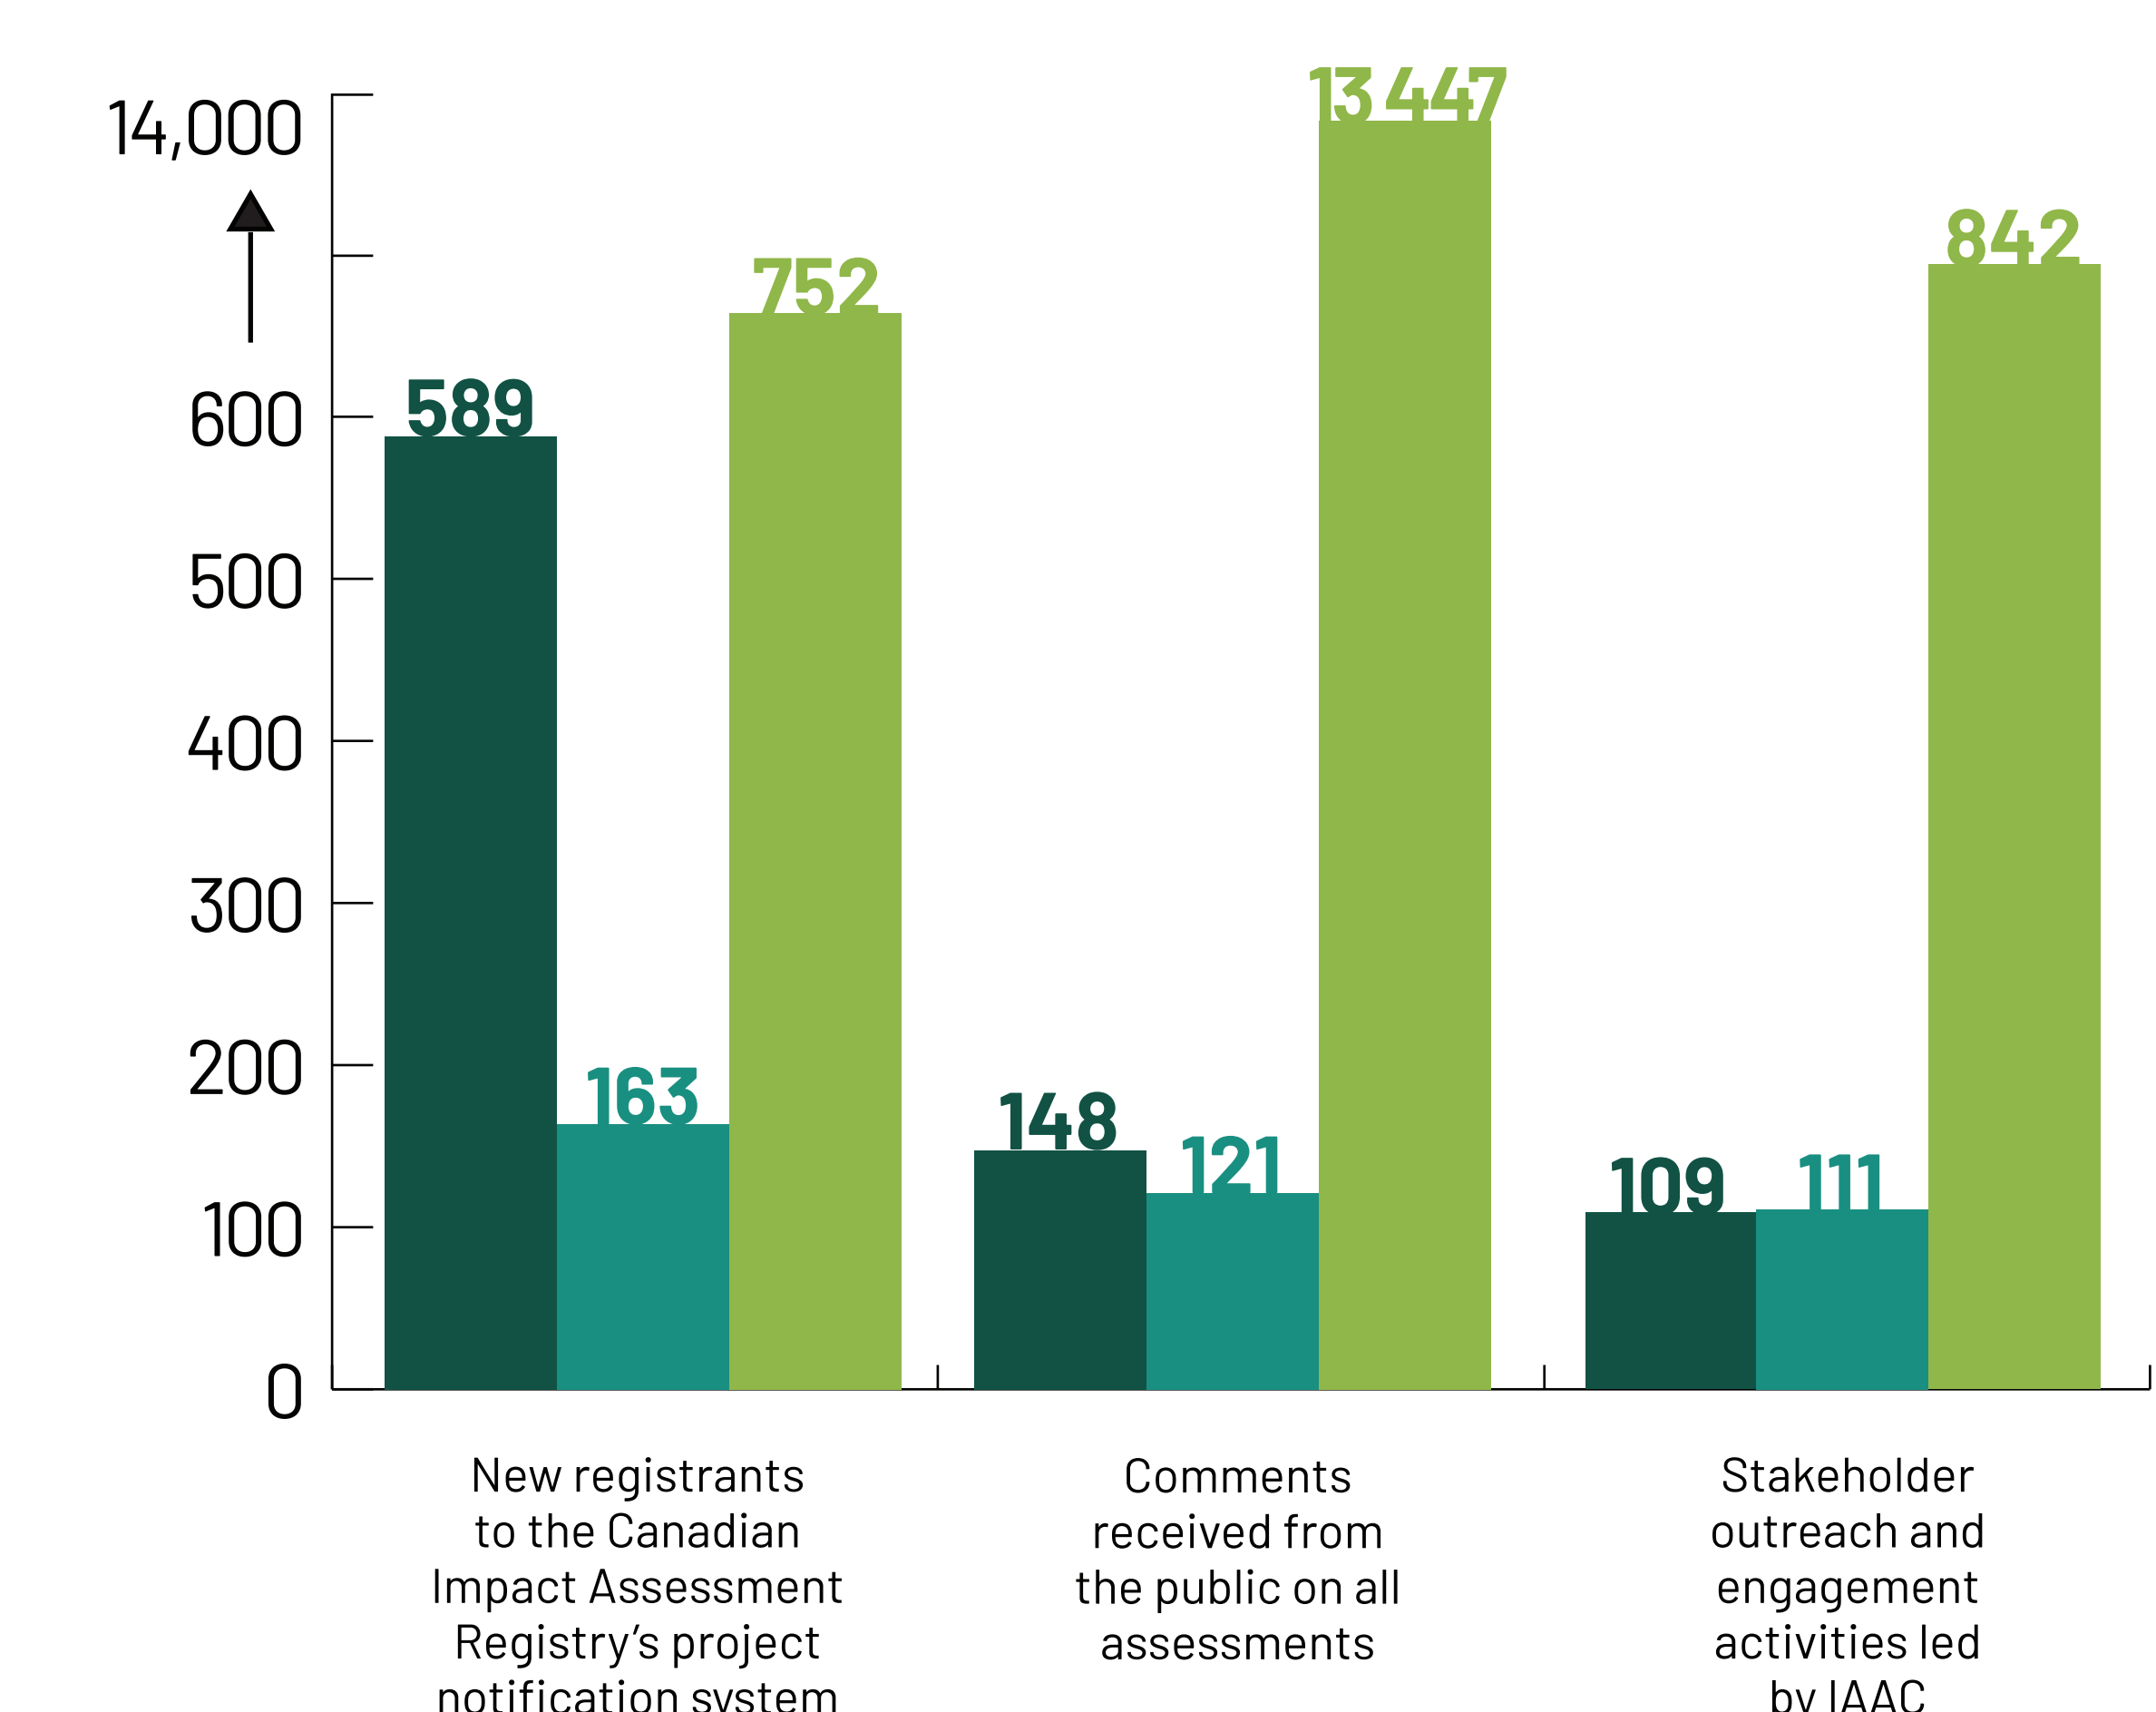

In fact, Bloomberg New Energy Finance says

“Canada has one of the most credible impact assessment frameworks in the world.”²

Projects

Participation

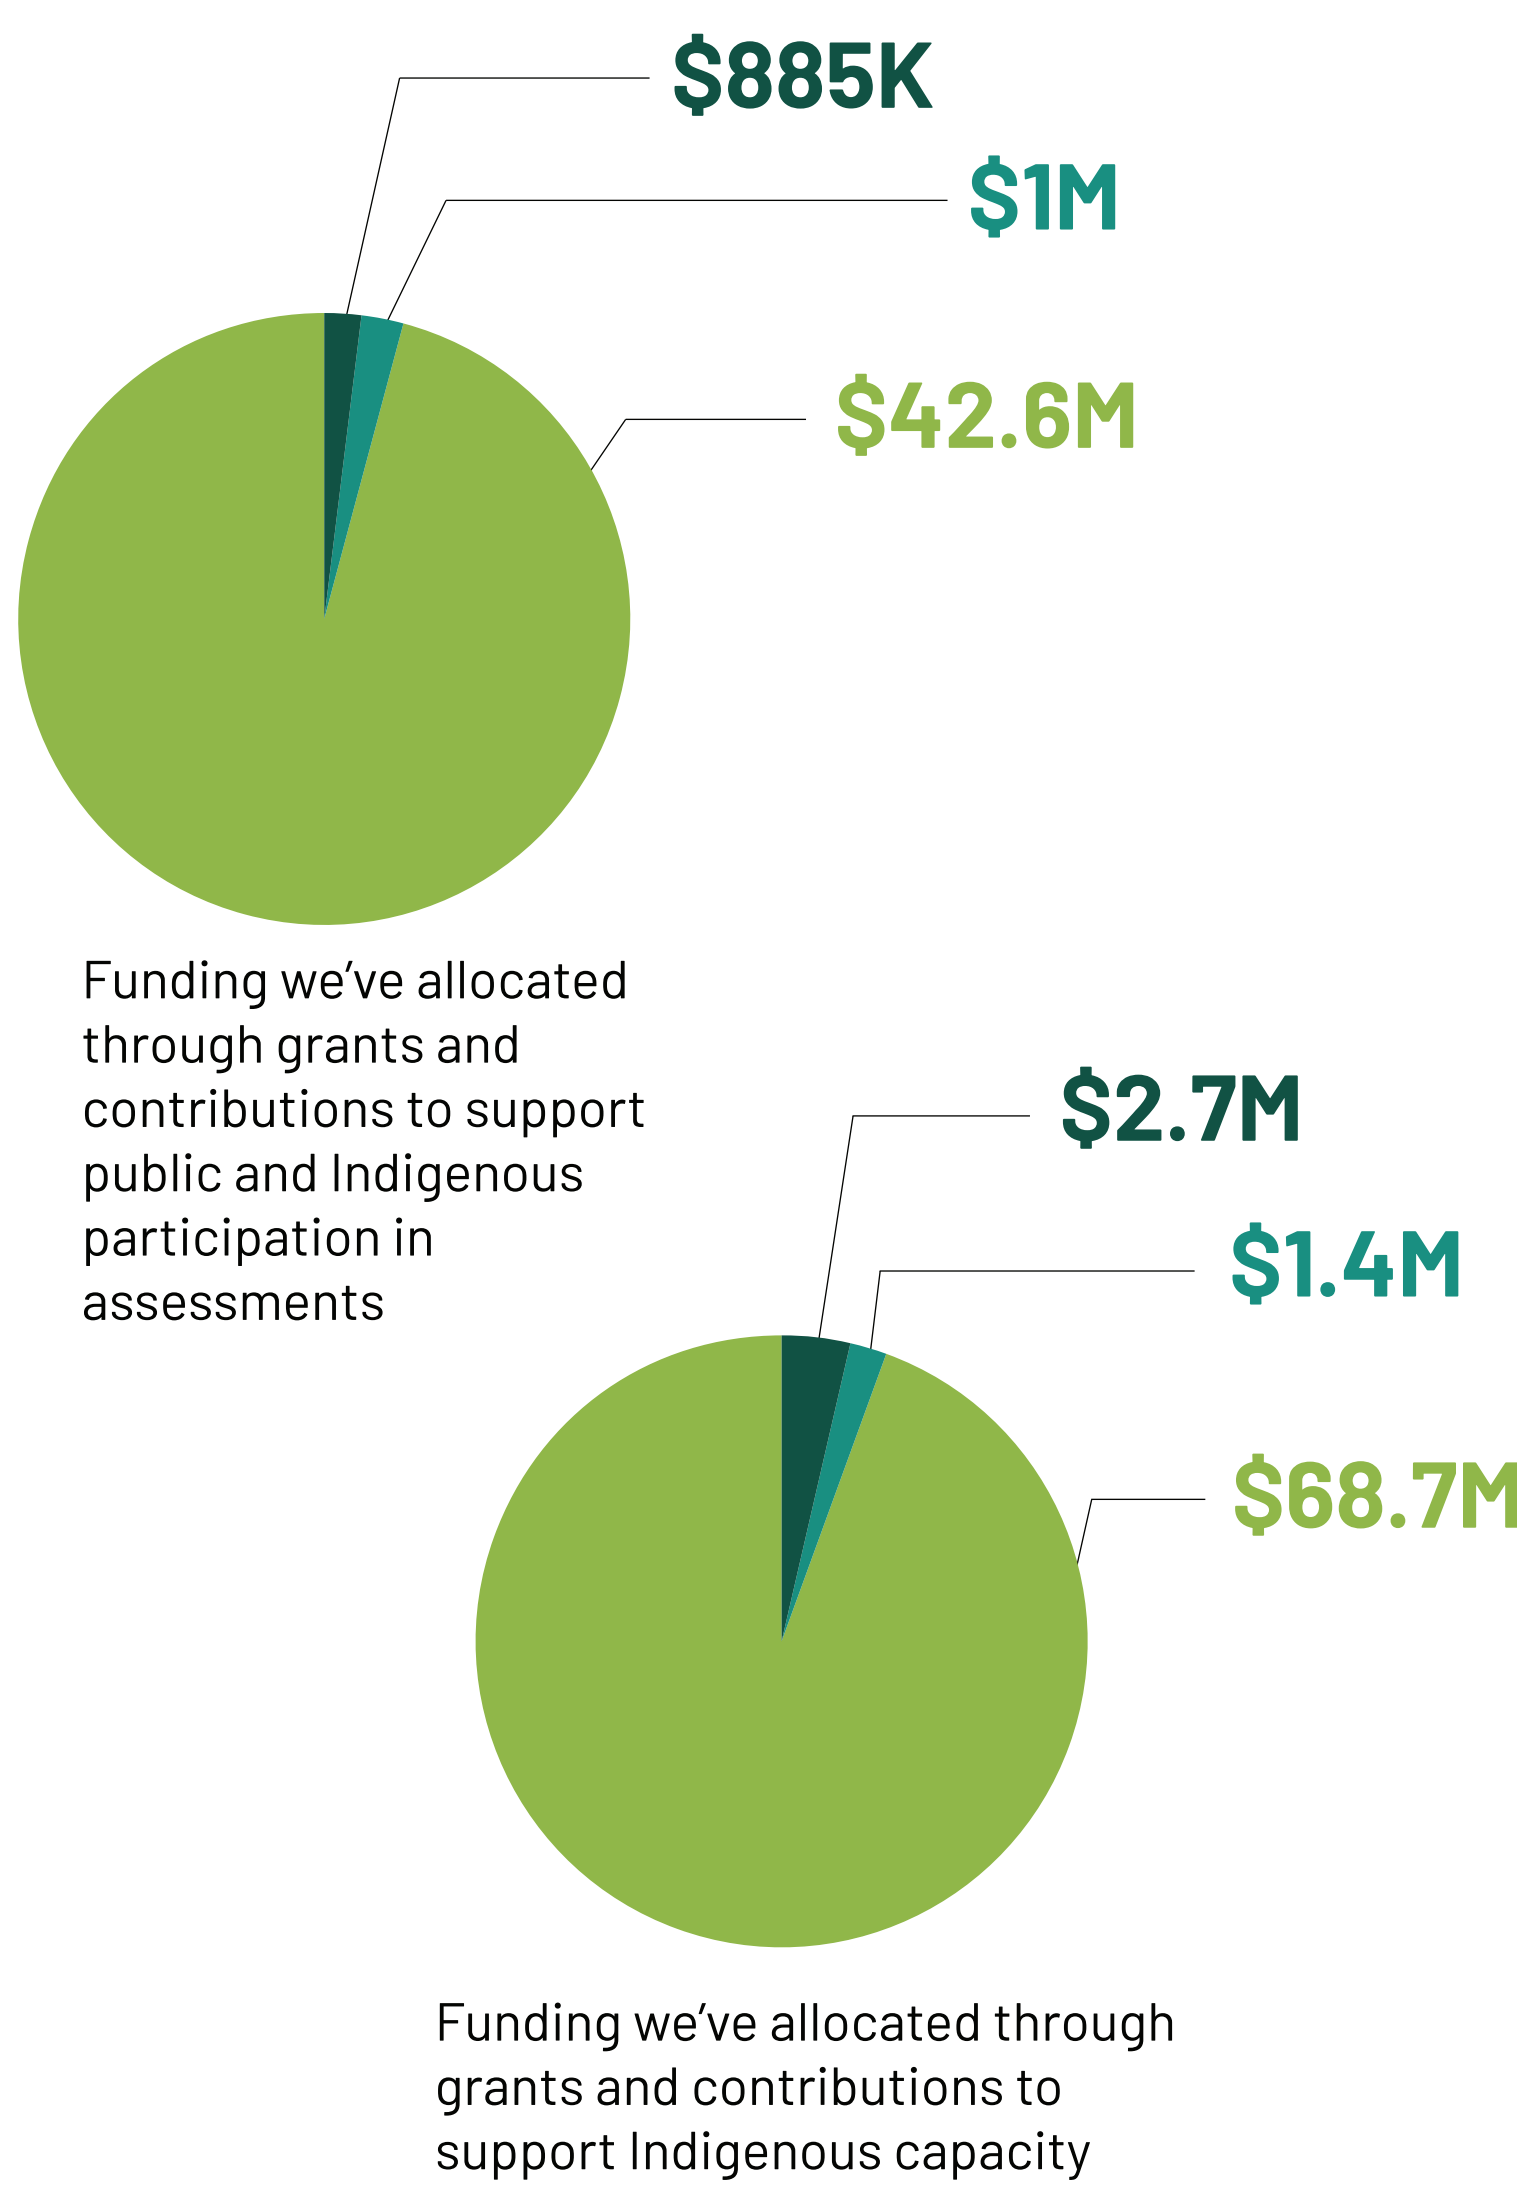

Did You Know?

Since August 2019, IAAC has received **80 REQUESTS** from the public for different forms of assessments. We **REVIEWED AND ANSWERED ALL OF THESE** within 90 days.⁶

Our **EARLY PLANNING PHASE** for projects can lead to **QUICK DECISIONS**. For example, Big Bear Camp Aerodrome Project in Saskatchewan received a decision in as little as **59 DAYS**.

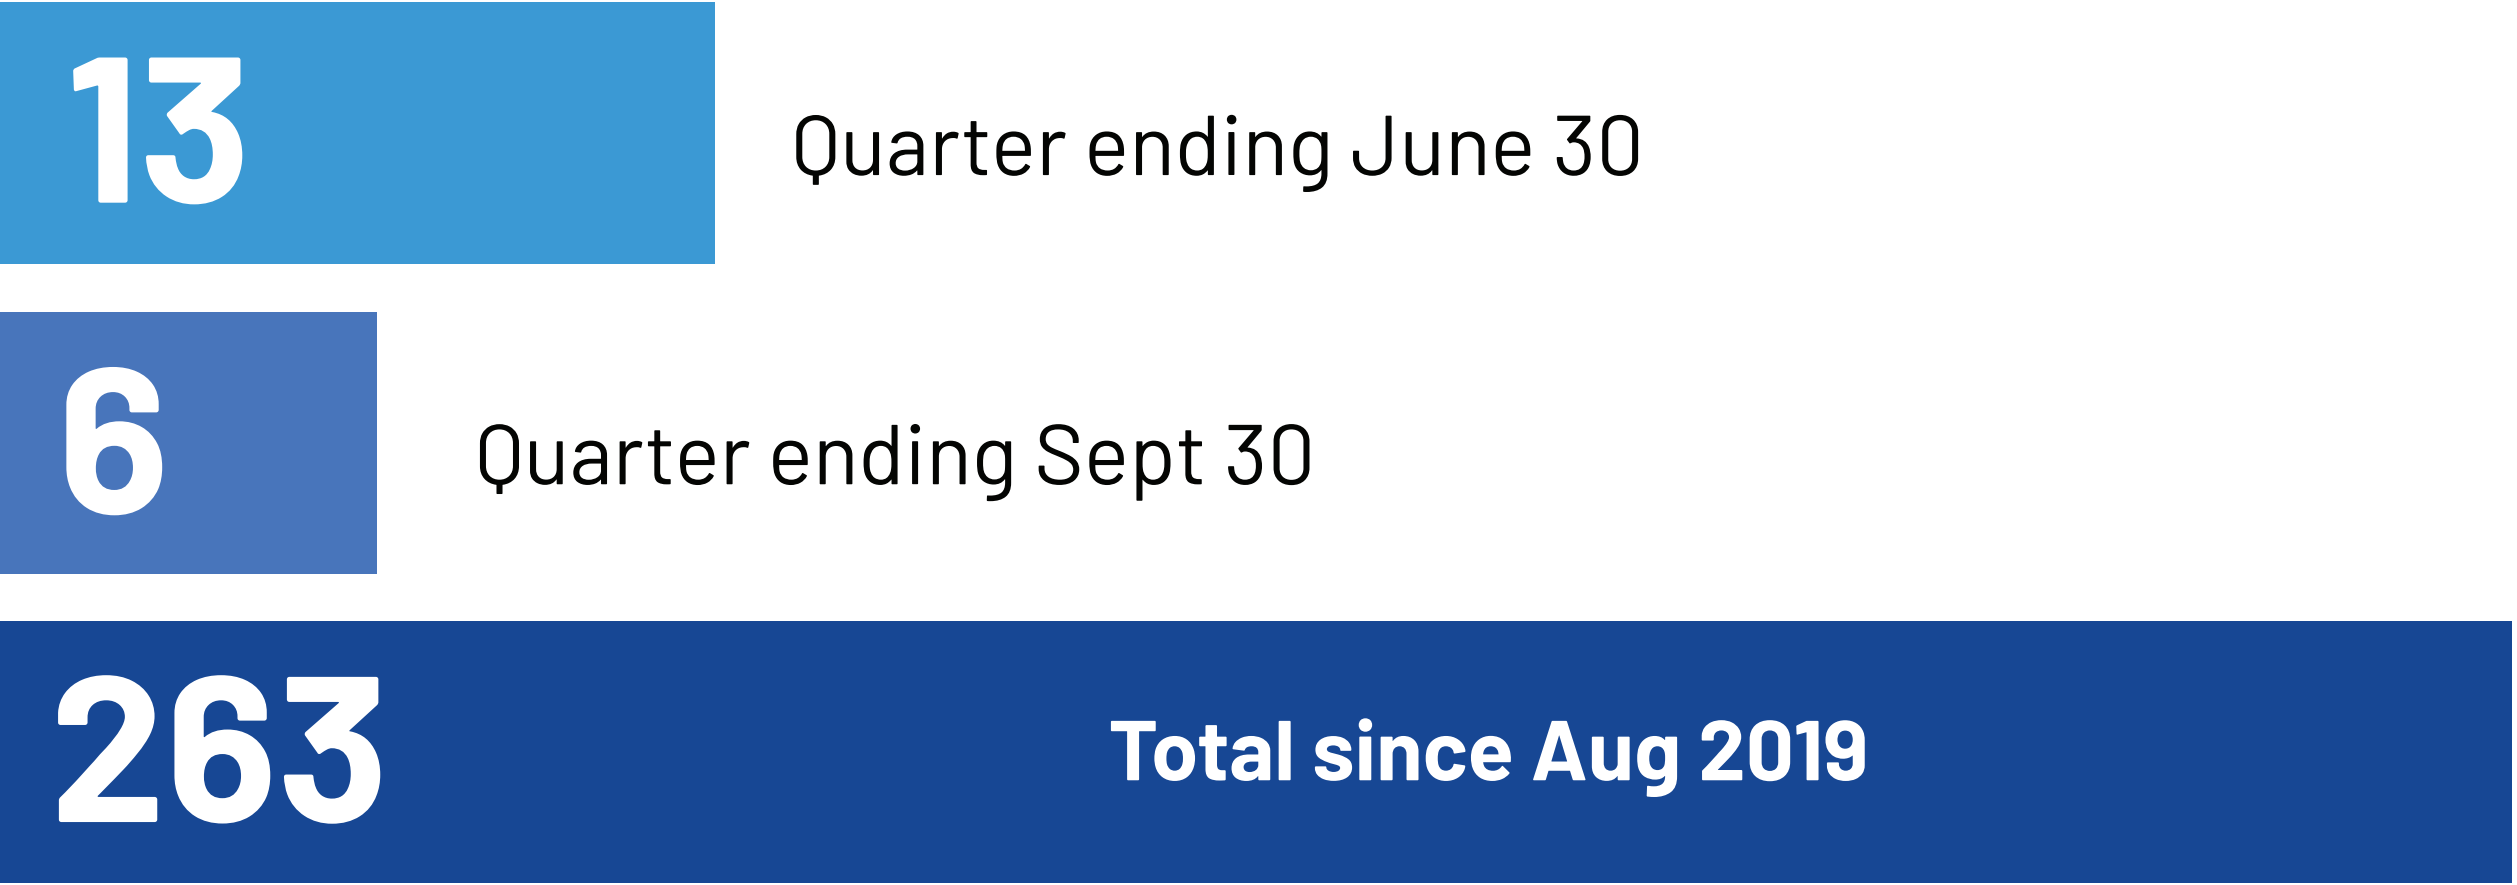

ALMOST HALF of our **EARLY DECISIONS** on projects **COMPLETED** our assessments without the need for further review.

Only the most **COMPLEX PROJECTS** with the potential for serious adverse effects in federal jurisdiction merit broader assessments that require decisions by the Minister or Cabinet.
