# Introduction

This tool proposes a series of questions to help federal institutions think about what they can do to:

- support the development of official language minority communities (OLMCs or communities)
- and promote English and French in Canadian society

**The questions fall under six categories:**

1. Significance of your institution's mandate and activities with regard to the communities' key priorities and the promotion of English and French in Canadian society
2. Interaction with the public and public visibility
3. Transfer payments
4. Regional presence and reach
5. Capacity to inspire pride in Canadians and to promote Canada's symbols and image
6. Capacity to influence the federal administration

By answering these questions, federal institutions should be able to identify ways to optimize their contribution to the implementation of section 41 of the *Official Languages Act*.

## Background

Section 41 of the *Official Languages Act*, found in Part VII, sets out the federal government's commitment to:

- support the development of official language minority communities—in other words, Anglophones in Quebec and Francophones in the other provinces and territories
- promote English and French in Canadian society

In this regard, all federal institutions must take positive measures to implement this commitment. Each one should therefore consider how this commitment can be put into practice by:

- raising awareness among its personnel of the obligations with respect to supporting the development of official language minority communities and the promotion of English and French in Canadian society
- reviewing all its activities and determining if they have an impact on these communities
- identifying required improvements, if applicable
- determining ways to implement these improvements

---

# 1. Significance of your institution's mandate and activities with regard to the communities' key priorities and the promotion of English and French in Canadian society

**Note:** For an overview of the priorities of the official language minority communities, visit the websites of the [Quebec Community Groups Network](#) and the [Fédération des communautés francophones et acadienne du Canada](#) (available in French only).

---

**1.1** Based on your institution's mandate, can your institution take action in an area that addresses priorities of official language minority communities?

If so:

- Are your institution's programs and/or services likely to have an impact on the development and vitality of these communities?

---

**1.2** Based on your institution's mandate, can your institution contribute to the promotion of official languages in Canadian society?

If so:

- Are your institution's programs and/or services likely to have an impact on the recognition and use of English and French in Canadian society?
  - Can they serve to promote both official languages equally?
  - Do they contribute in particular to the recognition of the French language in Canada and abroad?

---
