Impact Canada Initiative (ICI) Process

Exploration Phase

Development Phase

Implementation Phase

1 Intake

Continuous intake and assessment of departmental Expressions of Interest (EOI)

2 Co-Development

Co-design of project among IIU, departments, and key stakeholders

3 Joint Two-Key Sign-Off

Project approval and sign-off to enable use of ICI Ts&Cs

4 Initiation

Project launch and implementation, including communications activities

5 Evaluation

Ongoing monitoring and evaluation of ICI approach and specific projects

IIU assesses EOI and departmental Ts&Cs, and makes recommendation at IIU management meeting.

IIU Assistant Secretary approves project concept to proceed to next phase.

Minister of DI receives ongoing updates of project concepts via ICI project tracker.

Partner department engages with, and provides additional information to, IIU (as needed).

Following approval by IIU Assistant Secretary, departmental Deputy Minister and/or Minister (or delegated authority) are notified. IIU co-designs project with partner department and external partners, including developing project plan and verifying department's due diligence checklist.

Minister of DI receives ongoing updates of project concepts via ICI project tracker.

Partner department co-designs project with IIU/external partners, including development of project plan and completion of due diligence checklist.

Deputy Secretary, Results & Delivery approves project brief and transmits to Minister of DI for final approval (cc: Deputy Secretary, Governance); shares project briefs with Deputy Minister Task Force on Public Sector Innovation.

IIU Assistant Secretary transmits approved project brief to the Assistant Secretary of the Government Operations Sector, Treasury Board Secretariat (TBS).

Minister of DI approves project brief to activate first "key", enabling the use of the ICI Ts and Cs.

Notification is sent to the President of the Treasury Board that project has been approved / ICI Ts&Cs have been updated (quarterly basis).

Partner department provides advice to responsible Minister (or delegated authority).

Minister (or delegated authority) approves project (as per departmental protocols for approving funding), activating the second "key".

IIU provides advisory support (as requested), and oversees hosting of project on impact.canada.ca.

Minister of DI plays ongoing role of champion for ICI (e.g., joint announcement with Minister of partner department, other communications opportunities, as appropriate).

Partner department implements and manages project, including ongoing communications activities, according to existing policy and program requirements. Note: funding for projects remain within departments with accountability residing with relevant Ministers.

Minister (or delegated authority) maintains accountability for project throughout its duration.

IIU advises and assists in project-level evaluations and impact measurement strategies, and helps broker partnerships to undertake rigorous evaluations. In addition to looking at impact at an intervention level, IIU assesses the impact of ICI overall.

IIU rolls-up results for projects carried out under ICI to support public reporting (e.g., IIU annual report, summary publications on "what works" in improving outcomes in ICI policy areas) and required reporting to TBS

Partner department collects relevant data to report back on effectiveness of using ICI-supported funding approach and on a project's impact.

Partner department remains accountable for reporting on results as per its existing evaluation and performance measurement approaches.

Key Products

- EOI
- Assessment Report (EOI Assessment(s) + Ts&Cs Analysis)
- Record of Decision from IIU management meeting

Key Products

- Project Plan (e.g., design, evaluation, partners)
- Project Brief
- Due Diligence Checklist (e.g., consultations with legal, finance, etc.)

Key Products

- Letter from IIU Assistant Secretary to Assistant Secretary of Government Operations Sector, TBS
- Quarterly report (as needed) from Minister of DI to President of the Treasury Board

Key Products

 Communications products (e.g., web content for Impact Canada Platform, IIU and departmental announcements and press releases, social media messaging)

Key Products

- Impact reports from projects
- Summary publications on "what works" in policy portfolios covered by ICI
- IIU Annual Report
