Introduction to the 2023 to 2024 Departmental Sustainable Development Strategy Report

The [2022 to 2026 Federal Sustainable Development Strategy \(FSDS\)](#) presents the Government of Canada's sustainable development goals and targets, as required by the [Federal Sustainable Development Act](#). This is the first FSDS to be framed using the 17 Sustainable Development Goals (SDGs) of the United Nations 2030 Agenda and provides a balanced view of the environmental, social, and economic dimensions of sustainable development.

In keeping with the purpose of the Act, to make decision-making related to sustainable development more transparent and accountable to Parliament, Law Commission of Canada supports the goals laid out in the FSDS through the activities described in the Commission's 2023 to 2027 Departmental Sustainable Development Strategy (DSDS). This Report provides a report on progress related to the Law Commission's DSDS in the fiscal year 2023 to 2024.

The [Federal Sustainable Development Act](#) also sets out [7 principles](#) that must be considered in the development of the FSDS as well as DSDSs. These basic principles have been considered and incorporated in the Law Commission of Canada's DSDS and 2023 to 2024 DSDS Report.

To promote coordinated action on sustainable development across the Government of Canada, [name of federal organization]'s departmental strategy reports on Canada's progress towards implementing the 2030 Agenda and advancing the SDGs, supported by the Global Indicator Framework (GIF) and Canadian Indicator Framework (CIF) targets and indicators. The Report also now captures progress on SDG initiatives that fall outside the scope of the FSDS.

Commitments for the Law Commission of Canada

GOAL 10:
ADVANCE RECONCILIATION WITH INDIGENOUS PEOPLES AND TAKE
ACTION ON INEQUALITY

GOAL 12:
REDUCE WASTE AND TRANSITION
TO ZERO-EMISSION VEHICLES

GOAL 13:
TAKE ACTION ON CLIMATE CHANGE
AND ITS IMPACTS

GOAL 10: ADVANCE RECONCILIATION WITH INDIGENOUS PEOPLES AND TAKE ACTION ON INEQUALITY

FSDS Context:

Social, economic and environmental inequalities persist in Canada. These inequalities disproportionately affect people who share multiple and intersecting identity factors, such as gender identity and expression, race and ethnicity, faith community, indigeneity, disability, sexual orientation and low socioeconomic status. Reconciliation with Indigenous peoples is essential to address social, economic and environmental inequalities and achieve lasting equality.

The re-establishment of the Law Commission of Canada is an important initiative in the context of reducing inequality and advancing reconciliation with First Nations, Inuit, and Metis communities.

The Commission will also support whole-of-government efforts to align laws, policies, programs and initiatives with the United Nations Declaration on the Rights of Indigenous Peoples and the implementation of the United Nations Declaration on the Rights of Indigenous Peoples Act.

As provided by the LCC Act, the Law Commission of Canada is to study and keep under systematic review, the law of Canada and its effects, with a view to providing independent advice on improvements, modernization and reform that will ensure a just legal system that meets the changing needs of Canadian society and of individuals in that society, including those directly linked to SDG 10.

Target theme: Advancing reconciliation with First Nations, Inuit, and the Métis communities

Target: Between 2023 and 2026, and every year on an ongoing basis, develop and table annual progress reports on implementing *the United Nations Declaration on the Rights of Indigenous Peoples Act* (Minister of Justice and Attorney General of Canada)

GOAL 12: REDUCE WASTE AND TRANSITION TO ZERO-EMISSION VEHICLES

FSDS Context:

The Government of Canada is committed to reducing plastic pollution and waste, with an approach that works at every stage of the plastics life cycle and follows the waste management hierarchy. It promotes a circular economy that promotes the sustainable design of plastic products and materials so that they can be reused, remanufactured, or recycled and therefore kept in the economy for as long as possible.

Target theme: Federal Leadership on Responsible Consumption

Target: The Government of Canada’s procurement of goods and services will be net-zero emissions by 2050, to aid the transition to a net-zero, circular economy (All Ministers)

	Program: Law Commission of Canada Secretariat	Target: 100% trained by 2024	Improve education and awareness on climate change adaptation, mitigation and reduction and early warning systems:	and by empowering employees to consider healthier ways of commuting or travelling to work that minimize impacts on the environment so that we can collectively contribute to a sustainable future.

Integrating Sustainable Development

Law Commission of Canada will continue to ensure that its decision-making process includes consideration of FSDS goals and targets through its Strategic Environmental Assessment (SEA) process. An SEA for a policy, plan or program proposal includes an analysis of the impacts of the given proposal on the environment, including on relevant FSDS goals and targets.

Public statements on the results of Law Commission's assessments are made public when an initiative has undergone a detailed SEA. The purpose of the public statement is to demonstrate that the environmental effects, including the impacts on achieving the FSDS goals and targets, of the approved policy, plan or program have been considered during proposal development and decision making.

Law Commission of Canada did not complete any detailed SEAs in 2023-24.
