Medical Instructions

Instructions for this examination will be provided after your application has been assessed by a Canadian Visa officer.

After you receive the necessary medical forms, you and your family members must undergo the necessary medical examinations with one of the doctors on the list of designated doctors **unless** you and/or your family members live in a country not included on this list. **If you wish to have your medical examinations in a country not included on this list, please inform us and we will ensure that you receive the appropriate list.**

You will be responsible for the costs of the medical examination for all your family members.

Please note that, at the time of the medical examination, you and all family members will be required to present individual passports as evidence of identity. **If each of your family members does not already have an individual passport, you should apply to obtain them now.**

Applicants may, at any time, request that medical instructions be issued, and may undergo an immigration medical examination **at their own risk**. It is important to note, however, that undergoing an immigration medical examination **does not guarantee** that a permanent resident visa will be issued.

The permanent resident visa has the same validity period as the medical results, that is, 12 months from the date of the first examination or test.
