Isolation means staying at home when you are sick with COVID-19 and avoiding contact with other people to help prevent the spread of disease to others in your home and your community.

If you have been diagnosed with COVID-19, it is expected that you take the following measures.

**Limit contact with others**
- Do not leave home unless absolutely necessary, such as to seek medical care.
- Do not go to school, work, other public areas or use public transportation (e.g. buses, taxis).
- Arrange to have groceries and supplies dropped off at your door to minimize contact.
- Stay in a separate room and use a separate bathroom from others in your home, if possible.
- If you have to be in contact with others, keep at least 2 metres between yourself and the other person. Keep interactions brief and wear a mask.
- Avoid contact with individuals with chronic conditions, compromised immune systems and older adults.
- Avoid contact with pets if you live with other people that may also be touching the pet.

**Avoid contaminating common items and surfaces**
- At least once daily, clean and disinfect surfaces that you touch often, like toilets, bedside tables, doorknobs, phones and television remotes.
- Do not share personal items with others, such as toothbrushes, towels, bed linen, utensils or electronic devices.
- Use regular household disinfectants or diluted bleach (one part bleach and nine parts water) to disinfect.
- Place contaminated items that cannot be cleaned in a lined container, secure the contents and dispose of them with other household waste.
- Put the lid of the toilet down before flushing.

**Keep your hands clean**
- Wash your hands often with soap and water for at least 20 seconds, and dry with disposable paper towels or dry reusable towel, replacing it when it becomes wet.
- You can also remove dirt with a wet wipe and then use an alcohol-based hand sanitizer.
- Avoid touching your eyes, nose and mouth.
- Cough or sneeze into the bend of your arm or into a tissue.

**Care for yourself**
- Monitor your symptoms as directed by your healthcare provider or Public Health Authority.
- If your symptoms get worse, immediately contact your healthcare provider or Public Health Authority and follow their instructions.
- Get some rest, eat a balanced diet, and stay in touch with others through ‘communication devices’.
WE CAN ALL DO OUR PART IN PREVENTING THE SPREAD OF COVID-19. FOR MORE INFORMATION, VISIT Canada.ca/coronavirus or contact 1-833-784-4397
