Quarterly financial report

For the quarter ended September 30, 2024

Statement outlining results, risks and significant changes in operations, personnel and programs.

Introduction

This quarterly report has been prepared by management, as required by section 65.1 of the *Financial Administration Act*, and in the form and manner prescribed by the Treasury Board. This financial report should be read in conjunction with the [2024–25 Main Estimates](#). This quarterly report has not been subject to an external audit or review.

Mandate and program activities

The National Battlefields Commission (the Commission), as manager of Battlefields Park, makes it possible for Canadians to enjoy the first national historic park in Canada and one of the most prestigious urban parks in the world. The Commission is responsible for the administration, management, conservation and promotion of the Battlefields Park (located in Quebec City) and manages funds allocated for these purposes. The Commission mandate originates from the *Act respecting the National Battlefields at Québec*, passed on March 17, 1908, and its amendments. The Commission is a departmental corporation under Schedule II of the *Financial Administration Act*. The Minister of Canadian Heritage is responsible for this organization.

The Commission has two program activities: Conservation and Promotion of heritage, and internal services. Additional information on the Commission's mandate, roles, responsibilities and programs can be found in the [2024–25 Departmental Plan](#).

Basis of presentation

authorities granted by Parliament and those used by the Commission in a manner consistent with the Main Estimates for the 2024–25 fiscal year.

This quarterly report has been prepared using a special purpose financial reporting framework designed to meet financial information needs with respect to the use of spending authorities.

The authority of Parliament is required before monies can be spent by the Government. Approvals are given in the form of annually approved limits through appropriation acts or through legislation in the form of statutory spending authority for specific purposes.

When Parliament is dissolved for the purposes of a general election, section 30 of the *Financial Administration Act* authorizes the Governor General, under certain conditions, to issue a special warrant authorizing the Government to withdraw funds from the Consolidated Revenue Fund. A special warrant is deemed to be an appropriation for the fiscal year in which it is issued.

The Commission uses the full accrual method of accounting to prepare and present its annual departmental financial statements which are part of the departmental results reporting process. However, the spending authorities voted by Parliament are prepared on an expenditure basis of accounting.
