SECTION 1

Introduction to the Departmental Sustainable Development Strategy

The [2022 to 2026 Federal Sustainable Development Strategy \(FSDS\)](#) presents the Government of Canada's sustainable development goals and targets, as required by the [Federal Sustainable Development Act](#). This is the first FSDS to be framed using the 17 Sustainable Development Goals (SDGs) of the United Nations (UN) 2030 Agenda and provides a balanced view of the environmental, social and economic dimensions of sustainable development.

In keeping with the purpose of the Act, to make decision-making related to sustainable development more transparent and accountable to Parliament, the Public Health Agency of Canada (PHAC) supports the goals laid out in the FSDS through the activities described in this Departmental Sustainable Development Strategy (DSDS).

The Federal Sustainable Development Act also sets out [7 principles](#) that must be considered in the development of the FSDS as well as DSDSs. These basic principles have been considered and incorporated in PHAC's DSDS.

In order to promote coordinated action on sustainable development across the Government of Canada, this departmental strategy integrates efforts to advance Canada's implementation of the 2030 Agenda National Strategy, supported by the Global Indicator Framework (GIF) and Canadian Indicator Framework (CIF) targets and indicatorsⁱ. The strategy also now captures SDG initiatives that fall outside the scope of the FSDS to inform the development of the Canada's Annual Report on the 2030 Agenda and the SDGs.

SECTION 2

Public Health Agency of Canada's Sustainable Development Vision

Vision for Sustainable Development

PHAC was created within the federal Health Portfolio to deliver on the Government of Canada's commitment to increase its focus on public health in order to help protect and improve the health and safety of all Canadians and to contribute to strengthening public health capacities across Canada.

PHAC's sustainable development approach incorporates economic, social and environmental considerations into departmental decision-making. This allows PHAC to realize the benefits and impacts of policies, programs and interventions on human health for both present and future generations.

This approach is guided by the following principles:

- strengthen Canada's capacity to protect and improve the health of Canadians;
- build an effective public health system that enables Canadians to achieve better health and well-being in their daily lives by promoting good health, helping prevent chronic diseases and injury, and protecting Canadians from infectious diseases and other threats to their health; and
- reduce health disparities between the most advantaged and disadvantaged Canadians.

Support for the FSDS Goals and UN SDGs

PHAC's DSDS supports five of the 17 FSDS goals that reflect a vision for sustainable development in Canada. This is reflected through departmental actions supporting FSDS implementation strategies:

- **FSDS Goal 3: Support mental health and adopt healthy behaviours**
The Government of Canada recognizes that maintaining healthy lives and promoting the well-being of Canadians is essential to sustainable development and building prosperous, peaceful and inclusive societies. PHAC supports this goal through the collection of data to inform evidence-based decisions related to mental health and by promoting healthy behaviours to reduce cigarette smoking in Canada.

- **FSDS Goal 6: Ensure clean and safe water for all Canadians**
The Government of Canada is focused on restoring freshwater ecosystems and ensuring clean and safe water for Canadians. PHAC supports this goal by working with partners on drinking water quality through the implementation of the Potable Water on Board Trains, Vessels, Aircraft and Buses Regulations.
- **FSDS Goal 10: Advance reconciliation with Indigenous Peoples and take action on inequality**
The Government of Canada is moving forward on reconciliation with First Nations, Inuit and Métis communities, promoting diversity, equity and inclusion for groups facing discrimination and marginalization, and advancing environmental justice. PHAC supports this goal through the implementation of the [United Nations Declaration on the Rights of Indigenous Peoples Act](#).
- **FSDS Goal 12: Reduce waste and transition to zero-emission vehicles**
The Government of Canada is reducing plastic pollution and waste and promoting a circular economy that fosters sustainable design of plastic products and materials so that they can be reused, remanufactured or recycled. PHAC supports this goal by transforming its fleet towards zero-emission and hybrid vehicles, strengthening green procurement criteria, and maximizing waste diversion from landfills.
- **FSDS Goal 13: Take action on climate change and its impacts**
The Government of Canada is taking action on climate change by reducing emissions of greenhouse gases and short-lived climate pollutants and building resilience. PHAC supports this goal by implementing the Greening Government Strategy, modernizing PHAC infrastructure through net-zero carbon buildings, applying greenhouse gas reduction lifecycle cost analyses, building capacity to respond to increasing public health threats and by assessing and reducing risks posed by climate change impacts to PHAC's assets, services and operations.

The [2030 Agenda for Sustainable Development](#) is an ambitious 15-year global framework centred on a set of 17 interrelated and indivisible SDGs, which cover the social, economic, and environmental dimensions of sustainable development. Canada's [2030 Agenda National Strategy](#) sets out an approach to accelerate progress toward meeting

the SDGs in Canada and contributing to build the world envisioned in the global 2030 Agenda for Sustainable Development.

Implementation of the SDGs is tracked through the [Canadian Indicator Framework \(CIF\)](#) and the [Global Indicator Framework \(GIF\)](#). The CIF lays the foundation for Canada to track and report on its progress on the 17 SDGs and complements the GIF used to track and report Canada's progress on the global indicators for the SDGs.

PHAC contributes to Canada's implementation of the SDGs through planned initiatives towards the following goals:

- SDG 3: Good Health and Well-Being
- SDG 10: Reduced Inequalities
- SDG 11: Sustainable Cities and Communities
- SDG 13: Climate Action
- SDG 17: Partnerships for the Goals

These planned initiatives are focused on health promotion programming, monitoring health inequalities, promoting health equity, implementing the Age-Friendly Communities model, contributing to climate change adaptation policies and activities, and collaborating with partners across relevant One Health sectors to address antimicrobial resistance threats.

SECTION 3

Listening to Canadians

As required by the Federal Sustainable Development Act, PHAC has taken into account comments on the draft 2022 to 2026 FSDS made during the public consultation held from March 11 to July 9, 2022.

During the public consultation, more than 700 comments were received from a broad range of stakeholders, including governments, Indigenous organizations, non-governmental organizations, academics, businesses and individual Canadians in different age groups and of various backgrounds. The draft FSDS was also shared with the appropriate committee of each House of Parliament, the Commissioner of the Environment and Sustainable Development and the Sustainable Development Advisory Council for their review and comment.

What We Heard

Across the submissions received, PHAC identified sustainable development priorities and issues that affect us. Of priority to PHAC were suggestions to expand the focus of Goal 3 to focus on mental health, healthy behaviours and other forms of health impacts experienced by Canadians. These suggestions provide a more balanced view of sustainable development and expand the socio-economic focus of health and well-being.

What We Did

PHAC took the above-mentioned key priorities and issues into consideration in this DSDS. This expanded focus on good health and well-being has been integrated into the applicable departmental actions and performance indicators included in the DSDS to highlight PHAC's role in supporting mental health initiatives and promoting healthy behaviours.

Please find more information on the FSDS public consultation and its results in the [FSDS Consultation Report](#).

SECTION 4

Public Health Agency of Canada's Commitments

GOAL 3: SUPPORT MENTAL HEALTH AND ADOPT HEALTHY BEHAVIOURS

FSDS Context:

About one in three Canadians will be affected by a mental illness during their lifetime. The Government of Canada recognizes that maintaining healthy lives and promoting the well-being of Canadians is essential to sustainable development and building prosperous, peaceful and inclusive societies. In addition, the Government of Canada also encourages Canadians to adopt and maintain healthy behaviours, and tracks progress through a number of key indicators such as smoking prevalence, healthy eating and movement behaviours, and substance use harms.

PHAC contributes to the implementation of FSDS Goal 3: Support Mental Health and Adopt Healthy Behaviours by providing timely, trusted and evidence-based information to Canadians related to positive mental health, physical health, and opioid- and stimulant-related harms and by funding tobacco cessation and prevention interventions. It is expected that the uptake and use of evidence by internal and external stakeholders will continue to influence and inform decision-making, policies, programs and practices.

PHAC also supports the advancement of SDG 3: Good Health and Well-Being by supporting projects, programming and surveillance activities which address healthy behaviours and promote the well-being of all people living in Canada at all ages.

Target theme: Adopting healthy behaviours

Target: By March 2035, at most 5% of Canadians (aged 15+) are current cigarette smokers (Minister of Health)

IMPLEMENTATION STRATEGY	DEPARTMENTAL ACTION	PERFORMANCE INDICATOR STARTING POINT TARGET	HOW THE DEPARTMENTAL ACTION CONTRIBUTES TO THE FSDS GOAL AND TARGET AND, WHERE APPLICABLE, TO CANADA'S 2030 AGENDA NATIONAL STRATEGY AND SDGS
Promote healthy behaviours	<p>Continue to support efforts to reduce the death and disease burden of tobacco in Canada, through the Healthy Canadians and Communities Fund. This is part of the coordinated approach under Canada's Tobacco Strategy to help achieve less than 5% tobacco use by 2035.</p> <p>Program: Chronic Disease Prevention</p>	<p>Performance indicator: Percentage of cessation intervention participants who have not smoked in the past 6 months</p> <p>Starting point: 13% of cessation intervention participants who have not smoked in the past 6 months (2020 to 2021)</p> <p>Target: 13% of cessation intervention participants who have not smoked in the past 6 months</p> <p><u>Note:</u> A comprehensive review of existing literature on Tobacco Prevention and Cessation Intervention has identified optimal ranges for indicators a and b as follows: Target range for indicator a is (12% to 18%) with a mean of (15% ± 3%), and target range for indicator b is (12% to 16%) with a mean of (14% ± 2%). Notably, PHAC's projects yielded baseline results of 13% for both indicators, aligning closely with these identified ranges. Hence, PHAC is dedicated to preserving these favorable baseline outcomes while concurrently striving to achieve the national target of 5%.</p>	<p>Implementation of this departmental action contributes to FSDS Goal 3: Support Mental Health and Adopt Healthy Behaviours and Canada's 2030 Agenda National Strategy's focus on reducing the prevalence of cigarette smoking by supporting projects that focus on tobacco cessation and prevention. Projects funded under this program focus on priority populations that have higher rates of tobacco use and address risk factors associated with chronic disease. The efforts of PHAC's Healthy Canadians and Communities Fund, and multiple departments, are aligned to help reach the common goal of reducing death and disease burden of tobacco under Canada's Tobacco Strategy.</p> <p>Relevant targets or ambitions: <i>CIF Target 3.14:</i> By 2035, less than 5% of Canadians (aged 15+) are cigarette smokers <i>CIF Indicator 3.14.1:</i> Percentage of Canadians (aged 18+) who currently smoke cigarettes <i>GIF Target 3.5:</i> Strengthen the prevention and treatment of substance abuse, including narcotic drug abuse and harmful use of alcohol</p>
Promote healthy behaviours	Continue to support efforts to reduce the death and disease burden of tobacco in	Performance indicator:	Implementation of this departmental action contributes to FSDS Goal 3: Support

2023 to 2027 PHAC Departmental Sustainable Development Strategy: 2024 to 2025 Update

IMPLEMENTATION STRATEGY	DEPARTMENTAL ACTION	PERFORMANCE INDICATOR STARTING POINT TARGET	HOW THE DEPARTMENTAL ACTION CONTRIBUTES TO THE FSIDS GOAL AND TARGET AND, WHERE APPLICABLE, TO CANADA'S 2030 AGENDA NATIONAL STRATEGY AND SDGS
	<p>Canada, through the Healthy Canadians and Communities Fund. This is part of the coordinated approach under Canada's Tobacco Strategy to help achieve less than 5% tobacco use by 2035.</p> <p>Program: Health Promotion</p>	<p>Percentage of cessation intervention participants who have not smoked in the past 30 days</p> <p>Starting point: 13% of cessation intervention participants who have not smoked in the past 30 days (2020 to 2021)</p> <p>Target: 13% of cessation intervention participants who have not smoked in the past 30 days</p> <p><u>Note:</u> A comprehensive review of existing literature on Tobacco Prevention and Cessation Intervention has identified optimal ranges for indicators a and b as follows: Target range for indicator a is (12% to 18%) with a mean of (15% ± 3%), and target range for indicator b is (12% to 16%) with a mean of (14% ± 2%). Notably, PHAC's projects yielded baseline results of 13% for both indicators, aligning closely with these identified ranges. Hence, PHAC is dedicated to preserving these favorable baseline outcomes while concurrently striving to achieve the national target of 5%.</p>	<p>Mental Health and Adopt Healthy Behaviours and Canada's 2030 Agenda National Strategy's focus on reducing the prevalence of cigarette smoking by supporting projects that focus on tobacco cessation and prevention. Projects funded under this program focus on priority populations that have higher rates of tobacco use and address risk factors associated with chronic disease. The efforts of PHAC's Healthy Canadians and Communities Fund, and multiple departments, are aligned to help reach the common goal of reducing death and disease burden of tobacco under Canada's Tobacco Strategy.</p> <p>Relevant targets or ambitions: <i>CIF Target 3.14:</i> By 2035, less than 5% of Canadians (aged 15+) are cigarette smokers <i>CIF Indicator 3.14.1:</i> Percentage of Canadians (aged 18+) who currently smoke cigarettes <i>GIF Target 3.5:</i> Strengthen the prevention and treatment of substance abuse, including narcotic drug abuse and harmful use of alcohol</p>
Promote healthy behaviours	<p>Provide data disaggregated by social determinants of health, geography and demographics to the extent possible (e.g., income quintiles, racialized groups, Indigenous Peoples, Immigrants, etc.) through the Physical Activity, Sedentary Behaviour and Sleep (PASS) Indicator Framework to inform policy and program development that targets Canada's most vulnerable populations.</p>	<p>Performance Indicator: Number of sessions that the PASS Indicator Framework accessed</p> <p>Starting point: 4,145 (2022 to 2023)</p> <p>Target: 4,200 (By 2024 to 2025)ⁱⁱ</p>	<p>Implementation of this departmental action contributes to FSIDS Goal 3: Support Mental Health and Adopt Healthy Behaviours and Canada's 2030 Agenda National Strategy's focus on Canadians having healthy and satisfying lives as reporting on a range of PASS indicators gives a much clearer picture of how active Canadians really are and provides Canadians and health professionals with the information needed to develop</p>

IMPLEMENTATION STRATEGY	DEPARTMENTAL ACTION	PERFORMANCE INDICATOR STARTING POINT TARGET	HOW THE DEPARTMENTAL ACTION CONTRIBUTES TO THE FSDS GOAL AND TARGET AND, WHERE APPLICABLE, TO CANADA'S 2030 AGENDA NATIONAL STRATEGY AND SDGS
	Program: Evidence for Health Promotion, and Chronic Disease and Injury Prevention		effective policies and programs for a healthy and active population. Relevant targets or ambitions: <i>CIF Ambition 3.8:</i> Canadians have healthy and satisfying lives <i>CIF Indicator 3.8.1:</i> Percentage of Canadians who perceived their mental health as very good to excellent <i>GIF Target 3.4:</i> By 2030, reduce by one third premature mortality from non- communicable diseases through prevention and treatment and promote mental health and well-being

Target theme: Mental health

Target: By March 2027, reduce the percentage of Canadians (aged 15+) with a mental disorder who have expressed that they have an unmet care need to 22% at most (Minister of Health)

IMPLEMENTATION STRATEGY	DEPARTMENTAL ACTION	PERFORMANCE INDICATOR STARTING POINT TARGET	HOW THE DEPARTMENTAL ACTION CONTRIBUTES TO THE FSDS GOAL AND TARGET AND, WHERE APPLICABLE, TO CANADA'S 2030 AGENDA NATIONAL STRATEGY AND SDGS
Collect data and information to inform evidence-based decisions	<p>Conduct national surveillance of mental disorder and publish products to provide information on the burden of mental disorder to contribute to the evidence base to inform policy and program actions.</p> <p>Program: Evidence for Health Promotion, and Chronic Disease and Injury Prevention</p>	<p>Performance Indicator: Number of surveillance products on mental disorders published annually</p> <p>Starting point: 3 (2024 to 2025)</p> <p>Target: 4 (By March 31, 2026) ⁱⁱⁱ</p>	<p>Implementation of this departmental action contributes to FSDS Goal 3: Support Mental Health and Adopt Healthy Behaviours and Canada's 2030 Agenda National Strategy's focus on Canadians having healthy and satisfying lives by monitoring the burden of mental disorder in Canada to inform programs and policies to improve the mental health of people in Canada.</p> <p>Relevant targets or ambitions: <i>CIF Ambition 3.8:</i> Canadians have healthy and satisfying lives <i>CIF Indicator 3.8.1:</i> Percentage of Canadians who perceived their mental health as very good to excellent <i>GIF Target 3.4:</i> By 2030, reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being.</p>
Collect data and information to inform evidence-based decisions	<p>Utilize the Positive Mental Health Surveillance Indicator Framework to provide information on positive mental health outcomes and their associated risk and protective factors to be used by internal and external stakeholders to influence and inform decision-making, policies, programs and practices.</p>	<p>Performance Indicator: Percentage of respondents using the Positive Mental Health Surveillance Indicator Framework evidence</p> <p>Starting point: 81% (2018 to 2019)</p> <p>Target: 81% (annual)^{iv}</p>	<p>Implementation of this departmental action contributes to FSDS Goal 3: Support Mental Health and Adopt Healthy Behaviours and Canada's 2030 Agenda National Strategy's focus on Canadians having healthy and satisfying lives by monitoring the state of positive mental health and well-being in Canada to inform</p>

2023 to 2027 PHAC Departmental Sustainable Development Strategy: 2024 to 2025 Update

IMPLEMENTATION STRATEGY	DEPARTMENTAL ACTION	PERFORMANCE INDICATOR STARTING POINT TARGET	HOW THE DEPARTMENTAL ACTION CONTRIBUTES TO THE FSIDS GOAL AND TARGET AND, WHERE APPLICABLE, TO CANADA'S 2030 AGENDA NATIONAL STRATEGY AND SDGS
	Program: Evidence for Health Promotion, and Chronic Disease and Injury Prevention		<p>programs and policies to improve the mental health of people in Canada.</p> <p>Relevant targets or ambitions: <i>CIF Ambition 3.8:</i> Canadians have healthy and satisfying lives <i>CIF Indicator 3.8.1:</i> Percentage of Canadians who perceived their mental health as very good to excellent <i>GIF Target 3.4:</i> By 2030, reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being</p>
Collect data and information to inform evidence-based decisions	<p>Conduct National surveillance of opioid- and stimulant-related harms in Canada and publish reports on deaths, hospitalizations, emergency department visits, and emergency medical services responses to support the federal government's ability to monitor, understand, and report on the overdose crisis at a national level and contribute to the evidence base to inform policy and program actions.</p> <p>Program: Evidence for Health Promotion, and Chronic Disease and Injury Prevention</p>	<p>Performance Indicator: Number of surveillance reports published annually</p> <p>Starting point: 4 (2022 to 2023)</p> <p>Target: 4 (annual)^v</p>	<p>Implementation of this departmental action contributes to the FSIDS Goal 3: Support Mental Health and Adopt Healthy Behaviours, as well as Canada's 2030 Agenda National Strategy's focus on Canadians having healthy and satisfying lives. 			prevention and treatment and promote mental health and well-being
Work with partners and stakeholders to expand access to mental health services	<p>Improve understanding and awareness of factors that impact the mental health of Black people in Canada and aid in the development of more culturally relevant knowledge, capacity and programs that address mental health and its determinants through the Promoting Health Equity: Mental Health of Black Canadians Fund and the Knowledge Mobilization Network.^{vi}</p> <p>Program: Health Promotion</p>	<p>Performance Indicator: Number of community-partnered interventions developed to promote positive mental health for Black people in Canada</p> <p>Starting point: 23 interventions developed between 2018-2024</p> <p>Target: 27 (2025-2026)</p>	<p>Implementation of this departmental action contributes to the FSDS Goal 3: Support Mental Health and Adopt Healthy Behaviours, as well as Canada's 2030 Agenda National Strategy's focus on Canadians having healthy and satisfying lives. This work will generate new evidence on culturally focused programs and interventions that address mental health and its determinants for Black Canadians.</p> <p>Relevant targets or ambitions: <i>CIF Ambition 3.8:</i> Canadians have healthy and satisfying lives <i>CIF Indicator 3.8.1:</i> Percentage of Canadians who perceived their mental health as very good to excellent <i>GIF Target 3.4:</i> By 2030, reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being</p>

Initiatives advancing Canada’s implementation of SDG 3 – Good Health and Well-Being

The following initiatives demonstrate how PHAC programming supports the 2030 Agenda and the SDGs, supplementing the information outlined above.

PLANNED INITIATIVES	ASSOCIATED DOMESTIC TARGETS OR AMBITIONS AND/OR GLOBAL TARGETS
<ul style="list-style-type: none"> • Healthy Canadians and Communities Fund contributes to the achievement of SDG 3 by supporting projects that improve health behaviours (e.g., physical activity, healthy eating, and decreased tobacco use) to help Canadians lead healthy lives and promote their well-being. • National Suicide Prevention Action Plan (2024 to 2027) contributes to the achievement of SDG 3 by helping to reduce suicide rates and improve mental well-being based on best practices and innovation in suicide prevention and life promotion.^{vii} • Promoting and increasing awareness of 9-8-8: Suicide Crisis Helpline contributes to the achievement of SDG 3 by providing a resource that is available for everyone in Canada, 24/7, by phone calls and texts, to access suicide crisis support through trained responders. In many parts of the country, First Nations, Inuit and Métis peoples who call 9-8-8 have the option to be connected the Hope for Wellness Helpline. Hope for Wellness is funded by Indigenous Services Canada and provides support to Indigenous peoples in Cree, Ojibway, and Inuktitut upon request.^{viii} • Advancing the implementation of A Dementia Strategy for Canada: Together We Aspire, with support of the Dementia Strategic Fund and the Dementia Community Investment, contributes to the achievement of SDG 3 by supporting activities aimed at preventing dementia and improving the quality of life of people living with dementia and caregivers.^{ix} • Community Action Program for Children contributes to the achievement of SDG 3 by promoting the health and well-being of children (birth to six years) and their families who face challenges that may put their health at risk.^x • Canada Prenatal Nutrition Program contributes to the achievement of SDG 3 by taking steps to support the health and well-being of pregnant women and people and their infants who face challenges that may put their health at risk.^{xi} • Framework for Diabetes in Canada and the implementation of the Type 2 Diabetes Prevention Challenge contributes to the achievement of SDG 3 by promoting innovative approaches to addressing barriers that lead to an increased risk of developing Type 2 Diabetes in Canada. 	<p>These strategies contribute to:</p> <ul style="list-style-type: none"> • <i>CIF Ambition 3.1 – 3.5:</i> Canadians adopt health behaviours including increased consumption of fruits and vegetables, decreased prevalence of vaping among youth, decreased percentage of population that is overweight or obese and decreased prevalence of harmful alcohol use; • <i>CIF Ambition 3.6 – 3.8:</i> Canadians have healthy and satisfying lives including overall health, mental health and social well-being; • <i>CIF Ambition 3.9 – 3.14:</i> Canada prevents causes of premature death including increased vaccination rates for selected diseases, decreased incidence of selected diseases, decreased mortality rate for selected causes of death, decreased incidence of Tuberculosis in Inuit Nunangat, decreased incidence of opioid and stimulant overdose related harms and decreased prevalence of cigarette smoking; • <i>GIF Target 3.2:</i> By 2030, end preventable deaths of newborns and children under 5 years of age, with all countries aiming to reduce neonatal mortality to at least as low as 12 per 1,000 live births and under-5 mortality to at least as low as 25 per 1,000 live births; • <i>GIF Target 3.3:</i> By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, waterborne diseases and other communicable diseases; • <i>GIF Target 3.4:</i> By 2030, reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being; • <i>GIF Target 3.5:</i> Strengthen the prevention and treatment of substance abuse, including narcotic drug abuse and harmful use of alcohol; • <i>GIF Target 3.b:</i> Support the research and development of vaccines and medicines for the communicable and non-communicable diseases that primarily affect developing countries, provide access to affordable essential medicines and vaccines, in accordance with the Doha Declaration on the TRIPS Agreement and Public Health, which affirms the right of developing countries to use to the full the provisions in the Agreement on Trade-Related Aspects of Intellectual Property Rights regarding flexibilities to protect public health, and, in particular, provide access to medicines for all; and

2023 to 2027 PHAC Departmental Sustainable Development Strategy: 2024 to 2025 Update

PLANNED INITIATIVES	ASSOCIATED DOMESTIC TARGETS OR AMBITIONS AND/OR GLOBAL TARGETS
<ul style="list-style-type: none"> • Mental Health Promotion Innovation Fund contributes to the achievement of SDG 3 by supporting the delivery of innovative, community-based programs in mental health promotion that aim to address health equity. • Government of Canada's Action Plan on Sexually Transmitted Blood-Borne Infections (STBBI) and the Pan-Canadian STBBI Framework for Action contributes to the achievement of SDG 3 by increasing knowledge and reducing barriers to accessing health services, including testing, prevention and treatment for STBBI through a number of activities. • Expanding the Canadian Nosocomial Infection Surveillance Program in hospitals and long-term care facilities contributes to the achievement of SDG 3 by strengthening infection prevention and control measures and reducing transmission of disease in Canadian acute care hospitals and in long-term care settings through surveillance and reporting. • Expanding the Canadian Integrated Program for Antimicrobial Resistance Surveillance (AMR) and operationally linked FoodNet Canada, and contribute to the achievement of SDG 3 by applying a One Health approach to generating, analyzing and communicating AMR and/or AMU data from animals, retail meat, humans, plants/crops, water and the food-animal production environment to improve the detection of AMR threats in the food chain.^{xii} • Immunization Partnership Fund contributes to the achievement of SDG 3 by providing funding to assist priority populations, particularly populations experiencing or facing systematic and/or structural inequities to increase vaccine confidence and uptake for all vaccines across the life course.^{xiii} • The Pan - Canadian Health Inequalities Reporting Initiative and Data Tool contributes to the achievement of SDG 3 by supporting Canada's domestic and international commitments to measure and monitor health inequalities. This tool contains data on indicators of health outcomes and health determinants, stratified by a range of social and economic characteristics meaningful to health equity. It identifies where health inequalities exist across different groups at national and provincial/territorial levels, and the magnitude of inequalities. • Advancing the implementation of Canada's Autism Strategy to support federal implementation of the Framework for Autism in Canada contributes to the achievement of SDG 3 by supporting activities aimed at increasing public awareness, understanding and acceptance of autism, improved screening, diagnosis and services, strengthened economic inclusion, enhanced data collection, public health surveillance and research and further accessibility to evidence-informed autism resources and tools.^{xiv} 	<ul style="list-style-type: none"> • <i>GIF Target 3.d:</i> Strengthen the capacity of all countries, in particular developing countries, for early warning, risk reduction and management of national and global health risks.

GOAL 6: ENSURE CLEAN AND SAFE WATER FOR ALL CANADIANS

FSDS Context:

The Government of Canada is focused on restoring freshwater ecosystems and ensuring clean and safe water for Canadians.

PHAC supports the implementation of FSDS Goal 6: Ensure Clean and Safe Water for All Canadians through its administration of the Potable Water on Board Trains, Vessels, Aircraft and Buses Regulations. Through its inspections, PHAC will ensure that passenger transportation operators are compliant with the regulations, that the water on their transport is safe for travelling public consumption and any required actions are addressed in a timely manner.

Implementation strategies supporting the goal

This section is for implementation strategies that support the goal “Ensure clean and safe water for all Canadians” but not a specific FSDS target

IMPLEMENTATION STRATEGY	DEPARTMENTAL ACTION	PERFORMANCE INDICATOR STARTING POINT TARGET	HOW THE DEPARTMENTAL ACTION CONTRIBUTES TO THE FSDS GOAL AND TARGET AND, WHERE APPLICABLE, TO CANADA’S 2030 AGENDA NATIONAL STRATEGY AND SDGS
Work with partners on drinking water quality	<p>Implement Potable Water on Board Trains, Vessels, Aircraft and Buses Regulations (Potable Water Regulations) including conducting inspections and assessments on international and interprovincial airplanes, trains, cruise ships, ferries and buses to protect the health and safety of the travelling public, ensuring that critical violations are mitigated in a timely manner.</p> <p>Program: Border and Travel Health</p>	<p>Performance Indicator: Percentage of inspected passenger transportation conveyances and ancillary service facilities that meet public health requirements</p> <p>Starting point: 88% (2013 to 2014)</p> <p>Target: 95% (annual)</p>	<p>Implementation of this departmental action contributes to the achievement of FSDS Goal 6: Ensure Clean and Safe Water for All Canadians and the Canada 2030 Agenda National Strategy’s focus on providing access to clean and safe water for all Canadians by conducting inspections on conveyances to verify compliance with the Potable Water Regulations.</p> <p>Relevant targets or ambitions: <i>CIF Ambition 6.1:</i> Canadians have access to drinking water and use it in a sustainable manner <i>CIF Indicator:</i> No specific indicator <i>GIF Target 6.1:</i> By 2030, achieve universal and equitable access to safe and affordable drinking water for all</p>

GOAL 10: ADVANCE RECONCILIATION WITH INDIGENOUS PEOPLES AND TAKE ACTION ON INEQUALITY

FSDS Context:

Canada's commitment to implementing the United Nations Declaration on the Rights of Indigenous Peoples reflects the importance of working collaboratively with First Nations, Inuit and Métis communities to advance reconciliation and promote greater equality and prosperity for Indigenous Peoples and all Canadians.

PHAC supports the implementation of FSDS Goal 10: Advance Reconciliation with Indigenous Peoples and Take Action on Inequality by advancing work related to several Action Plan Measures contained in the UN Declaration Act (UNDA) Action Plan. This work includes leading on mental health promotion and prevention programming in Indigenous communities, co-leading with Health Canada and Indigenous Services Canada on improving bilateral collaboration and linkages among federal, provincial, and territorial officials and Indigenous representatives across public health and health care systems and supporting several other broader actions such as cultural competency training.

In addition, PHAC supports the advancement of SDG 10: Reduced Inequalities by partnering with community-based organizations, researchers and others in Black communities to generate new evidence on culturally focused programs and interventions that address mental health and its determinants for Black Canadians.

Target theme: Advancing reconciliation with First Nations, Inuit, and the Métis communities

Target: Between 2023 and 2026, and every year on an ongoing basis, develop and table annual progress reports on implementing the United Nations Declaration on the Rights of Indigenous Peoples Act (Minister of Justice and Attorney General of Canada)

IMPLEMENTATION STRATEGY	DEPARTMENTAL ACTION	PERFORMANCE INDICATOR STARTING POINT TARGET	HOW THE DEPARTMENTAL ACTION CONTRIBUTES TO THE FSDS GOAL AND TARGET AND, WHERE APPLICABLE, TO CANADA'S 2030 AGENDA NATIONAL STRATEGY AND SDGS
Implement the United Nations Declaration on the Rights of Indigenous Peoples Act	<p>Advance mental health promotion and prevention programming for Indigenous populations</p> <p>Program: Health Promotion</p>	<p>Performance Indicator: Indigenous partners are engaged in developing or adapting PHAC-led mental health promotion and prevention programming in Canada to facilitate the participation of Indigenous Communities</p> <p>Starting point: New initiative</p> <p>Target: Indigenous partners are engaged in 85% of new or evolving programming (e.g. 9-8-8, Youth Substance Use Prevention Program, Mental Health Promotion Innovation Fund).^{xv}</p>	<p>Implementation of this departmental action contributes to the achievement of FSDS Goal 10: Advance Reconciliation with Indigenous Peoples and Take Action on Inequality and the 2023 UNDA Action Plan as one of the Action Plan's measures (APM) is to "Work with partners and Indigenous organizations on mental health promotion programming and prevention initiatives, including using distinctions-based approaches where feasible to support culturally safe, relevant and trauma-informed initiatives." PHAC has been identified as the lead for this APM to help advance reconciliation with First Nations, Inuit and Métis as part of efforts to uphold and implement the United Nations Declaration on the Rights of Indigenous Peoples.</p> <p>Relevant targets or ambitions: <i>CIF Ambition: 3.8:</i> Canadians have health and satisfying lives; 3.13: Canada prevents causes of premature death <i>CIF Indicator 3.8.1:</i> Percentage of Canadians who perceived their mental health as very good to excellent; 3.13.1: Rate of apparent opioid toxicity deaths per 100,000 population</p>

2023 to 2027 PHAC Departmental Sustainable Development Strategy: 2024 to 2025 Update

IMPLEMENTATION STRATEGY	DEPARTMENTAL ACTION	PERFORMANCE INDICATOR STARTING POINT TARGET	HOW THE DEPARTMENTAL ACTION CONTRIBUTES TO THE FSDS GOAL AND TARGET AND, WHERE APPLICABLE, TO CANADA'S 2030 AGENDA NATIONAL STRATEGY AND SDGS
			<i>GIF Target 3.4:</i> By 2030, reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being; 3.5: Strengthen the prevention and treatment of substance abuse, including narcotic drug abuse and harmful use of alcohol.
Implement the United Nations Declaration on the Rights of Indigenous Peoples Act	<p>Advance Federal/Provincial/Territorial and Indigenous (FPT-I) governance on health priorities</p> <p>Program: Internal Services</p>	<p>Performance Indicator: Establishment of the work plan for the Indigenous Rights and Reconciliation Working Group for the Public Health Network (PHN), including the launch of the PHN Indigenous Unlearning Club</p> <p>Starting point: New initiative</p> <p>Target: By March 31, 2025^{xvi}</p>	<p>Implementation of this departmental action contributes to the achievement of FSDS Goal 10: Advance Reconciliation with Indigenous Peoples and Take Action on Inequality and the 2023 UNDA Action Plan as one of the Action Plan's measures is to "Strengthen Indigenous engagement by improving bilateral mechanisms with Indigenous partners, improve linkages between federal/ provincial/territorial officials and Indigenous representatives across public health and health care systems and better align the Health Portfolio and Indigenous Services Canada on strategic direction. Supporting FPT-I linkages." PHAC has been identified as co-lead (with Health Canada and Indigenous Services Canada) to help advance reconciliation with First Nations, Inuit and Metis as part of efforts to uphold and implement the United Nations Declaration on the Rights of Indigenous Peoples.</p> <p>Relevant targets or ambitions: <i>CIF Ambition 16.7:</i> Canadians are supported by effective, accountable, and transparent institutions <i>CIF Indicator 16.7.1:</i> Proportion of the population with high levels of confidence in selected institutions</p>

2023 to 2027 PHAC Departmental Sustainable Development Strategy: 2024 to 2025 Update

IMPLEMENTATION STRATEGY	DEPARTMENTAL ACTION	PERFORMANCE INDICATOR STARTING POINT TARGET	HOW THE DEPARTMENTAL ACTION CONTRIBUTES TO THE FSDS GOAL AND TARGET AND, WHERE APPLICABLE, TO CANADA'S 2030 AGENDA NATIONAL STRATEGY AND SDGS
			<i>GIF Target 10.2:</i> By 2030, empower and promote the social, economic and political inclusion of all, irrespective of age, sex, disability, race, ethnicity, origin, religion or economic or other status.
Implement the United Nations Declaration on the Rights of Indigenous Peoples Act	Advance PHAC's efforts to become a culturally safe organization through the implementation of its Indigenous Cultural Competency Policy Program: Internal Services	Performance Indicator: Number of learning opportunities made available to employees that help to build their Indigenous cultural competency across 6 pillars of knowledge and 4 depths of knowledge Starting point: 237 learning opportunities offered to employees with at least 20 per knowledge pillar, including offerings in both official languages (2022 to 2023) Target: At least 50 learning opportunities offered for each of the 6 pillars of knowledge. These offerings take into account the different depths of knowledge being pursued, employee availability and regional, language, and learning style diversity.	Implementation of this departmental action contributes to the achievement of FSDS Goal 10: Advance Reconciliation with Indigenous Peoples and Take Action on Inequality and the 2023 UNDA Action Plan as one of the Action Plan's measures is to "Develop and implement foundational training co-created by Indigenous subject matter experts, including with the Canada School of Public Service, for federal public servants that will build fundamental understanding and competence about the history, rights and title of Indigenous peoples, treaties, the UN Declaration, the <i>UN Declaration Act</i> , the dynamics of respectful relations, Indigenous-specific systemic racism, and meaningful reconciliation." PHAC is contributing to this broad APM through efforts to implement its Indigenous Cultural Competency Training Policy and Roadmap. Relevant targets or ambitions: <i>CIF Ambition 10.1:</i> Canadians live free of discrimination and inequalities are reduced; 4.1: Canadians have access to inclusive and quality education throughout their lives <i>CIF Indicator 10.2.1:</i> Proportion of the population reporting discrimination or unfair treatment <i>GIF Target 10.2:</i> By 2030, empower and promote the social, economic and political

IMPLEMENTATION STRATEGY	DEPARTMENTAL ACTION	PERFORMANCE INDICATOR STARTING POINT TARGET	HOW THE DEPARTMENTAL ACTION CONTRIBUTES TO THE FSIDS GOAL AND TARGET AND, WHERE APPLICABLE, TO CANADA'S 2030 AGENDA NATIONAL STRATEGY AND SDGS
			<p><i>CIF Ambition 10.1:</i> Canadians live free of discrimination and inequalities are reduced; 4.1: Canadians have access to inclusive and quality education throughout their lives</p> <p><i>CIF Indicator 10.2.1:</i> Proportion of the population reporting discrimination or unfair treatment</p> <p><i>GIF Target 10.2:</i> By 2030, empower and promote the social, economic and political inclusion of all, irrespective of age, sex, disability, race, ethnicity, origin, religion or economic or other status; 4.7: By 2030, ensure that all learners acquire the knowledge and skills needed to promote sustainable development, including, among others, through education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture's contribution to sustainable development</p>

Initiatives advancing Canada’s implementation of SDG 10 – Reduced Inequalities

The following initiatives demonstrate how PHAC’s programming supports the 2030 Agenda and the SDGs, supplementing the information outlined above.

PLANNED INITIATIVES	ASSOCIATED DOMESTIC TARGETS OR AMBITIONS AND/OR GLOBAL TARGETS
<ul style="list-style-type: none">Promoting Health Equity: Mental Health of Black Canadians Fund including the Knowledge Mobilization Network contributes to the achievement of SDG 10 by helping to improve understanding and awareness of factors that impact the mental health of Black Canadians and aid in the development of more culturally relevant knowledge, capacity and programs that address mental health and its determinants.	<p>This strategy contributes to:</p> <ul style="list-style-type: none"><i>CIF Ambition 10.1 – 10.2:</i> Canadians live free of discrimination and inequalities are reduced; and<i>GIF Target 10.3:</i> Ensure equal opportunity and reduce inequalities of outcomes, including by eliminating discriminatory laws, policies and practices and promoting appropriate legislation, policies and action in this regard.

GOAL 11: IMPROVE ACCESS TO AFFORDABLE HOUSING, CLEAN AIR, TRANSPORTATION, PARKS, AND GREEN SPACES, AS WELL AS CULTURAL HERITAGE IN CANADA

FSDS Context:

In Canada, making cities and communities sustainable means improving access to transportation, parks and green spaces. As Canada's senior population is growing, this makes it more important than ever to support the health and well-being of older Canadians. This way, seniors can lead healthy and active lives and stay involved in their communities.

PHAC supports the advancement of SDG 11: Sustainable Cities and Communities through the implementation of the Age-Friendly Communities model by helping to ensure policies, services and structures related to the physical and social environment are designed to support older adults to live safely, enjoy good health, and stay involved in community life.^{xviii}

Initiatives advancing Canada’s implementation of SDG 11 – Sustainable Cities and Communities

The following initiatives demonstrate how PHAC’s programming supports the 2030 Agenda and the SDGs, supplementing the information outlined above.

PLANNED INITIATIVES	ASSOCIATED DOMESTIC TARGETS OR AMBITIONS AND/OR GLOBAL TARGETS
<ul style="list-style-type: none">Implementing the Age-Friendly Communities model contributes to the achievement of SDG 11 by helping to ensure policies, services and structures related to the physical and social environment are designed to support older adults to live safely, enjoy good health, and stay involved in community life.^{xix}	<p>This strategy contributes to:</p> <ul style="list-style-type: none"><i>CIF Ambition 11.3 – 11.7:</i> Canadians live in healthy, accessible, and sustainable cities and communities; and<i>GIF Target 11.7:</i> By 2030, provide universal access to safe, inclusive and accessible, green and public spaces, in particular for women and children, older persons and persons with disabilities.

GOAL 12: REDUCE WASTE AND TRANSITION TO ZERO-EMISSION VEHICLES

FSDS Context:

By transitioning to a cleaner and more circular economy that prioritizes reducing consumption and waste generation, we can help reduce negative impacts on the environment. As Canada aims to reduce the amount of waste produced, it will be important to look at circularity sector by sector to overcome unique barriers and take advantage of existing and emerging opportunities.

PHAC contributes to the implementation of FSDS Goal 12: Reduce Waste and Transition to Zero-Emission Vehicles by supporting the principles of the circular economy in considering the full life cycle of our procurement decisions, supporting the transition to zero-emission vehicles, and tracking, monitoring and reporting publicly on waste diversion in order to identify opportunities to reduce the environmental impact of our operations.

Target theme: Federal Leadership on Responsible Consumption

Target: By 2030, the Government of Canada will divert from landfill at least 75% by weight of non-hazardous operational waste (All Ministers)

IMPLEMENTATION STRATEGY	DEPARTMENTAL ACTION	PERFORMANCE INDICATOR STARTING POINT TARGET	HOW THE DEPARTMENTAL ACTION CONTRIBUTES TO THE FSDS GOAL AND TARGET AND, WHERE APPLICABLE, TO CANADA'S 2030 AGENDA NATIONAL STRATEGY AND SDGS
Maximize diversion of waste from landfill	<p>Track and disclose waste diversion rates.</p> <p>Assess the waste stream to inform future decisions and options to divert operational waste in custodial facilities from landfills.</p> <p>Program: Internal Services</p>	<p>Performance indicator: Percentage of non-hazardous operational waste diverted from landfills</p> <p>Starting point: 64.5% (2022 to 2023)</p> <p>Target: 75% (By 2030)</p>	<p>Implementation of this departmental action contributes to FSDS Goal 12: Reduce Waste and Transition to Zero-Emission Vehicles and Canada's 2030 Agenda National Strategy's focus on sustainable consumption and waste reduction by analyzing waste audit results to communicate, strategize and develop additional waste diversion methodologies in support of sustainable consumption and waste reduction in custodial facilities.</p> <p>Relevant targets or ambitions: <i>CIF Ambition 12.1:</i> Canadians consume in a sustainable manner <i>CIF Indicator:</i> No specific indicator <i>GIF Target 12.5:</i> By 2030, substantially reduce waste generation through prevention, reduction, recycling and reuse</p>
Maximize diversion of waste from landfill	<p>Track and disclose waste diversion rates.</p> <p>Reduce the unnecessary use of single-use plastics in custodial facilities.</p> <p>Program: Internal Services</p>	<p>Performance indicator: Percentage of unnecessary use of single-use plastics waste diverted from landfills</p> <p>Starting point: 65.5% (2022 to 2023)</p> <p>Target: 75% (By 2030)</p>	<p>Implementation of this departmental action contributes to FSDS Goal 12: Reduce Waste and Transition to Zero-Emission Vehicles and Canada's 2030 Agenda National Strategy's focus on sustainable consumption and waste reduction by analyzing waste audit results to communicate, strategize and develop additional waste diversion methodologies to support the reduction of single-use plastics in custodial facilities.</p>

GOAL 13: TAKE ACTION ON CLIMATE CHANGE AND ITS IMPACTS

FSDS Context:

Effective and urgent action on climate change requires transitioning to a net-zero economy by reducing greenhouse gas and short-lived climate pollutant emissions while continuing to grow prosperity, and by realizing opportunities in emerging markets such as renewable energy and clean technology. At the same time, given the unprecedented climate-related events such as wildfires with widespread smoke pollution, record breaking heat and rainfall events, Canada needs to adapt to the changing climate by building resilience and reducing vulnerability to impacts in communities, regions, ecosystems, and economic sectors.

PHAC supports the implementation of FSDS Goal 13: Take Action on Climate Change and its Impacts by monitoring its energy usage and GHG emissions to identify opportunities to improve the environmental performance of custodial buildings. In addition, PHAC has established a Public Health and Climate Change Hub to advance activities focusing on core public health functions of surveillance, assessment and science, public health guidance, emergency preparedness, programming and partnerships that build overall resilience to climate threats. Climate resilience is also being integrated into planning processes through the use of climate resilient building designs in applicable projects and through the Agency-wide climate change risk assessment which will help understand the impact of climate change on Agency assets, services and operations.

PHAC also supports the advancement of SDG 13: Climate Action by contributing to the mitigation of the impacts of climate change on health through its support of the Pan-Canadian Framework on Clean Growth and Climate Change, Canada's National Adaptation Strategy, as well as the Government of Canada's National Adaptation Action Plan. This work supports climate change adaptation and resiliency by equipping health professionals, individuals and communities with the information needed to protect and improve health from climate sensitive infectious diseases.

Target theme: Federal Leadership on Greenhouse Gas Emissions Reductions and Climate Resilience

Target: The Government of Canada will transition to net-zero carbon operations for facilities and conventional fleets by 2050 (All Ministers)

IMPLEMENTATION STRATEGY	DEPARTMENTAL ACTION	PERFORMANCE INDICATOR STARTING POINT TARGET	HOW THE DEPARTMENTAL ACTION CONTRIBUTES TO THE FSDS GOAL AND TARGET AND, WHERE APPLICABLE, TO CANADA'S 2030 AGENDA NATIONAL STRATEGY AND SDGS
Implement the Greening Government Strategy through measures that reduce greenhouse gas emissions, improve climate resilience, and green the government's overall operations	Undertake outreach activities to integrate sustainable development in Agency operations. Program: Internal Services	Performance Indicator: Number of outreach activities to employees to build capacity on strategic environmental assessments, raise awareness about climate change, and promote best practices and tools in support of Greening Government Strategy objectives Starting point: PHAC undertook 19 outreach activities (2022 to 2023) Target: 25 (annual)	Implementation of this departmental action contributes to FSDS Goal 13: Take Action on Climate Change and its Impacts and Canada's 2030 Agenda National Strategy's focus on greening the government's operations by increasing awareness of climate change and sustainable development within the Agency. Relevant targets or ambitions: <i>CIF Ambition 13.2:</i> Canadians are well equipped and resilient to face the effects of climate change <i>CIF Indicator:</i> No specific indicator <i>GIF Target 13.3:</i> Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning
Implement the Greening Government Strategy through measures that reduce greenhouse gas emissions, improve climate resilience, and green the government's overall operations	Adopt and maintain approaches and activities that reduce PHAC's energy use and improve the overall environmental performance of custodial facilities. Program: Internal Services	Performance Indicator: Percentage change in GHG emissions from custodial facilities from fiscal year 2005 to 2006 (7.32ktCO ₂ e) Starting point: GHG emissions from facilities in fiscal year 2005 to 2006 = 7.32ktCO ₂ e (7.00 ktCO ₂ e in 2022 to 2023) Target:	Implementation of this departmental action contributes to FSDS Goal 13: Take Action on Climate Change and its Impacts and Canada's 2030 Agenda National Strategy's focus on greening the government's operations by measuring emissions to strive toward reducing emission levels 40% below 2005 levels by 2030, and net zero by 2050 of custodial facilities. Relevant targets or ambitions:

2023 to 2027 PHAC Departmental Sustainable Development Strategy: 2024 to 2025 Update

IMPLEMENTATION STRATEGY	DEPARTMENTAL ACTION	PERFORMANCE INDICATOR STARTING POINT TARGET	HOW THE DEPARTMENTAL ACTION CONTRIBUTES TO THE FSDS GOAL AND TARGET AND, WHERE APPLICABLE, TO CANADA'S 2030 AGENDA NATIONAL STRATEGY AND SDGS
		40% below 2005 levels by 2030, and net zero by 2050	<i>CIF Target 13.1:</i> Achieve 40 to 45% greenhouse gas emission reductions below 2005 levels by 2030, and achieve net-zero greenhouse gas emissions by 2050 <i>CIF Indicator 13.1.1:</i> Greenhouse gas emissions <i>GIF Target 13.2:</i> Integrate climate change measures into national policies, strategies and planning
Implement the Greening Government Strategy through measures that reduce greenhouse gas emissions, improve climate resilience, and green the government's overall operations	Identify opportunities to facilitate awareness about energy use and technologies that improve environmental performance of custodial facilities. Program: Internal Services	Performance indicator: Percentage of water consumption at custodial buildings that is tracked and disclosed Starting point: New initiative (79,308m ³ in 2022 to 2023) Target: 100% (annual)	Implementation of this departmental action contributes to FSDS Goal 13: Take Action on Climate Change and its Impacts and Canada's 2030 Agenda National Strategy's focus on greening the government's operations by utilizing building-level water meters to measure environmental performance and water use to identify opportunities to improve the energy efficiency and environmental performance of custodial facilities. monitoring and understanding how climate change may impact AMR threats in Canada across sectors, supporting PHAC's contributions to SDG 13. ^{xxiv}	

GOAL 17: STRENGTHEN PARTNERSHIPS TO PROMOTE GLOBAL ACTION ON SUSTAINABLE DEVELOPMENT

FSDS Context:

Diverse and inclusive partnerships are required at the local, regional, national and global levels to achieve the United Nations 2030 Agenda for Sustainable Development and its 17 Sustainable Development Goals.

PHAC supports the advancement of SDG 17: Partnerships for the Goals by addressing health equity and antimicrobial resistance (AMR) across One Health include working with domestic and international partners. In addition, PHAC is fostering meaningful and collaborative partnerships with Indigenous Peoples at the regional and national levels to advance reconciliation and implement the UN Declaration Act^{xxv}.

Initiatives advancing Canada’s implementation of SDG 17 – Partnerships for the Goals

outcomes of Inuit in Nunavut; and the Joint Executive Agenda between the BC First Nations Health Authority and PHAC to advance a holistic approach to health and wellness with First Nations in BC. ^{xxvi}	

SECTION 5

Integrating Sustainable Development

Integrating Sustainable Development

Led by the Agency's Sustainable Development Champion and the Sustainable Development Office, PHAC continues to support the Greening Government Strategy, FSDS goals and targets, and Canada's implementation and advancement of the 2030 Agenda and the SDGs.

To support capacity building on sustainable development, PHAC has made Strategic Environmental Assessment (SEA) training available for employees to learn more about the value and purpose of SEAs in the development of proposals, the roles and responsibilities of key participants in the SEA process, and linkages between SEAs and the FSDS.

PHAC undertakes outreach to build awareness and capacity in the application of sustainable development into policy and program development and planning processes. This includes online posts to employees, communications and presentations to individuals and senior management and addresses FSDS calls for departments to engage employees to encourage responsible workplaces.

Strategic Environmental Assessments (SEAs)

PHAC undertakes SEAs to promote sustainable development in decision-making. This process allows PHAC to consider the scope and nature of environmental effects, the need for mitigation, and the likely importance of any adverse environmental effects when developing policy, plan and program proposals, as required by the [Cabinet Directive on the Environmental Assessment of Policy, Plan and Program Proposals](#) (Cabinet Directive).

PHAC will continue to ensure that its decision-making process includes consideration of FSDS goals and targets through its SEA process. A SEA for a policy, plan or program proposal includes an analysis of the impacts of the given proposal on the environment, including on relevant FSDS goals and targets. In addition, the SEA process at PHAC also takes into account proposal contributions towards Greening Government Strategy commitments and other strategic considerations. As per the Cabinet Directive, SEAs involve a multi-step process at PHAC, which includes, but is not limited to, the following steps:

1. Determination of whether the proposal is excluded based on the criteria outlined in PHAC's SEA Preliminary Scan Form.
2. If the proposal is not exempt, completion of the Preliminary Scan to conduct an analysis on the environmental effects and to determine if a more detailed SEA is required.
3. If a more rigorous examination of environmental effects is needed, then a detailed SEA analysis is conducted, including a Public Statement that demonstrates how environmental factors are incorporated into the decision making process and how these factors will be mitigated.

Proposals may be exempted from conducting a SEA Preliminary Scan due to Cabinet Directive guidelines or PHAC's pre-assessment criteria. This includes considerations regarding if the proposal elements of this proposal previously been assessed under the current FSDS for their environmental impacts.

Public statements on the results of PHAC's assessments are made public when an initiative that has undergone a detailed SEA (see [here](#)). The purpose of the public statement is to demonstrate that the environmental effects, including the impacts on achieving the FSDS goals and targets, of the approved policy, plan or program have been considered during proposal development and decision making.

Endnotes:

- ⁱ The mapping of performance indicators and planned initiatives to the Canadian Indicator Framework and Global Indicator Framework has been updated throughout the document, where appropriate, to align with the latest iterations of both Frameworks.
- ⁱⁱ The performance indicator related to the Physical Activity, Sedentary Behaviour and Sleep (PASS) Indicator Framework includes an updated target to reflect the 2024 to 2025 reporting period.
- ⁱⁱⁱ A new departmental action related to mental disorder surveillance has been added which directly relates to the mental disorder with unmet care need target.
- ^{iv} The performance indicator related to the Positive Mental Health Surveillance Indicator Framework includes an updated target to reflect the planned annual reporting through the DSDS.
- ^v The departmental action related to the surveillance of opioid- and stimulant-related harms has been updated to include emergency department visits as tracking started in 2023. The target date has been updated to reflect the planned annual reporting through the DSDS. Additional clarity has been added to the section on how the departmental action contributes to Canada's 2030 Agenda National Strategy.
- ^{vi} A new departmental action related to the Mental Health of Black Canadians has been added which directly relates to the mental disorder with unmet care need target.
- ^{vii} The title of the planned initiative related to the National Suicide Prevention Action Plan has been updated to include the timelines for the Plan (2024 to 2027).
- ^{viii} A new planned initiative related to the 9-8-8: Suicide Crisis Helpline has been included in this section.
- ^{ix} The planned initiative related to the National Dementia Strategy has been updated to include a reference to the Dementia Community Investment as it supports the implementation of the National Dementia Strategy.
- ^x The planned initiative related to the Community Action Program for Children has been updated to align with the program description in PHAC's 2023 to 2024 Departmental Results Report.
- ^{xi} The planned initiative related to the Canada Prenatal Nutrition Program has been updated to align with the program description in PHAC's 2023 to 2024 Departmental Results Report.
- ^{xii} The planned initiative related to the Canadian Integrated Program for Antimicrobial Resistance Surveillance (CIPARS) has been updated to reflect current surveillance coverage and planned surveillance coverage in 2024 to 2025.
- ^{xiii} The planned initiative related to the Immunization Partnership Fund (IPF) has been updated to reflect the current focus of IPF funding beyond COVID-19 to include uptake of all vaccines across the life course.
- ^{xiv} A new planned initiative related to the implementation of the Framework for Autism in Canada and Canada's Autism Strategy has been included in this section.
- ^{xv} The performance indicator related to mental health programming for Indigenous populations has been adjusted to reflect the range of discussions and relationships developed on the various mental health promotion and prevention programs at PHAC for which the Agency is engaging Indigenous partners and the target has been updated to be measurable.
- ^{xvi} The performance indicator related to FPT-I governance on health priorities has been updated to reflect that the Circle for Indigenous Rights and Reconciliation for the Public Health Network is now known as the Indigenous Rights and Reconciliation Working Group.
- ^{xvii} The performance indicator related to Indigenous cultural competencies has been updated with a new starting point that reflects the implementation of the Indigenous Cultural Competency Policy at PHAC. In addition, the target has been updated to focus on an iterative 5% increase annually as opposed to specific targets each year.
- ^{xviii} The strategic context paragraph for Goal 11 has been updated to reflect the shift in focus from 'active aging' to 'healthy aging'.
- ^{xix} The planned initiative related to the Age-Friendly Communities model has been adjusted to reflect the shift in focus from 'active aging' to 'healthy aging'.
- ^{xx} The performance indicator related to greening opportunities for procurement includes an updated indicator, starting point and target to reflect new guidance from the Centre for Greening Government, Treasury Board of Canada Secretariat.
- ^{xxi} The performance indicator related to procurements over \$25 million includes an updated starting point to incorporate the 2023 to 2024 results.
- ^{xxii} The commitment related to the Climate Change and Public Health Hub was completed in the 2023 to 2024 DSDS Report and will no longer be included in the DSDS moving forward.
- ^{xxiii} The performance indicator related to the Climate Change and Public Health Plan includes an updated target of "March 31, 2025" with an expanded scope referencing the development of the associated performance management framework.
- ^{xxiv} A new planned initiative related to PHAC's work on antimicrobial resistance (AMR) has been included as it supports adoption of the United Nation's 2030 Agenda on Climate Action by implementing a One-Health Approach that addresses climate health-related risks.
- ^{xxv} The strategic context paragraph for Goal 17 has been updated to include the new planned initiative related to reconciliation.
- ^{xxvi} A new planned initiative related to PHAC's partnerships with Indigenous Peoples has been included to highlight activities that advance progress on reconciliation as a key priority for the Agency.
